The Iron Ore Taxation Bills Passed by the Senate Will be Killed in the House.

The Bill Establishing a State Grain Elevator at Duluth Passed by the Senate Today.

Congress is Asked to Make an Appropriation of \$250,000 for Reservoirs in Northern Minnesota.

Markham's Bill Extending the Mineral Lease Act to Other Counties is Recommended for Passage.

ST. PAUL, April 1.—[Special to The Herald].—In the senate today the iron ore bill was reported back to the committee without recommendation. Hiler's joint resolution asking congress for an appropriation to make a survey for a canal between Lake Superior and the Mississippi river passed under suspension of the rules.

Senator Smith's bill passed the senate which provides that fish may be taken in international waters of the state in nets, meshes of which shall not exceed three and one-half inches, except during November, and Mr. Streiguh's bill amending the law relating to delinquent taxes, requiring costs to be added in publishing and Mr. Streiguh's bill requiring notice to be given of unpaid personal property tax also passed.

In the house Mr. Markham's bill extending the terms of the mineral lease act to other northern counties of the state was placed upon the general calendar and recommended to pass by a special committee.

The joint memorial to congress on an interstate anti-coal combine conference passed the house under suspension of the rules.

Mr. Williams' joint memorial to congress asking for an appropriation of \$250,000 for a system of reservoirs in the northern portion of the state passed the house under suspension of the rules.

It is generally believed that the mining tax bill, which passed the senate yesterday, will or can readily be buried in the house.

The bill establishing a state grain elevator at Duluth passed the senate this morning after considerable discussion. The opponents of the measure had no arguments to advance against the measure which seemed to have any weight with the members of the senate.

The bill has been so amended that the elevator is to be built out of the money received from inspection and weighing fees. The amount so appropriated is \$200,000. The capacity of the elevator is to be 1,500,000 bushels. The whole business is to be under control of the state grain and warehouse commission and be ready for business in October, 1894. The commission will have to publish a weekly market report giving the freight rates to all grain markets and the prices paid for wheat in these markets.

The bill passed by a vote of 31 to 11. Senator Leavitt's omnibus tax bill, proposing an amendment to the constitution, so amended by Leavitt's committee as to reduce the tax on iron ore to a minimum of 2 1/2 cents per ton and a maximum of 5 cents per ton passed the senate last night.

Senator Leavitt's bill temporarily taxing iron ore until the constitutional amendment takes effect two years from now also passed the senate. It was amended through the efforts of Daugherty and Allen to 2 1/2 cents per ton tax.

The most important bill recommended to pass in the committee of the whole of the house yesterday was that of Mr. Abbott, which provides that express companies shall be declared common carriers and places them under the control of the railroad and warehouse commission.

The senate bill exempting passengers from taxation was killed in the house on final passage.

BREAD CAST UPON THE WATERS.
A Pittsburgh Man's Reward for Helping a Hungry Tramp.

NEW YORK, April 1.—A Pittsburgh special to the World says: As a reward for giving a tramp a meal and helping him on his way, C. L. Kreissing, of the Fome Dressed Beef company, has been bequeathed \$12,000.

A year ago Kreissing, while walking down Carson street, was accosted by a stranger, who told a harrowing story of hard luck. Kreissing was on his way to a restaurant, and taking the man with him, bought him a meal. The tramp refused to drink liquor, and that caused Kreissing to take additional interest in him.

After the meal, Mr. Kreissing gave the tramp his address, some change to help him buy a ticket to his home in Kittanning and left him. A few days ago, Mr. Kreissing received word from a firm of lawyers in Kittanning, stating that the stranger whom he had helped had died and left him \$12,000 that he had come in possession of a few weeks before his death.

A singular part of the story is that another C. L. Kreissing, living at Lock Haven, has put in a claim for the money.

This Year's Failures.
NEW YORK, April 1.—Business failures throughout the United States during the past three months, as reported to Bradstreet's, number 326, a smaller total than with one exception has been similarly reported for eleven years. The total liabilities of individuals, firms and corporations failing during the past quarter aggregate \$39,421,858 as compared with \$35,861,749, an increase of \$3,560,109, or 10 per cent, while the falling off in number of failures this far this year as compared with last is a trifle over a per cent.

IN THE OIL FIELDS.

The Work Accomplished During the Past Month.

PITTSBURG, April 1.—The statement of work accomplished in the New York and Pennsylvania oil fields during the past month shows an increase in the number of completed wells, but a decrease in new work.

The summary is as follows: Total number of wells commenced in March, 140; total production, 7650 barrels; total dry, 33; increase in completed wells, 45; increase in new production, 628 barrels; increase in dry holes, 13; average March wells, 17 1/2; total drilling, March, 206; total rigs, March, 190; decrease, drilling wells, 66; increase, 198; 23.

SEVEN YEARS IN PRISON.
Dr. Pearce, of St. Paul, Sentenced For Criminal Practice.

ST. PAUL, Minn., April 1.—The motion for a new trial for Dr. T. J. Pearce, convicted of the murder of Mrs. Clayton by performing an abortion, was denied by Judge Kelly this morning, and the prisoner was sentenced to seven years in the penitentiary.

EXPLOSION IN A SHAFT

Many Miners Imprisoned and Ten Dead Bodies Have Been Recovered From the Burning Mine.

SHAMOKIN, Pa., April 1.—A miner's lamp caused an explosion in the Neilson shaft at 7 o'clock this morning. Many miners escaped but twelve or fifteen are still in the mine with poor prospects of escape. A number of mules will perish from suffocation.

Nick French, Pat and James Brennan and John Ryan are among the missing. Later—Ten dead miners have been recovered from the Neilson shaft. They are: John Rolle, married; James and Mike Brennan, single; John Ryan, single; Frederick Ginter, single; John Burt, married; John Curry, married; Joe Bortz, single; Nick Dotson, married; Frank Shupis, single.

It is not known whether there are any more in the mine, which is burning fiercely with momentary danger of an explosion. Despite this a force of men are bravely battling the flames and gas.

The dead were all found in the red ash vein, to which place the smoke found its way in the vein 200 feet below. One thousand men are thrown out of work.

THE CASE OF ROACH.

Precedents Showing Congress Can Assume Jurisdiction.

WASHINGTON, April 1.—In the search for precedents bearing on the Roach case, the most applicable instance found is contained in the proceedings of the Forty-fourth congress in 1876. The committee on judiciary of the house and the senators were directed to inquire what action should be taken by the house in reference to the charge that persons now in office were charged with complicity in the alleged corrupt use of money to procure the passage of an act for an additional China mail service.

The main report, which was counteracted by Messrs. Hunton and Frye, held that the constitution could not vest in congress a jurisdiction to try a member for an offense committed before his election. For such offense a member, like any other citizen, is amenable to the courts alone.

Mr. Hoar held the same opinion in 1876 as now. He signed the minority report which says: "The fact that the questions involved as to the guilt of accused members have been reached to the courts of the District of Columbia does not and cannot affect the question of jurisdiction, nor in any manner affect the house from its duty, as has been held in the cases of Kilbourne and Belknap. The case of Humphrey Marshall, referred to in the report of majority is not a case in point. He was accused of the crime of perjury, committed before the state court in Kentucky; a majority of the senate concluded that he was entitled to a trial before a jury."

"If the members in the cases before congress were accused of the crime of perjury committed in a state court, in dealing with the question entirely different considerations might be presented. Without now discussing or deciding the question to what depths of infamy a member must have sunk, if condemned by his constituents, before the house should exercise the power to expel him, or without deciding that there is any depth of infamy which if, so condoned, would authorize such expulsion, it is sufficient to say that in the cases before the house the offenses, as alleged, related directly to the attempted corruption of members of the congress of the United States, which crime, or crimes, wherever originated, were consummated, as alleged, in the district of Columbia, or within the halls of the capitol."

"In the state of New York, in the case of George G. Barnard, one of the justices of its supreme court, he was held liable to impeachment for offenses committed by him before he was elected to the term of office which he then held. The senate asserted the same principle. The senate of the United States recently held jurisdiction in a case in which the alleged limitation, if any, forbidding it is found in the words of legislation."

"The undersigned therefore recommend the adoption of the following resolution: Resolved, that the house of representatives has jurisdiction in the cases of Wm. S. King and John G. Schumaker, and that it be referred to the committee on civil service reform, to ascertain and report."

A Significant Inquiry.
WASHINGTON, April 1.—It is stated on very good authority that a telegram has been sent to Minnesota inquiring when the president can see Judge Lochren. It is believed that this inquiry would not have been made if the president had not made up his mind to appoint Lochren.

SIX LIVES LOST

The Higgins House at Bradford, Pa., Destroyed by Fire This Morning and Several People Perished.

Many Jumped From the Second and Third Story Windows and Escaped With Severe Injuries.

The Bodies of Six Persons Have Already Been Taken From the Ruins of the Building.

They Were Burned Beyond Recognition, and It is Said Several Other People Are Missing.

PITTSBURG, Pa., April 1.—A special to the Leader from Bradford says: Fire at 4:20 this morning destroyed the Higgins house, the Buffalo, Rochester & Pittsburgh depot, the Higgins cigar factory and the grocery store and building of J. LeRoy. At least six persons were burned to death, and the list of the injured numbers between twenty and thirty. The bodies of six persons have already been taken from the ruins and are burned beyond recognition.

Last night 125 persons went to sleep in the hotel building, and while it is known that many had jumped from the second and third story windows, it was feared that many others had perished in the flames. It was after 6 o'clock before the first body was found. It was an unrecognizable charred mass of flesh. The second was found soon after in a similar condition.

The search continues as this dispatch is being written, and it is impossible to state at present how many lives have been lost. It is feared that some of those who jumped from the hotel into the creek were drowned. The list of injured is a long one.

The inmates of the Higgins building were awakened from their sleep by a man who rushed through the hallways, kicking at the doors and calling fire. The men and women rushed from their rooms into the halls, which were already filled with smoke and flames, and the general cry was "Jump from the windows and save yourselves." Many did so, but the jump was a bad one to risk.

From the upper story it was thirty feet, on the west side, with a plank roadway on which to land. On the east side was the creek, which made the jump forty feet. Several persons made the leap for life into the stream and were rescued. Mr. and Mrs. Higgins left the burning building after they were nearly suffocated by the smoke. Mrs. Higgins was badly injured and was carried to the Riddell house.

The Riddell house has been transformed into a temporary hospital. In one room is Prof. Neumeyer, of the Jamison orchestra. His left foot was crushed, and he is seriously hurt internally. In another room, J. W. Osborne lies, both legs broken, and his back is injured. In another room are two men, hurt internally and badly bruised about their heads. Two women are in another, burned about their faces and hands. One of the women has lost her baby and her agony is pitiful.

John Johnson also was found wandering the streets with a 2-year-old baby in his arms, its face and hands burned and blistered. The cause of the fire is unknown, but it is supposed to have caught from a gas stove.

List of the injured: Pat Rhodes, ankle sprained; James Dryser, face, hands and feet badly cut; W. D. Drisdale, of Johnsbury, injured internally; J. D. Daulty, of Jamestown, hurt about the head; P. J. Campbell, of Bellwood, Pa., arm broken and hip dislocated; Harry Jones, cut about the head, face and hands; James Brissin, carpenter, head cut; W. J. Holliday, traveling salesman, ankle broken; Mrs. Weaver, hurt about the head and arm, her baby is missing; John Hanson, glass blowers, cut about the hands and head and injured internally; J. Cody, clerk, badly burned and injured from jumping; W. J. Osborne, Buffalo, injured about the back, feared that his back is broken, considered fatal; Mrs. Higgins, hurt internally and badly burned; J. W. Newbeyer, leg broken; Mrs. E. Tucker and baby, both badly burned; Mrs. Tucker was in the building but is missing; Mrs. Driscoll, injured internally; Richard Higgins, hand broken and burned; Ted Burns, fireman, badly hurt by falling wall; J. W. Pickard, night clerk, leg broken, hurt internally; Mike Collins, hand and shoulder injured; W. J. Hasted, injured internally.

The dead taken from the ruins are: Parks, machinist, Buffalo, Rochester & Pittsburgh shops; F. Havellin, engineer, body of unknown woman, supposed to be Miss G. Bond. These are all the bodies taken out up to the present. Tom Havellin, a painter, and a child of Mrs. E. Tucker are known to be in the ruins. The loss will reach \$100,000.

The following persons known to be dead are: Thomas Cullen, Bradford; F. Havellin, Sudbury; Miss Georgia Bond, Bradford; George Parks, Bradford; Baby Tucker, aged 2 years, drowned in the creek. Several others are missing. It is estimated that the loss will reach \$100,000, with a total insurance of \$50,000.

But Mrs. Mackey Was There.
NEW YORK, April 1.—A few days ago a cablegram from London announced that the famous greyhound, Fullerton, had been stolen. Its owner, Col. North, had reason to believe that the dog had been shipped to America by the steamship Paris and officers were on the look-out for the animal, when the Paris arrived here this morning. The dog was not on board, however, and no one on the steamer had seen anything of it. Mrs. J. W. Mackey arrived on the Paris and is well.

PERISHED IN THE FLAMES.

A Man Tried to Save a Boy and Both Lost Their Lives.

WALNUT RIDGE, Ark., April 1.—Fire which started in the third story of the Star hotel at 3 o'clock yesterday destroyed the hotel and several buildings adjoining and resulted in the loss of two lives.

When the occupants of the hotel reached the street, it was discovered that the seven-year old son of Landford Davidson was in the second story. An Irishman named Fitzgerald rushed up the burning stairs to save the child. Before either could return, the walls fell in and their charred bodies were found in the ruins several hours later.

The flames spread to the adjoining buildings and before the fire was extinguished, one block and a half of the business part of town was destroyed. The loss in stock and buildings is estimated at \$125,000; insurance, \$30,000.

The principal losers are: Star hotel, \$10,000; H. Arndt, general merchandise, \$12,000; Wm. Pender & Co., dry goods, \$12,000; M. Rankin, hardware, \$5,000; Andrews, groceries, \$5,000; J. Davidson, lessee of hotel, \$5,000. At the time the business blocks were burning, the saw mill building of the Kansas City and Southern Lumber company, at Fortia, was burned. Loss \$20,000.

FRENCH CABINET CRISIS.

Meline Called by the President to Form a Ministry.

PARIS, April 1.—Suppressed excitement prevails among all the political groups and considerable anxiety exists as to what will be the outcome of the crisis.

The rumors as to who President Carnot would select for the task of forming a new ministry were set at rest this morning by the announcement that the president had requested M. Meline to undertake the formation of a cabinet.

M. Meline, who is a lawyer by profession, was born in 1838. During the siege of Paris he was adjutant to the mayor of Paris. First James de Moncey. He was elected a member of the chamber of deputies in 1872. In 1876 M. Meline was under-secretary of state in the department of justice, and in 1881 he was appointed minister of agriculture. In 1888 he was named president of the chamber of deputies.

THE RUSSIAN TREATY.

A Chicago Man Who Thinks It Needs Amendment.

WASHINGTON, April 1.—Among the callers at the White House was W. B. Goldberg, of Chicago, who is a candidate for a position as minister to Greece, but is also very desirous of preventing the exchange of ratifications of the Russian treaty. He bases his objection to the treaty entirely on his experiences in Russia some years ago, during the administration of President Arthur.

Mr. Goldberg is well acquainted at the White House, having appeared there regularly just after the inauguration of several presidents, Republican and Democratic.

Mr. Goldberg says that his experience proves that the American passport is not honored in Russia, and he thinks the treaty should not be finally ratified without the incorporation of a clause providing for the recognition of all passports issued to its citizens by the United States government, whether the citizens be native or foreign born.

WILL RESIST THE LAW.

Chinese Six Companies Advise Their Countrymen Not to Obey Geary Law.

SAN FRANCISCO, April 1.—The Chinese Six Companies have issued a circular advising Chinese to refuse compliance with the Geary law. A translation of the circular in part is as follows: "This registration law is not legal. All lawyers have consulted agree to this. We have employed five attorneys to go to Washington to fight this unjust law. Wait before you do anything. Wait and we will help you. The Chinese minister has gone to the head men of the government to get decisions, and we hope to get them soon in order that our people may not be arrested and sent to jail. If these decisions are favorable, as we think they will be, you will not be sent to jail. We ought to do what is right and not take money for registration and thus lose our respectability."

THE BERING SEA CASE.

Temporary Arrangements Made Between England and Russia.

LONDON, April 1.—The St. Petersburg Times says: The Russian government has proclaimed a temporary arrangement with Great Britain in the Bering sea, a ten mile limit of main land coast and thirty miles off the Commander and Robin islands.

The Russian authorities declare that the takings of the captured Bering sealers comprised 92 per cent of females, 3 per cent males and 5 per cent doubtful. Russia complains that the dispute between Great Britain and the United States has driven all the foreign sealers to the Russian side of the Bering sea, thus causing a decrease of the Russian company's catch from 30,000 in 1891 to 20,000 in 1892.

It is satisfactory to know that the negotiations between England and Russia are most friendly. The relations of two governments were never more pleasant.

ROOING OUT BUNCO MEN.

Hot Springs, Ark., April 1.—This city has commenced the work of extermination on the bunco steers and confidence men.

Today Grand Central Pete, who hails from New York, was given twenty-four hours to leave town and he left. There are several more who are in hiding, but they will be made to leave as soon as they are located.

Sentence Commuted.

ALBANY, N. Y., April 1.—Governor Flower today commuted the sentence pronounced against Michael T. Slaney, the murderer, to imprisonment for life. Slaney was convicted in New York for the murder of Bob Lyons, a butcher. The condemned is insane.

IN THE SOCIAL WORLD

Holy Week has been quiet in Society Circles and But Few Events Can Be Recorded.

Recital to Be Given Next Week by Mrs. Stocker's Pupils Assisted by Several Musicians.

The Arion Quartet Assisted by Several Popular Musicians Give a Concert on Monday Evening.

Holy week, with all its flood of memories lead to church going people has completely killed all social happenings of importance and if possible has made the social thermometer fall lower than it has indicated at any time during the last few weeks. But even through the solemnity of the period keen society eyes claim to discern a forecast of a joyous Easterlike filled with promised happenings of a livelier period. The dates for several promising events are about decided upon and two or three upper tenor weddings are on the tapis. At any rate dry goods counters and tailor shops, to say nothing of millinery and hat stores, have been rushed with work and the lighter trappings of Easterlike are now only a few hours distant. Until then the social swim is quite lifeless.

A notice of pendency of action has been filed with Register Shepard, the title of which is Edward F. Clarke and others vs. Geo. E. Milligan and others. When the action is commenced the complaint will state that it is to annul a deed made by W. H. Smallwood and S. A. Phillips to Geo. E. Milligan, also a deed given by Geo. E. and Etta Milligan to the Virginia Iron company. The complaint will also ask that the title to the east 1/2 of the southeast 1/4 of section 8, and the west 1/2 of the northwest 1/4 of section 27-58-17, in all 160 acres be adjudged to be in the Kennedy Iron company and that the stock of the plaintiff be adjudged and declared to be a lien on the lands and premises. The land is said to be quite valuable.

WORKS ARE CROWDED

All of West Duluth Manufacturing Institutions Are Running at Full Capacity Now.

Car Works Turning Out Cabosoes and Ore Dumps and Logging Cars at a Lively Rate.

Marinette Works Has Just Completed the Big Ironing Machinery Contract—Other Industrial News.

The manufacturing of West Duluth, with the exception of the sawmills, are all running at their fullest capacity and employing more men than at any period in the history of the village. The car works now employ over 500 men and are rushing out orders for cabosoes, ore dump and logging cars. The company has commenced work on a new style of dump car which will probably revolutionize dump cars as they are sold to be a wonderful improvement over the old style. One of the number manufactured here will be placed on exhibition at the World's fair.

The Marinette works have finished the last month the largest lot of machinery ever manufactured at the head of the lakes, consisting of the five engines and rolls for the York steel plant. The value of the monster output is placed at \$200,000.

The blast furnace has been steadily at work and has turned out an immense stock of pig during the past month. The new blowing engine has arrived and the masons are laying the foundation for the powerful machine. The additional boilers required are now being placed in position.

The Great Western Manufacturing company is continually increasing the force of men and turning out all kinds of electrical supplies, including dynamos, with astonishing rapidity. The wire machinery has not yet arrived but the engineers of this department is expected to arrive in a few days and prepare the old foundry building for the introduction of the machines which will arrive before many weeks.

THE WESTMINSTER CHURCH.
Statement of the Trouble Made by the Church Committee.

To the Editor of The Herald:
The item under West Duluth news about the annual meeting of Westminster Presbyterian church, in yesterday's Herald is a sensational misrepresentation of facts.

The matter of the church is a matter of the church, stating in effect that the almost total lack of interest in the prayer meeting and the church is a growing indifference to the spiritual interests of the church was due either to the unsuitableness of his methods or to the fact that he had read the limit of his usefulness, leaving it to his judgment to act as the importance of the step demanded.

The letter was read by the pastor before the congregation and a review was made by him, in a quiet manner, of the church's history and struggles, and a summary given of the difficulties of the field. The financial standing of the church was shown to be good, there being no standing debt and only a small deficit on the salary. The church had been sealed and renovated during the past year and the Sunday school was the largest in town, while the attendance at all services compared well with the other churches of the place. The spiritual condition of the church was admitted to be poor from the fault equally of pastor, people and church members.

All this was stated calmly by the speaker and there was no "Sodom and Gomorrah" fusillade, leaving the air full of sulphurous vapors at its close," as so falsely stated by your reporter. After his retirement from the room an opportunity was given for an expression from the people and a number declared their devotion to the pastor.

A ballot was then taken and the result was 20 to 10 in his favor. The undersigned committee was appointed to convey to the pastor the confidence of the church and the result of the ballot, which was done by them. The decision on the matter of a resignation is uncertain.

The Weather.
U. S. WEATHER BUREAU, DULUTH, MINN.
April 1.—The storm that passed near this
city yesterday has moved to over Iowa, Canada
where it is central this morning. The rain
has been light, rain over the northern part
of the country, and is being followed by slightly
cooler weather.
The barometer is slightly above normal north
of Minnesota and over the Northwest. In other
sections it is lower than normal, the depression
amounting to seven-tenths of an inch over east-
ern Lake Superior.
The temperature has fallen in the sixties. The
snow has been light, rain over the northern part
of the country, and is being followed by slightly
cooler weather.
The highest temperature here yesterday was
in the low 40s, the lowest in the 20s. The shower of rain
last evening amounted to .05 inch.
Duluth, April 1.—Fair; slightly cooler today;
slight change in temperature Sunday; fresh
north to west winds.
R. H. BRONSON,
Local Forecast Official.
WASHINGTON, April 1.—Forecast till 5 p. m.
tomorrow: For Minnesota: Winds shifting to
southerly during the night; local rains or
showers Sunday; warmer Sunday morning and in
eastern portion Sunday evening.
The Iron Ore Tax.
Senators Daugherty and Allen, and
the representatives in the house from
Duluth, are entitled to congratulations
on the splendid fight which they made
yesterday against the Leavitt bill for
taxing iron ore. This bill provided for
a minimum tax of 5 cents per ton and a
maximum of 10 cents. By the splendid
work of the Duluth and Carlton county
legislators, the bill was amended so that
the maximum tax will be 5 cents and the
minimum 2½ cents, which is a material
reduction in a tax that is of an unjust
and oppressive character.
Senator Daugherty said with truth
during yesterday's debate in the senate
that a tax of 5 cents a ton is four times
as much as any other state taxes its out-
put of iron, and also four times greater
than the tax on any other property in the
state. However, St. Louis county and
the adjoining iron territory will be ob-
liged to put up with this unjust and un-
equal taxation, unless the lower branch
of the legislature indefinitely postpones
the unwise measure. The iron ranges of
Minnesota are in their infancy. They are
comparatively undeveloped, and it is a
peculiar hardship that a heavy tax should
be imposed on them at a time when out-
side capital is needed to aid in the work
of development. Capitalists will be slow
to perceive the justice of such a tax and
will limit their investments accordingly.
Not only is the tax of 2½ to 5 cents a
ton altogether too high, but the system
of imposing a specific tax on iron ore
to be turned into the state treasury is
totally wrong. It is a gross injustice to
the counties which contain iron lands.
The Two Harbors News takes the cor-
rect view of this question saying in its
last issue: "The whole
tax collected should be received by the
county where ore is mined, the state's
portion being a like per centage to that
of other taxes. These counties are as
much entitled thereto as are the agri-
cultural counties to the personal taxes
on crops, stock and other products of
their soil. There appears to be an un-
fair discrimination, and the attitude of
St. Louis county as a supplicant for a
portion of that which is wholly its own,
indicates the inequity of some of our
laws. The state will receive as roy-
alties from leases enough
to almost pay its running expenses.
Mining counties demand every dollar
their resources provide, for develop-
ment. The proposed tax is simply short-
sighted and selfish granger legislation.
It will retard the development of a sec-
tion which guarantees the balance of the
state a home market and good prices for
its produce."
The Two Harbors paper is correct.
Granger legislation is crushing enter-
prises of all kinds in Minnesota. Busi-
ness is being driven out of the state by
the foolish legislation ground out of the
legislative machine at St. Paul. The
present legislature is not peculiar in this
respect. The last three or four legisla-
tures filled the statute books with simi-
lar laws that oppress enterprise and re-
strict the development of the natural
resources of the state.
And the Lion Roared.
Illustrated sermons at evening service
are becoming very popular among New
York ministers, and they promise to be-
come a leading feature of church work
in that city in the near future, according
to all reports. A prominent minister is
quoted as saying: "We have long
needed some feature to bring the peo-
ple out to church in the evening. In my
church we have a good congregation in
the morning, but I found that there was
either a tendency to stay at home in
the evening, or to go to other churches,
where they might hear a sensational
preacher, perhaps. I began illustrating
my sermons in February, and the
beneficial effect has already been
proved. We have a congregation, now,

of from 500 to 600, where we only had
100 or so before."
Rev. C. H. Tyndall announced his ser-
mon Sunday evening. Accordingly the
tabernacle was filled, galleries and all.
All through the preliminary part of the
program a spirit of impatience, unrest
and anxiety seemed to pervade the large
audience. The reason was obvious.
They were looking for the lion.
Could it be possible that one of the
lions of the "greatest show on earth" had
escaped and Mr. Tyndall had silently
yanked him in the deep shadow of the
night into the parochial alcove and held
him captive to make him the star feature
of his evening sermon? The last feature
of the evening services was at last
reached—the sermon.
Mr. Tyndall spoke of lions—told good
lion stories. "I am going to illustrate
my sermon by the production of a lion," he
said at length. Here the reverend
speaker jerked a red tablecloth from an
object by his side and revealed a miser-
able wooden image of a lion.
An account of the scene which followed
says that a jeer went up from the gal-
lery. Then a louder jeer went up when
he pulled a string to give an imitation of
a lion's roar. It sounded like a cross
between a tin horn and a cracked tom-
bone. The gallery was erupted in less
than two minutes. After the ushers had
restored the usual quietude, the minister
continued his sermon.
Now does any person imagine that the
cause of religion is advanced by such
sensational and absurd pulpits? Is it not
a hollow mockery of religion to at-
tach such ridiculous features to a ser-
mon? Illustrated sermons are all right
—those that are properly illustrated—
but such a deception as the Rev. Tyndall
practiced, solely to create a sensa-
tion and draw a crowd savors, of the
"fakes" perpetrated by the sideshows of
third-rate circuses, and is calculated to
bring religion into contempt and lay the
fingers and sneers of the irreligious.

An Injudicious Measure.
A bill which would result in the virtual
prohibition of the sale of proprietary
medicines in this state has passed the
lower branch of the legislature and is
now before the senate. Such a measure
is unwise from whatever point of view it
may be regarded.
There is no reason why any restrictions
should be placed upon the sale of prop-
rietary medicines, many of which have
been largely used by the people for many
years, and which are found in almost
every home. There are a great many
instances where the use of these drugs
has saved the poor man a great many
dollars, when he could ill afford to pay
a large bill from a doctor. The only
source from which such a bill could
have originated must be the state
medical board, the autocratic
representative of the medical monopoly
which has been established in this state
and which has assumed to restrain from
the practice of medicine learned physi-
cians who have chosen to advertise that
they pay particular attention to certain
diseases and are making a specialty of
treating them.
It is not very long since the state had
an instance of an outrageous attempt of
this kind on the part of the medical
board, and for the determined stand
taken by Governor Merriam the attempt
would have succeeded. This medical
combine should be shorn of some of the
too extensive powers with which it is
now invested, instead of a bill being
passed which would prohibit the sale of
proprietary medicines and thus force all
to pay tribute to this combine when ill-
ness of any kind comes.
Not only would the passage of such a
law be unjust to the people generally,
but it would work a great hardship to
all the druggists in the state, who have
their stores full of proprietary medicine.
The Herald trusts, therefore, that the
senate will promptly kill the unwise
measure, and allow proprietary medi-
cines to be sold in the future free of all
restrictions as has always been the
custom.
Sweet Easteride.
The Lenten period has drawn to a
close and the church is entering upon
one of the brightest festivals upon its
calendar. Another Easter morn is at
hand. The period of sorrow and gloom
has been succeeded by a season of ex-
citing great joy. Throughout Christ-
endom the glad bells will ring merrily
tomorrow and announce in joyful tones
to a listening world that Christ has risen.
From thousands of voices praises of the
Redeemer will ascend to the great white
throne and the followers of the Lamb
will sing their Alleluia for the One who
has washed away the sins of the world.
Under the glad influence of the customs
of Easteride, the world grows brighter
and the hope of a life immortal which
springs up in the breast of all the dwell-
ers upon the earth, both savage and civil-
ized, is enfolded in the special services
that mark the joyful festival.
"So let us hail glad Easter
And pay our homage true!
For Christ the Lord is risen
And claims the triumph due."
As at this season of the year, the snows
and cold blasts of winter give place to
the budding blossoms of spring and the
gentle breezes from the land of sunshine
and warmth, so the church casts aside its
sackcloth and ashes and emerges with
joyful step into the bright light of a risen
Savior, who is both "the resurrection and
the life."

A dispatch to The Herald yesterday
from British Columbia stated that capital

has been secured for building the pro-
jected British Pacific road. It is at the
terminus of this road on Vancouver island
that a townsite was recently laid out and
named Duluth. The proprietors of the
new townsite are undoubtedly foreseeing
men and they consequently chose a
name that insures success.
Clean the City.
Duluth must be clean. There is no
dissenting voice on that proposition.
But Duluth will never be clean, until it
is cleaned. This is a matter that must
be attended to at once.
Duluth has ceased to be a country
village. It is a city and it must adopt
the methods of all large cities or be left
in the race. There is nothing which at-
tracts the homeseeker so much as a
clean city, and it must be confessed that
Duluth is not attractive in that respect
today. The streets and alleys are in an
abominable, filthy condition. Hundreds
of backyards are filled with decay-
ing heaps of garbage, which the spring
rains and the hot sun will convert into
breeding spots of disease.
This state of things must be changed,
and the change must be produced by
the city authorities giving the whole city
a thorough spring cleaning. Duluth
must be clean.

Duluth's bank clearings for the past
week show an increase of 10.4 per cent
over the corresponding week of last year
and again Minneapolis shows a decrease
of 7.8 per cent, and St. Paul a decrease
of 10.2 per cent. What is the matter
with the Twins? Are they drooping?

Maj. Newson, one of the pioneer jour-
nalists of Minnesota, has died at the
United States consulate in Malaga,
Spain, where he has been for several
years. A more jovial, kindly, good na-
tured man never lived and his death
will be sincerely mourned.

If you wish to attract attention in
church tomorrow and cannot afford a new
bonnet, wear a pair of creaking shoes.
This is the advice of an Eastern paper
and is guaranteed.
Editor Dana rejoices that Editor Baker
has been appointed minister to Nica-
ragua. He is glad that the St. Paul man
is going to "a place that is better than
this."

It is remarked that the early spring
rains fall on the just and the unjust, but
the unjust generally can carry silk um-
brellas.
Indications are increasing that Judge
Lochen, of Minneapolis, will be the next
commissioner of pensions.

When he saw her in that dress,
And as each bill of hers he took
He groaned, "Where am I at?"

Reflects Credit Upon Duluth.
Portland, Ore., Feb. 19 (Comm.)
We have just received from Duluth the
twenty-page Evening Herald of March 4.
We were in Duluth in 1872 when
Duluth was a small and insignificant
place, and West Superior across the bay
was but an Indian settlement. We were
again in Duluth last summer, and to say
we were surprised (and we were)
prepared for nothing does not express it.
It is a substantial and magnificent city
designed for a great future, and The Her-
ald, its leading paper, reflects great credit
upon Duluth, whose growth and pros-
perity it has shared. It is issued from
its new four story house, and from a well
perfecting press, constructed for its own
use, which prints, pastes, cuts and folds
5000 complete six or eight page papers
per hour.

The Hurd Reformatory company ex-
pects a cordial welcome to their friends
and those interested in manufacturing
enterprises, to inspect their World's
fair exhibit on Wednesday, April 5.
Trains leave for New Duluth 8:30 a. m.,
1:30 p. m., 5:00 p. m., returning leave
New Duluth at 11:30 a. m., 3:30 and 6:30
p. m.
Arrange to enter the Business Uni-
versity on Monday, April 3.

Not pull out
is an arbitrary word used to designate the
only low (ring) which cannot be pulled off
the watch.
Here's the idea
The bow has a groove
on each end. A collar
runs down inside the
pendant (stem) and
fits into the groove,
firmly locking the
bow to the pendant.
so that it cannot be
pulled or twisted off.
It positively prevents the loss of the
watch by theft, and avoids injury to it from
dropping.
IT CAN ONLY BE HAD with
Jas. Ross Filled or other brand
Cases bearing this trade mark.
All watch dealers sell them without extra cost.
Ask your jeweler for pamphlet, or send to
the manufacturers.

42 Prescriptions Failed
BUT
Hood's Cured
Scrofula—Lost 40 Pounds in a Year

Clerk of La. San Township, Kingsbury
County, South Dakota, says:
"I testify that I was sick for four years with
an affliction my physician called scrofula.
Blisters came out
all over my body, and swelling on the right side
of the neck, and in less than a year I had lost 40
pounds in flesh. I was followed by H. L. Toms,
our druggist, to try Hood's Sarsaparilla.
He insisted on my giving it a fair trial, by using
six bottles. After taking the fourth bottle the
blisters began to disappear, as did also the
lump in my neck, and I soon began to
gain in flesh.
I still continued to take the medicine for four
months, and at the end of that time there was
none of the disease in my system, and I was as
well and strong as ever. I took upon Hood's
Sarsaparilla as one of the greatest remedies of
the day." G. W. Dwyer, Kingsbury, S. Dakota.
"I Can Vouch for the Truth
Of the above letter from George Dwyer, I can
show 42 prescriptions I put up for him, which
did him no good. I persuaded him to take
Hood's Sarsaparilla, which he is entirely cured of."
H. L. Toms, druggist, Kingsbury (formerly of
Ossola) South Dakota.
Hood's Pills cure Constipation by restor-
ing the peristaltic action of the alimentary canal.

THE GLORIOUS EASTER

The Greatest Religious Festival of the Year
Will be Celebrated in All Churches
Tomorrow.

Although Generally Recognized as a Distinctly Christian Day it is of Much
Older Birth.

Nearly All of the Duluth Churches Will
Present Elaborate and Appropriate
Musical Programs.

Of all the festivals or holidays, Christian, civic or pagan, none has surrounding it more customs of a poetic and symbolic nature than has Easter Sunday.

In every land the traditions connected with the day are slightly different, and each nation has its own peculiar method of observing them. With each successive age, too, the customs and traditions have changed, so that now the searcher into the history of the day is overwhelmed by a mass of Easter lore that would fill volumes.

Although recognized generally as a distinctly Christian festival, Easter day is of far older birth. The resurrection was not on the day we celebrate as Easter, although the two dates may sometimes coincide. The old Teutons, who worshipped their heathen goddess of the spring, Easter, on the first Sunday after the full moon, which shines in or near the vernal equinox. When the Celtic races moved Westward, they carried with them their custom of lighting the flames of Bel, their god of fire, and to this day on every

the eggs red, to symbolize the blood of the redemption.

Today the egg, as a symbol of Easter, survives in the popular mind when little else is remembered. Even Easter Sunday or Easter dress goods are not more prominent. Each year it seems that the possibilities of egg decorating are reached, but each Easter new varieties appear.

All of the Duluth churches will have elaborate and joyous services tomorrow in commemoration of the resurrection of the Saviour. In nearly all of the houses of worship the musical service will be especially fine. Some of the especially prepared programs are as follows:

Pro-Cathedral Church.
At the Pro-Cathedral Mozart's Seventh Mass in B flat will be sung by the full choir assisted by an orchestra. Miss Margaret McDonald is solo soprano and director and Miss Therese Lynn, organist. The program is as follows:

Mass—Mozart.
Kyrie—Mozart.
Gloria—Mozart.
Credo—Mozart.
Sanctus—Mozart.
Agnus Dei—Mozart.

St. Paul's Episcopal.
At St. Paul's church the following program will be given under the direction of Pros. A. F. M. Custance, organist and director.

Easter morning the Irish peasantry kindle the Bel fire.

In various parts of Scotland and England many quaint customs are still observed, most of them being merely the relics of pagan ceremonies.

In our land the celebration of the feast is largely a religious one, unless the putting on of new clothing and the sending of Easter cards be dignified by calling them customs. The Roman Catholic churches make it the occasion of their most solemn and most elaborate ceremonies. In the few Greek churches the pomp and gorgeousness of the celebration is only limited by the resources of the clergy. The Protestant churches observe the day largely in a decorative way and by musical services. The Easter day sermons of their ministers may glow and scintillate with oratorical fire, but sacred fire, which the Greeks believe in, does not appear, and there are no ceremonies.

The sending of Easter cards is not a custom that is generally observed, although Easter cards are bought and sent. It is probably because they are so beautifully made now that the custom still lives.

But not historical research or lovely cards or glorious Easter lilies can make us forget the most typical of all Easter emblems—the Easter egg. Easter will ever be remembered as the feast of eggs, pagan though its origin be. One of the oldest legends is that the world was hatched from an egg on Easter day. The Persians and even the Hebrews practiced the custom of exchanging eggs. The idea was adopted by the Christians, who elaborated it by dyeing

AT THE PLAYHOUSES.

The Cornell University Glee, Banjo and Mandolin Clubs at the Lyceum This Evening.

The Little Comedienne Katie Putnam at the Temple in Three Plays Next Week.

Annie Pixley to Be Here Soon in Miss Blythe of Duluth—"Spider and Fly" Coming.

Ten performances at the theaters in Duluth in one week is pretty strong, but "we have stood it bravely" and the houses have been good, some of them very large. "The White Squadron" played to good houses at the Temple and "Uncle Tom's Cabin" always draws well. Lewis Morrison in "Faust" had a good audience last evening and undoubtedly will tonight. The Lyceum has been well patronized also. Al. G. Field's minstrels brought out the "standing-room-only" sign early in the evening. Marshall E. Wilder also drew well and on the whole the attendance has been somewhat remarkable.

Next week the Temple will have the only attraction, Katie Putnam. She appears two evenings and at a matinee.

THE CORNELL BOYS.

They Will Give a Concert at the Lyceum This Evening.

Tonight the Cornell University Glee, Banjo and Mandolin clubs will give an entertainment at the Lyceum. The boys are forty in number, the largest college concert organization that has ever visited Duluth. They are making an extensive trip, the longest they have ever attempted. On Monday last they left Ithaca, N. Y., and will give over a dozen concerts, visiting Buffalo, Toledo, Detroit, Saginaw, Grand Rapids, Chicago, Milwaukee, Duluth, St. Paul, Minneapolis, Winona and St. Louis.

They will spend Easter in Duluth. On Saturday afternoon the boys will attend the studio reception given by Misses Mackey, Meak and Proctor in Masonic Temple hall.

KATIE PUTNAM.

The Little Comedienne to be at the Temple in Three Plays.

The popular little comedienne, Katie Putnam, whose name for years has been a household word among playgoers, will appear at the Temple Opera house on Friday and Saturday night. On Friday evening she will appear in "An Unclaimed Express Package." The general criticism has been most complimentary. The plot is as good as original and substantial, with an abundance of refreshing fun, and bright, clear dialogue. There is a strong emotional element in the play which gives it a substantial and an opportunity of showing her vein of pathos, and her charming versatility. An exchange says the following:

"The play is a comedy-drama, full of striking scenes from the deeply touching to the ludicrous. Katie Putnam, in her character of Dora Crane, the musical vagabond, who, from the life of a tramping musician to that of the pampered and petted daughter of Jethro Harlow, the rich iron furnace owner, has lived the original life of a tramp, at last discovering she had no claim upon the man who claimed her as a daughter and again as his daughter, got everything out of the character that could be wished for. The bright little actress seems to improve each year, and the ovation she was given last night was a well-deserved compliment to one who has won her way into the hearts of the American public through tenderness and humor. Miss Putnam's support is very good, and the play is one worthy of the patronage of the theater-going public."

On Saturday afternoon a matinee performance will be given, Miss Putnam appearing in "Dad's Girl." The bill for Saturday evening as "The Little Maverick."

"Spider and Fly" Coming. M. B. Leavitt's "Spider and Fly" will appear at the Temple during April. The piece has been improved in details, while remaining essentially the same as in former seasons and is now being given by a very clever company of especially selected artists. The scenic features are perfection, and the specialties are of the very highest class.

"Miss Blythe of Duluth." Annie Pixley, the well-known star, will be at the Temple about the middle of April appearing as Miss Bessie Blythe in "Miss Blythe of Duluth."

Lyceum Attractions. On April 15 the High School Musical society will produce Sir Arthur Sullivan's opera "Trial by Jury" at the Lyceum. Messrs. Quillard, Maynard and Haneagan, Miss Farrell and others appearing in the cast. A farce, "Poor Fillicodey," will also be given.

CRANE IN "BROTHER JOHN." Martha Morton's Latest Play is Not Her Best Play.

NEW YORK, March 29.—Miss Martha Morton's rural comedy, "Brother John," is a peculiar and almost incomprehensible mixture of genius and mediocrity. There are every now and then delightful flashes, but the play is commonplace in the extreme in most respects. Probability and logical sequence are thrown to the winds, and dramatic incoherence runs rampant. "Geoffrey Mowbray, gentleman," is said Miss Morton's best work. "The Merchant" probably ranks second, and "Brother John" is forced to take third place. The idea is a very old one and has been worked over in different forms in many plays. Still the execution is fairly good, and if it were properly developed it would make a reasonably acceptable though by no means a great play.

But Miss Norton, after leading the auditor up to a high pitch of expectancy in the first act, suddenly lets him and coherence go at the same time, and the result is an unsatisfied feeling throughout the rest of the performance. The dialogue is commonplace, as a rule, and the situations, where they are either strikingly humorous or pathetic, are forced. The climaxes are rather unnatural, and the impression is inevitable that they were conceived first and that the play was written afterward to fit them.

Of course this may not have been the case, but it certainly seems to be the only explanation of a host of forced episodes and several unnatural climaxes. The more or less good blacklegs of the play, and they are comparatively numerous, are tenderly cared for throughout the second and third acts and are then inconsiderately left to shift for themselves, being disposed of for good and all in a sentence or two. Credit and straining for effect are Miss Morton's two besetting sins as a playwright. "Brother John" may be taken as a type of her work. They were almost as glaring in "The Merchant," and perhaps the latter fault was even more marked in that piece, but in "Geoffrey Mowbray, gentleman," these splashes were not so pronounced. Therefore "Brother John" is really a step backward for her, and I cannot help inclining to the opinion that this is but another illustration of the evil effect of writing for stars, although I have heard that Miss Morton has openly expressed her preference for this branch of dramatic work.

This may do for experienced play constructors like Bronson Howard and David Belasco, who know how to sugar coat what they do that improbabilities seem probable, but for the "pretence hand," like Miss Morton, it is a fatal error. However, as she is said to have orders for several original plays, the lady may show that she has discovered her mistakes as well as her limitations and surprise the theater-going public with a work which shall either deal with an original subject in an acceptable way or a hackneyed subject in an original way.

The character drawing in "Brother John" is also very poorly done, with perhaps one exception. The spider sister, who suddenly develops an acute and exaggerated case of "society" fever, with Long Branch symptoms, is perhaps the most glaring of the impossibilities. Another exhibition of unreality is the villain-gentleman gambler with whom the daughter of the principal pair of sponges seems to be infatuated.

By the way, the girl is an incomprehensible individual. I have not yet made up my mind whether she was really a good woman hampered by designing parents or a sort of backward advanced woman put into the path of a man who was indebted for her existence. The character of Brother John, enacted by Mr. Crane, is logical in many respects, but in many more is absurd. He does lots of things that such a man—if one ever really lived—would do, and he is guilty of other acts which would be stupid even for him. Too many words are put into his mouth, he is made to act in a meteoric manner, and it is difficult to imagine how he ever managed to acquire a competency in business, of the kind of which he appears to be gloriously ignorant. Besides, he is a hat manufacturer, and the author is at great pains to explain that these hats cannot be forced upon the market even with the aid of a ridiculous advertisement.

It is possible—nay, it is even exceedingly probable—that, although "Brother John" is the least meritorious of Miss Morton's three best known, it will prove the most successful, or, to put it in more correct form, that it will yield her a larger sum of money in royalties. This will be due, of course, to the fact that Crane has the piece. The people will accept him in almost any thing, and it may be admitted that his impersonation of the title role is a particularly enjoyable one. It is Mr. Crane's particular intention, I understand, to keep "Brother John" on throughout his engagement at the Star, which will continue for six weeks or more.

"Joseph," at the Union Square theater, seems to have made genuine hits. What a great many critics have condemned it as being devoid of originality of funmaking devices, most of them admit that it makes people laugh a great deal louder than most of the Franco-Anglo and Franco-American farces of which we have had such a surfeit recently. After all, that is about as high praise as can be given an entertainment of that character. George Giddens has made a decidedly favorable impression in the title role, and he may always feel assured of a warm welcome in New York hereafter. His methods are commendable for their quietness and apparent lack of effort.

The National Conservatory of Music of this city has, it is announced, awarded the prize for the best symphony composed by a native American to Henry Schoenfeld of Chicago. The successful work was written in 1892. It is entitled "Rural Symphony."

Schoenfeld was born in Milwaukee Oct. 4, 1857. His father was a musician, and when Henry was but 7 years of age he began to give him instruction, and a little later he was sent to Berlin, where his brother Theodore was a pupil of the Royal High School of Music. He soon became a reasonably proficient performer on the piano and violin and had also developed as a composer of vocal and instrumental music. At the age of 17 he went to Leipzig, where he completed his studies under the best masters, graduating with high honors in 1873.

In Weimar he continued his work under the direction of Edward Lasser, the famous song writer, and returned to the United States in 1879, teaching in Chicago. He competed for the Cincinnati festival prize and received honorable mention from Theodore Thomas. Among his works recently produced are the following: "Sonata Pastorale" for violin and piano; "Sonata Heroique" for piano; "Gypsy Melodies" for orchestra; air for the G string; "Meditation" and "Evening Serenade" for string orchestra; various songs and choruses. The "Suite Characteristique" has several times been performed by Theodore Thomas, and when

produced in Dresden last year attracted the attention of Rubinstein and Nicodé. At present Mr. Schoenfeld, besides teaching and composing, is the director of the Germania Männerchor. He has been invited by the National Conservatory of Music to

come to New York to superintend the rehearsals and to conduct the performance of his symphony to be given by the Scitoli orchestra on March 30.

"The Gondoliers" revived by the Duff Opera company at the Casino seems to have met with some favor, but there is no enthusiasm over the event. The best singer in Duff's aggregation, Miss Juliette Corde, has left, for what reason I know not, and her defection, I think, must have an injurious effect upon the business. It seems odd to think of the Casino, "the home of comic opera," in connection with ordinary revivals of ordinary works, but it has come to it nevertheless.

It is a fact, no matter what may be said of Rudolph Atkinson's ability as a manager, that nearly every fine comic opera star, male or female, in this country has been developed by him at the Casino. It is unnecessary to go into details with Francis Wilson, Lillian Russell, Marie Jansen, Fannie Rice, Jefferson de Angelis, Edwin Stevens, Pauline Hall, Marie Tempest, Lily Post, Mark Smith, W. S. Daboll, James F. Powers and many others constantly in one's memory.

It is the opinion of some well informed persons that the Casino will never regain its pristine glory. This may be true, but I am not alone in the opinion that another Jakobowski operetta like "Erminie," will make this Morish temple of amusement more popular, if possible, than ever. This opinion is of course based upon the presumption that such a work would be elaborately mounted and interpreted by a company of first class people, with a vocally attractive prima donna and a really funny comedian.

Miss Elizabeth Marbury is no ordinary woman. Without help she has established in this city a bureau where aspiring dramatists may place their plays for sale. She also acts as the representative of some of the most prominent dramatic authors of Europe and America. She collects their royalties, draws up their contracts and attends to all the annoying business details for a consideration. She has been exceptionally successful with her laurels and has written at least one good play which had quite a run at the Lyceum theater. Miss Marbury's latest scheme is her most ambitious one. She wishes to establish a theatre in Chicago with state aid, a theater of art similar to the Theatre Francaise of Paris.

HENRY SCHOENFELD.

The idea will of course be laughed at for some time, but Miss Marbury is nothing if not perspicacious, and no one need be surprised to hear that she has been successful in giving the American drama such a boost as it has not had in many years by the establishment of this popular theatre. The indefatigable little lady, who, by the way, is very pretty, has already interested several prominent people and is sanguine of ultimate success.

CAPPA'S SUCCESSOR.

Walter B. Rogers, the New Leader of New York's Seventh Regiment Band.

The great Cappa's successor as leader of New York's famous Seventh regiment band is Walter B. Rogers, a young man of 27. Rogers comes of a musical family. His fa-

ther was an English violinist of some note who came to America in 1858. His uncle is the leader of a fine band in Bradford, England. When Walter was 7 years old, he began his musical career upon a violin which his

father brought him upon his return from a trip to England. He didn't like the fiddle and after much urging persuaded his father to teach him the cornet. At 13 the boy had developed so much ability that he was sent to the Cincinnati College of Music. He progressed very rapidly there and soon became a fine performer. His first engagement was with a band in Indianapolis. He met Cappa by appointment in Louisville in 1885 and became a member of his band, starting as third cornet. He was afterward promoted and prior to the great leader's death often took his place when he was absent. He is a resident of Brooklyn and is one of the most promising of the younger American bandmasters.

KING OF THE FLYING RINGS.

Robert Stoll Has Been Champion of America Many Years.

Robert Stoll of the New York Athletic club is without doubt the king of the flying rings. He has been champion of America in this specialty so long that apparently his peer does not exist. Since 1885 Stoll has held his championship honors against all comers, and not for a single year even has he been compelled to acknowledge defeat. Stoll was also champion of the suspended rings in 1885 and 1888, and he excels as a rope climber. In 1888 Stoll won the American championship in this specialty and went up a rope 22 feet in the first time of 6 seconds. The champion of 1892, however, has a better record for this performance. His name is Dr. Sandford, and he is a member of the New Jersey Athletic club. Sandford's time for the same feat is 51-5 seconds.

Champion Walker Shearman.

Thomas Shearman, the amateur champion mile walker of America, is now training for the spring games and will do better work than ever the coming season if his friends are to be believed. Shearman made his debut in athletics as a member of the New Jersey Athletic club several years ago and secured many victories on the cinder path, the most notable of which was the defeat of Burkhardt, who was then champion. In 1891 Shearman joined the Manhattan Athletic club and distinguished himself by winning the championship of America as a mile walker. His time was 6 minutes 35-5 seconds. Last year he again won the championship by carrying a mile in the first time of 6 minutes 41-5 seconds.

BICYCLE NOTES.

French bicyclists will engage in a road race between Paris and Rouen early in May. A Buffalo wheel club takes pride in a collection consisting of 1,000 cycling meet badges.

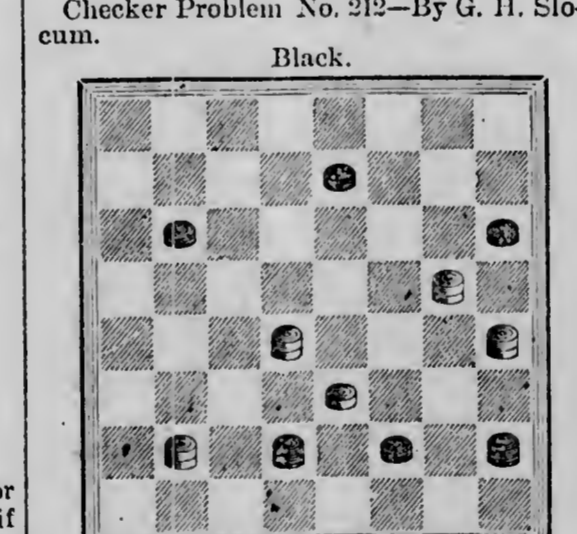

Shorland, another bold cyclist, will try to lower the Land's End to John O'Grady's record this spring.

In London wheelmen must light their lamps at sundown.

The South African Cyclists' union will send representatives to the World's fair.

Hon. Samuel A. Barnes Sends Greeting—The Battle is Won.

Hon. Samuel H. Barnes, of New Haven, Conn., has issued in that city the following open letter, which is given verbatim.

Mr. Barnes has been a prosperous business man there for twenty years. He has held no more important office than councilman and alderman, but is one of the most influential men in the city. His greeting, published in Col. Osborn's paper, the Register, is as follows:

NEW HAVEN, Conn., March 3, 1893.

The battle is fought and the victory won. Praise God, from whom all blessings flow.

Paine's celery compound has done its work. Thanks to the good Lord who enabled man to make such a compound to cure such a dreadful disease as eczema.

In the year 1883 I was taken with a breaking out on my breast of terrible itching, so much so that I could not sleep nights. It went all over my body. I went to a doctor and he said I had eczema, and he gave me medicine, but it did not do me any good, and there was no cure. Then, for many years, I traveled from one doctor to another.

For twenty-six years I tried homoeopathy and allopathy, but I did not get much help. I lived on nothing but beefsteak and hot water for six months at a time, but it did me no good. At one time I had to sell out my business at a loss.

Words cannot express the condition that I was in. I was so bad that at one time I had to sleep on a chair, and as smooth as any healthy man's ear. I am well, better than I have been for twenty-six years. I go to bed and sleep as good as a child, and have done the hardest kind of work this winter. My blood is hot, but there is no itch.

And now if there is any one who is afflicted with this disease, in the name of all that is good, try Paine's celery compound, and do not stop until you are well, it takes twenty bottles, for you can rest assured that it will do its work.

I would like to hear from those who are afflicted with a like disease.

One of the best investments in Duluth is a block of 24 lots in Duluth Heights, Fifth or Sixth Division (two blocks from electric car line, and ten minutes ride from Superior street) for \$250 per lot, or \$6000 for the block; cash payment on the entire block \$1200, balance one and two years.

With 130 houses now in course of construction in that locality and 200 more to be started before July (all to be built, owned and occupied by men of families), these Lots must advance very rapidly in market value, and would certainly yield a profit in the next six months, equal to the cash payment of \$50 per lot, or 100 per cent on the actual cash invested. These prices are only a fraction of the prices of other property similarly located at the head of the lake, in fact they are village prices. We are making sales every day and prices will be raised the first of every month. If desired by buyers, we make the cash payment \$30 per lot.

We are selling more lots than all the other land companies in Duluth. Call and look over our maps and prices.

The First Volume of the New Edition of Peyp's Famous Diary Soon to Be Published.

William Watson Will Shortly Issue a Daring Poem Entitled "The Elopement of a Caprice."

Marvel's "Dream Life" Now Issued in Dainty Binding at a Fabulously Low Price.

George Bell & Sons will publish immediately the first volume of the new edition of Peyp's Diary, which is now for the first time to be printed in its complete form. Myron Bright, in his edition, left out one-fifth of the Diary unprinted, it is transcribed the whole and beheaded the transcript to Magdalene de la Roche, Cambridge. The present edition presents the transcript, a few unprinted passages only being omitted, and, therefore, contains from one-third to one-half more than any other edition of the Diary. The editor, H. B. Wheatley, has added a large number of notes besides those of Lord Braybrooke. The edition will be complete in eight volumes, and a limited number will be printed on large hand-made paper. Simultaneously with the English edition the work will be published under American copyright by Macmillan & Co.

The Atlantic Monthly for April contains many articles of great value. Chief among these may be mentioned another installment of Edward Everett Hale's autobiographical papers entitled "My College Days," Alexander V. G. Allen's thoughtful and very admiring paper on Phillips Brooks, and President Andrews' essay "Money as an International Question." President Andrews writes from a full knowledge of his subject, as he was one of the delegates from the United States at the recent International Monetary Conference at Brussels. Other articles by William C. Hazlitt, Harriet F. Preston, Louise Dodge, Henry Van Brunt, Edith M. Thomas, Mary H. Catherine, poetry by John Hall Ingram, Stuart Stern, Florence Earle Coates, and Arthur Sherburne Hardy; reviews of recent books; and the usual comment on New Books and The Contributors' Club make this number of the Atlantic Monthly a most interesting one.

Among the short articles that appear in the North American Review for April are "By Women For Women," by Lillian M. Mercer; "Do the Fittest Survive?" by W. T. Croft; "The Abuse of Secrecy," by Clara Dixon Davidson, and English Poor Law Reform," by Edward Torritt.

William Watson is to publish very

shortly through the Macmillans a daring poem entitled "The Elopement of a Caprice." It describes the experiences and feelings of two adventurous angels who decide to exchange the conventional delights of heaven for the novelties of earth. A second edition of Mr. Watson's "Collected Poems" is also announced by the same publishers, and a new American edition of Skeat's Etymological Dictionary fully revised and in agreement with the latest English edition.

The Illustrated American for April comes from the press with its customary beauty of matter and illustration. As the most interesting features, according to the topics of the times, are two splendid articles handsomely illustrated, one on the "Columbian Exposition" and one on the "Hawaiian Commission." The history of the house of Hapsburg is reviewed in connection with the proposed resignation of Francis Joseph of Austria. "The Road of the Rough" becomes more interesting with every chapter, and in this number the scenes at Sing Sing, sketched on the spot, are intrinsically valuable.

Frederick W. Hamilton, of Pawtucket, R. I., has been awarded the first prize of \$50 in Public Opinion's (Washington, D. C.) essay contest, just closed. The subject on which prizes were offered was "What, if any, changes in the existing immigration laws are expedient?" There were nearly two hundred essays submitted in competition. The second prize of \$20 was taken by W. E. Weyl, of Philadelphia, and the third prize of \$10 went to Loren H. Knox, of Evanston, Ill. These prize contests on the great questions of the day, inaugurated by Public Opinion, have attracted marked attention.

Macmillan & Co. announce a sequel to Wilfrid Ward's book about his father at Oxford, published three years ago, which will be entitled "W. G. Ward and the Catholic Revival."

Not many books by American authors will receive from book-lovers so nearly unanimous a verdict of "delightful" as Mr. Marvel's (Donald C. Mitchell) "Dream Life," so the new edition of it, reduced in price from \$1.25 to 20 cents (postage 5 cents extra) just now offered by John B. Alden, publisher, is sure of an immense sale. It is a very pretty volume, large type and dainty cloth binding, notwithstanding its fabulously low price, which is accounted for by the expiration of copyright and the passing into Mr. Alden's hands from the higher priced publishers. Mr. Alden's catalogue of choice books, 128 pages, issued monthly and sent for a 2 cent stamp is a veritable "literary gold mine." Address, John B. Alden, Publishers, 57 Rose street, New York.

Reginald de Koven's first independent set of waltzes "The Magnolia Blossoms," waltzes written expressly for The Ladies' Home Journal, appear in the April issue of that popular magazine. Notable articles are "The Sister of Charity" by Cardinal Gibbons, and the American Woman" as seen after an absence of ten years by F. Marion Crawford. Mr. Howells' charming study of girl life, "The Coast of Bohemia," gains in interest as it proceeds, and is followed

by Miss Dickens' pathetic story of her father's last public appearance, and his death and burial. A charming quartet of women, admirably portrayed by illustration and description, are: Mrs. F. Marion Crawford, the Countess Tolstoy, Sir Morell Mackenzie's daughter, Mrs. McKenna, and the author of the "Elsie" books, Miss Finley. The editor discusses courses wisely and warningly on the "Woman in Business," "People Who Borrow Trouble" are lectured by Rev. T. De Witt Talmage and "Mr. Beecher's Unprinted Words," as reported by his private stenographer, are full of noble thought and inspiration. Professor Gallaudet writes about "The Happy Children of Silence."

Junius Hender Browne discusses the problem "Are Women Timid?" and Mrs. Burton Kingsland contributes "A Trio of Pretty Luncheons." Miss Haywood writes of the work done by the Boston Society of Decorative Art. Miss Scoville's "Life in the Invalid's Room." Mrs. Mallon of "Spring Costumes and Easter Bonnets." Miss Hooper's "The First Spring Sewing" and Eben E. Rexford of "Seeds for the Summer Garden." Palmer Cox takes his "Brownies" through the land of John Hall and Margaret Seymour Hall contributes a delightful short story "The Rector of St. Peter's." The floral supplement contains a beautifully illustrated article by J. N. Drake, Mathews on "The Laying Out of an Artistic Garden," a paper by George H. Ellwanger on "Which Is the Sweetest Flower?" and Mrs. Henry Ward Beecher tells how she made her famous flower garden. Altogether this April number with its beautiful cover and its admirable table of contents is worth many times its price of ten cents, and no woman can afford to be without it. Published by The Curtis Publishing company, of Philadelphia, for ten cents per number and one dollar a year.

The April number of Outing is as bright, cheery and seasonable as a spring day. Eighty pages of pleasant fact, tales of sport with gun and rod and of travel and adventure, embellished with many beautiful illustrations form a delightful number. The contents are as follows: "In the Shadow of Nineveh," by William Hinkley; "Sport with Canada Geese," by Ed W. Sandys; "Canoeing on Concord and Merrimack," by J. N. Drake; "Hunting a Tapir," by Allen Chamberlain; "A Wheel to San Gabriel at Easter," by Jess; "Through Erin A-Wheel," by Grace E. Denison; "Feathered Dancers," by J. M. Murphy; "Long-Distance Riding," by Capt. H. Romeyn; "The Yachting Outlook for '93," by Charles Leland Norton; "Miss Kew's Partner," by Annetta J. Halliday; "Walking," by Malcolm W. Ford; "Two Trout," by John H. Keene; "A Spring Week of Outing," by Lucy E. Keeler; "Lent's World Tour A-Wheel," by Peter Leary, Jr., U. S. A., and the usual editorials, poems, records, etc.

An important article, entitled "Charges at the World's Fair," has been written for the April number of the North American Review by Director-General Davis, who seeks to correct the apprehension that systematic extortion will be practiced in Chicago during the exposition.

At the request of many of those who heard Mr. Winter's eulogy on George

William Curtis, delivered at the memorial meeting on Staten Island, the address has been printed in the form of a small book of about 100 pages, with a portrait of Curtis. The Macmillans will have it ready for publication next week.

The February number of the Riverside Literature Series (published quarterly during the school year, at 15 cents a single number, by Houghton, Mifflin and company, of Boston, New York and Chicago) contains Charles Dickens' Christmas Carol, with notes especially prepared for this edition. To make this book still more useful for the schoolroom there have been added a very carefully prepared sketch of the author's life, a list of his principal works chronologically arranged, a statement of the purpose or aim of some of his novels, and a list of passages suitable for reading aloud.

The important question, "How Shall the Pension List be Revised?" is answered in the North American Review for April by the Hon. R. P. C. Wilson, chairman of the committee on pensions of the house of representatives; Gen. S. S. Burdett, past commander-in-chief of the Grand Army of the Republic, and Col. W. C. Church, editor of the Army and Navy Journal. Ex-Secretary Foster, of the treasury, has written a paper entitled "The Brussels Conference Reviewed," and the Hon. R. P. Bland, chairman of the committee on coinage, etc., has prepared an article on "The Currency and the Democratic Party" for the same number.

Birds of Passage
Between this and the other side of the broad Atlantic, in the shape of tourists, commercial travelers and mariners, agents "on the road," steamboat captains, ship's surgeons and "all sorts and conditions" of travelers, emigrants and new settlers appreciate and testify to the preventive and remedial properties of Hostetter's Stomach Bitters in sea sickness, nausea, malarial and rheumatic trouble, and all disorders of the stomach, liver and bowels. Against the prejudicial influences of climate, crudely cooked or unaccustomed diet and impure water, it is a sovereign safeguard, and has been so regarded by the traveling public for over a third of a century. No form of malarial fever, from the calentura of the Pacific and the broken bone fever of the Mississippi, to its milder types, can resist the curative action of this benignant preserver and restorer of health, a veritable boon to persons in feeble health or liable to incur disease.

BILL NYE IN THE WEST.

William Stops at Some Places in California and Sees Peter Jackson in Uncle Tom.

His Observations Cause Him to Make a Few Sound Remarks About Pugilism in General.

The Two Dollar Bill That Was Not Any Good, and That of Sam Davis.

ROUND ABOUT CALIFORNIA, March. Last evening I saw Peter Jackson, the great colored pugilist, in his masterly creation of Uncle Tom. Mr. Jackson has the average face of a colored man, not refined and beautiful as some have imagined. We often hear from admiring friends that Mr. Corbett is very fond of home, and that John L. Sullivan, if snail-

I TOOK IT WHILE REHEARSING MY PIECE, deeply surprised in his room, will generally be found pouring over the "Herald." So, too, we learn that Peter Jackson, the colored person who fights people for a livelihood, is "a perfect gentleman" and far above the average in intelligence.

These statements are, some of them, true. Parson Davies, who manages Peter, is the quiet person who supplies the intelligence. He knows how a prizefighter should conduct himself, and he tells Peter. Then Peter very sensibly does that way. The long looked for prizefighter whose great intellect would grace the cabinet has not yet arrived.

Peter Jackson, I had been led to believe, would elevate the stage. People told me that he resembled Salvini on the stage. He does not. They belong to two different schools of acting. Salvini is more en rapport with the audience.

I have never seen Corbett act, but I judge that he will rank with Jackson and Sullivan, whose rankness is noticeable even from the back seat.

Race prejudice has nothing to do with pugilism. When I begin to criticize, I do not let those things interfere, neither do I care to attack a man without cause who has chosen the great field of art as his profession.

I simply wish to say that the pugilist depends for his success outside the ring on the man who manages him and how well he obeys his manager. When he begins to fight, he is lost.

But the question arises, Has the pugilist who has succeeded a right to star in a play? Of course he has. Anybody has the right to avail himself of even accidental notoriety to exhibit himself in answer to the public demand, and then the public must decide whether it is worth a dollar or not.

Peter Jackson is a good looking man anatomically. More so than he is intellectually, I may say. He has long arms, with rather slender wrists and small hands and feet. He is well arranged for fighting purposes, but his interpretation of Uncle Tom is poor.

If he would punish Lagree profusely, I would agree to rewrite the play so as to give him a chance. Then if I could name the man to play Lagree I would be almost too happy.

We have been playing between Peter Jackson and the Baronesse Elanc for some weeks at this writing. Artistically they differ in only one particular. The baronesse has good clothes—or did have prior to Ogden—while Peter has not.

The baronesse has already pocketed \$10,000 into the opening which admiring friends thought they saw for her. California is not a good state to visit with a poor entertainment unless one has return tickets.

The baronesse does not get her title by descent. She subscribed for it, I think, and got it that way.

Her husband's name was Baron, instead of Peto or George. I have a neighbor in North Carolina named General West. He was named the same way. He is the owner of the celebrated uncle Mary.

The baronesse followed us heroically as far as Ogden, and there the constabulary at the depot laid violent hands on the baggage of her company. It was sad to witness the scene.

It is bad enough to enter San Francisco and compete with a great city full of talent when one has all the clothes he can get, but to undertake a difficult role there while one's clothing is in Ogden is said to be one of the saddest things in stage life.

It is especially true where the clothes constitute the motif of the play. In Salt Lake City we received at the door a \$2 bill, which we have since learned is not negotiable. Will the man who paid it in at the window please make it right should these lines meet his eye?

It is a pale green bill for \$2 and seems to have been issued by the First National Bank of Salt Lake. In the hurry and rush at the door I took it while rehearsing my piece to myself.

I would not ask to have the amount made good under ordinary circumstances, but we are so far from home and carriage

into is so steep here in California that two feel a little crippled by the loss. Spring opens beautifully in this state. We rode down from the Summit in the night, after a long journey through a winter season of unusual severity, and when the day dawned we were in the Sacramento valley, with the song of the bobolink and the scent of violets in the air. It is hard to describe how two worn and frozen men, after weeks of interrupted storm and frost, blinded by the dazzling snow and ice, hailed with wet eyes and crumpled welcome the green grass and the spring as they burst upon us in a moment.

Close your eyes at Truckee, dear reader, and tell the porter to call you at Sacramento. Go to sleep where the snow is 26 feet deep and wake up in the fresh meadows where the odor of newly plowed fields can greet your pecked and frozen nose; then you will know that even in this world there is sometimes for each heartache a compensating joy.

Sam Davis is still farming at Carson and running The Appeal.

He keeps his subscription list written on the wall of his office, and sometimes when the plastering falls down as many as seven or eight subscriptions expire. Once he moved into another building, and the old one became a boarding house. The poor invalid who used the old office as a bedroom says he is still annoyed by Sam, who comes there at all hours of the night to look over the old subscription list.

"It is still more awkward," says the invalid, "because my couch is in the way, and I often wake up in the night to find Sam standing on the bed, and with one hand on my chest to steady himself by he is charging the address of a subscription."

Mr. Davis has for many years given his attention to the cultivation of fine cattle, mostly Holsteins. There is little about the rise and fall of the Holstein that he does not know. Recently, however, he has been, he says, cruelly wronged by a man who has been his friend. Sam has done much for him, but in February last he sold Sam a cow that had no front teeth in the upper jaw.

He said a good deal about it and tried to recover from the man, but could not. San Francisco journalists sent him circulars and price lists for artificial teeth that would fit the cow, but he would not laugh and refused to be comforted.

By and by Joseph T. Goodman offered to bet with Sam \$100 against all the Dutch lances required by Joe during his natural lifetime that no cow had front teeth on the upper jaw, and the two men went out around Oakland trying to find a cow so that they could ascertain it.

It was a pleasing picture, those two middle-aged married men going about Oakland inquiring at the jewelry stores and everywhere if they kept a cow.

Once they found one on her way to her work. She met them pleasantly, as all Californians meet a stranger, and patted on thinking that was the end of it, but Sam said now was the time and started off after her, for he knew as soon as he met her that it was a cow, which shows that he is not only possessed of great literary resources, but is full of general information.

Sam had a heavy gray overcoat on at the time, but he pressed on. The cow broke into a run, which threw her milky way fine on one side and the other as she ran. She was a low set cow, with great legs, facilities, and could not run with much grace, but after we had watched Sam awhile as he ran it was a relief to look at the cow.

Finally in the foothills a man met them and caught the cow for them. She was dashed and angry, and when Sam thrust his forefinger into her mouth she did not attempt to conceal her disgust.

A sickly pallor passed over the face of Mr. Davis as he touched the empty gums. Could it be that, after he had introduced the Holstein strain of cattle into Nevada and California, he was still ignorant of the cow and her home life? Alas, yes; he did not know the real cow. He only knew the Delarto cow—the cow that one sees in the papers.

Worse than all this, seeing his advantage, Mr. Goodman began to add other information regarding the cow, and so to say, while he had Davis down fairly snowed him under with facts which related to the cow and which Mr. Davis was in no condition to deny.

Mr. Davis now believes that certain kinds of cows liberate, and that if they come out and see their shadow on Calumna they day they go back and leave a call for Easter at 9 a. m.

Also that the sea cow can be caught to come up nights, and that there is a big chance for some one to get hold of the Sargasso sea under the desert land and stock it with these beautiful and docile creatures.

It was a relief to look at the cow. In the meantime Mr. Goodman eats a light breakfast, relying on a late lunch, which Mr. Davis pays for.

In another letter I will speak more fully of the state of California and its advantages over Maine as a winter climate.

YOUTH AND ENERGY.

These Have Made a Young Detective Great.

A Man of Experience With Criminals of all Classes.

He Talks About a Matter of the Greatest Interest.

Phenomenal indeed is the energy which has placed this young Detective Philip S. Honeyman at the head as general superintendent of the great National Detective Agency of 571 Fulton street, Brooklyn, N. Y. Although still a young man, he has now a name which many older detectives might well envy, and the scope of his business is almost world wide. But like many men of great ability and ambition, Mr. Honeyman broke down for a time under the strain of his excessive labors. He is at present, however, in sound health and full of his old energy and enthusiasm.

"Yes I was completely broken down in health," he said, "and suffered from extreme exhaustion and could not rest day or night."

"I had an all gone feeling in my stomach and a terrible palpitation at my heart."

"I had to give up business for some time and after consulting and treating with two very good physicians with no benefit, I at last tried Dr. Greene's Nervura blood and nerve remedy."

"I have taken two bottles and the all gone feeling has disappeared, as also has the palpitation at my heart."

DETECTIVE HONEYMAN.

"I feel as strong and healthy as ever and I must say it was Dr. Greene's Nervura blood and nerve remedy that has restored me back to health again."

"This wonderful remedy is worth its weight in gold, for I found it to do just as it was said it would do, and I will never do without it in my house."

This is especially good news at this season of the year for most everybody needs a spring medicine. So many people are run down in the spring, feel weak, tired, languid and nervous, and lack their usual strength, energy and ambition, that Detective Honeyman's recommendation of Dr. Greene's Nervura blood and nerve remedy to restore health and vigor comes just at the right time. It is purely vegetable and harmless and is sold by druggists for \$1.

What makes it most popular as the best and most used spring medicine is the fact that it is the prescription and discovery of a physician, Dr. Greene, of 35 West Fourteenth street, New York City, who is the most successful specialist in curing nervous and chronic diseases. The doctor can be consulted free, personally or by letter.

My wife was confined to her bed for over two months with a very severe attack of rheumatism. We could get nothing that would afford her any relief, and as a last resort gave Chamberlain's Pain Balm a trial. To our great surprise she began to improve after the first application, and by using it regularly she was soon able to get up and attend to her household.

World's Fair Visitors. An intending visitor to the coming World's fair at Chicago need have no fear as to the possibility of securing satisfactory accommodations at reasonable rates, at either the many hotels or residences listed in a neat pamphlet entitled, "Homes for Visitors at the World's Fair," compiled at great expense and published by a trustworthy Chicago firm. This book contains a list of about 600 private families who will accommodate visitors in Chicago during the time of the fair.

May 1st to October 30th; gives their names and addresses, and number of rooms each will have to spare. The book also gives a list of the hotels and their locations; has twelve full-page, large-scale maps, each representing a section of the city, so that with this information before him the intending visitor himself can, at leisure, select the quarter of the city in which he would prefer to stop, corresponding in advance with one or more families in that locality with regard to rates and the accommodations desired.

The Wisconsin Central lines will in due time publish long excursion rates to Chicago and return for this occasion, while its double daily passenger train service, including through sleeping and dining cars to Chicago, will be usual here at the head of the list in every particular.

To help you in fixing in advance upon your place of residence while attending the World's fair, we have placed in the hands of our agent at your station copies of this work, which may be obtained at 50 cents per copy.

When this advertisement appeared, the LORILLARD firm was 29 years old. In the 103 years intervening, the little store on the Boston Turnpike (now Park Row) has grown into the largest Tobacco manufactory in the world. The enterprise, energy and skill which has kept the head of the procession so long, finds its best expression to-day in CLIMAX PLUG, the choicest chewing tobacco in the world. CLIMAX is sold everywhere. It's much the best.

Made only by the P. LORILLARD COMPANY, the oldest tobacco manufacturers in America, and the largest in the world.

IS A CONSPIRACY

Judge Taft Decides the Brotherhood of Locomotive Engineers is a Conspiracy Against the Laws.

Inasmuch as Chief Arthur Gave Orders for a Boycott, an Injunction is Issued Against Him.

James Lennon, Who Refused to Handle Ann Arbor Freight, Held Guilty of Contempt of Court.

The Seven Other Lake Shore Engineers and Firemen Were Discharged Under Judge Ricks' Decision.

TOLEDO, O., April 3.—This morning in the United States circuit court Judge Ricks rendered his own decision in the case of the Lake Shore engineers and firemen who refused to handle Ann Arbor freight, and read Judge Taft's decision in the injunction case of the Ann Arbor railroad, wherein an injunction was sought against Chief Arthur, of the Brotherhood of Locomotive Engineers, restraining him from issuing, promulgating or putting in force any order, rule or regulation which shall require or command any employee of various connecting lines to boycott the Ann Arbor road.

In substance, the decision in the latter case is as follows: The order shall be continued in force until the final decision in the case. The original bill was filed against eight railway companies. An amended bill was filed against the Lake Shore and the Michigan Central, making the defendant P. M. Arthur and F. P. Sargent. Sargent was subsequently discharged, as he was a non-resident of the district. As to Arthur, the amended charges that he, as chief of the brotherhood, exercises a controlling influence upon its members in all matters and that one of its rules requires its members in the employ of any railway company, whenever an order to that effect shall be given by its said chief officer, to refuse to receive, handle or carry any freight or mail of any other railway company, whose employees, members of said association have engaged in a strike, that such order has been declared against complainant by the members of the brotherhood with Arthur's consent and approval; that Arthur has publicly declared that he will order the rule above stated enforced, that the rule is in direct violation of the interstate commerce law and is intended to induce the employees of defendant companies to violate the law and previous court orders, and that Arthur with others is conspiring to that end.

The denial of the jurisdiction of this court to hear and decide the case by the bill cannot be maintained on the ground of diverse residence of parties. If it exists it must arise from the subject matter of the suit. The bill invokes the chancery power of this court to protect the complainant in rights which it claims under the act of congress, passed Feb. 4, 1887, known as the interstate commerce act, and an act amending it passed in March 2, 1889. These acts were passed by congress in the exercise of power conferred on it by the constitution to regulate commerce with foreign nations, among the several states and with the Indian territories.

It is immaterial what rights the complainant would have had before the passage of the interstate commerce law. It is sufficient that congress in the constitutional exercise of its power has given the positive sanction of federal law to the rights secured in the statute and involving the enforcement of those rights, is a case arising under the laws of the United States. The Brotherhood of Locomotive Engineers is an association whose members are locomotive engineers in active service in the United States and the Dominion of Canada. The number is 35,000. The engineers engaged with the defendant companies are most of them members of the brotherhood.

The purpose of the brotherhood is declared in its constitution to be more effectually to combine the interests of locomotive engineers, to elevate their standing as such and their character as men. These ends are sought to be obtained by requiring that every member shall be a man of good moral character, of temperate habits and a locomotive engineer in actual service with a year's experience and by imposing the penalty of expulsion upon any one guilty of disgraceful conduct or drunkenness, of neglect of duty, of injury to the property of employer or of endangering the lives of persons.

A mutual insurance association is supported in connection with the brotherhood, in which every member is required to carry a policy, and there is an efficient employment bureau for the members, a strong and complete organization is maintained for the systematic government of the brotherhood and its rules are well adapted to establishing and carrying out general and local plans in respect to the terms of employment

of its members. Submission to these plans, when once adopted by regular vote, is required of every member by penalty of expulsion.

The management of controversies with employer companies is immediately made by the chairman of the adjustment committee for the particular railroad system involved, and afterward by the grand chief. He is the ultimate authority always called on to adjust differences between members and their employers and he is the one to whom appeals are made to settle disputes arising between members and sub-divisions. He is also the head of the insurance company.

Judge Taft then runs over the happenings during the strike, stating that Arthur sent telegrams to eleven chairmen of adjustment committees on as many different railroads, notifying them that a legal strike was on and to obey the laws of the brotherhood. A legal strike on the brotherhood's part meant it was consented to by the grand chief. His consent is necessary under the rules of the order to entitle the men, thus out of employment, to whatever pay granted to striking men.

Arthur admits that the particular law to which he referred in this dispatch was one adopted by the brotherhood at Denver three years ago. It is said hereafter when any issue has been sustained by the grand chief and carried into effect by the Buffalo & Lake Erie, it shall be recognized as a violation of obligation by a member of the Brotherhood of Locomotive Engineers who may be convicted of or employed by such corporation in connection with or adjacent to said road, to handle the property belonging to said railroad or system in any way, until the grievance or issue of whatever nature or kind has been amicably settled.

Section ten of the act as amended provides that any common carrier subject to the provisions of this act, or whenever such common carrier is a corporation, any director or officer thereof, or any receiver, trustee or lessee, agent or person, acting for or employed by such corporation who, alone, or with any other corporation, company, person or party, shall willfully omit or fail to do any act, matter or thing in this act required to be done, not to be done, or shall aid or abet such omission or failure, shall be deemed guilty of a misdemeanor, and shall, upon conviction thereof in any district court of the United States within the jurisdiction of which such offense was committed, be subject to a fine of not to exceed \$5000, or to imprisonment for not more than one year, or both, at the discretion of the court.

Under this section it will be seen that the engineers of defendant companies, refusing to handle the interstate freight, are guilty of a misdemeanor and subject to criminal prosecution. Section ten in terms subjects to punishment only the common carrier or its employees, but it is quite clear that any director or officer of a common carrier, nor an employee, aiding or abetting, or procuring the common carrier or its employees to violate the section would be guilty of a misdemeanor. All persons combining to carry out rule 12 of the Brotherhood against the common carrier, if any of them does so, are in furtherance of a combination, are punishable under the foregoing section. This is true, because as already shown, the object of the conspiracy is to induce, procure and compel defendant companies and their employees to refuse equal facilities to the complainant company for the interstate freight of interstate commerce.

In closing, allusions had been made to that part of the original restraining order wherein which compelled Arthur to rescind the order which he had already given for the enforcement of rule 12. There was absolutely no way of maintaining the status quo between the parties (which is a preliminary injunction) but by compelling Arthur to rescind the act. The present was an extreme case. The injury threatened was willful, wanton and cruel and a mandate, though not a frequent remedy, was necessary and could be no possibility under the circumstances work injury to any one. The motion for a temporary injunction against defendant Arthur is allowed as prayed for.

Judge Ricks' decision in the case of the Lake Shore and Michigan Central Railroad was instituted by the Ann Arbor Railroad company to compel the Lake Shore and other railroads to handle its freight and to deliver to it the interstate act. The interstate commerce law made it mandatory upon connecting railroads to receive and deliver passing freight and to afford equal facilities for the interchange of traffic. Corporations can act only through their officers, agents and servants, so that the law is made applicable to the corporation and to the officers and agents.

The authority of the court to issue the injunction is unquestionable, but the authority rests on well established principles. It is said that orders issued in this case are without precedent. It is immaterial what rule law or equity courts were born of some emergency to meet some new conditions and was therefore, in its time, without a precedent. If based on sound principles and beneficent results follow their enforcement, affording necessary relief to the one party without imposing illegal duties on the other, new remedies and precedents are not unwelcome aids to the chancellor to meet the constantly varying demands for equitable relief.

It is contended that the duties of an employee of a public corporation are such that he can not always choose his own time for quitting that service. The parties now charged with contempt must be tried on the facts as they have been made to appear; and having fully considered them, I conclude that Engineers Clark, Cook, Kutzner, etc., who put the service of the Lake Shore & Michigan Southern railway under circumstances when they had a right to do so, and they are not liable for contempt of court because of such conduct and they will be discharged.

With these views of my duty an order will be entered that in accordance with Lennon, stands adjudged as guilty of contempt and to pay a fine of \$500 and the cost of this proceeding upon payment of which he will be discharged from the further orders of the court. Orders made in this case as to all the connecting roads and their employees who have contended that the service is still in force, and it is just to all that the court should say that the laws and orders having now been fully interpreted and put into effect, and that there shall hereafter be made will be dealt with a spirit and purpose quite different from that which has controlled in this case.

A MINE HORROR

The Laurel Hill Mine on the Outskirts of Hazelton, Pa., the Scene of an Accident.

Nearly a Repetition of Jonesville Disaster Two Years Ago When Ten Men Were Drowned.

When the First Word of the Disaster Came, One Thousand People Hurried to the Scene.

Latest Reports Say Ten Men Have Been Rescued and Only Two Have Been Drowned.

HAZELTON, Pa., April 3.—At 9:30 a. m. another mine horror occurred on the outskirts of this city. The mine is Laurel Hill and is operated by Pardee Bros. The nature of the accident was almost a repetition of the Jonesville disaster of two years ago, when ten men were drowned.

The report that water now standing in the Sugar Loaf mine had burst into the Laurel Hill and that a cave-in followed it was first circulated. About 800 men are employed in this mine. The effect produced by the report was electrifying. In less than ten minutes 1000 people were hurrying to the scene of the disaster.

Among the first to arrive was Frank Pardee, one of the operators. His intention of descending the ill-fated mine was barely announced when twenty miners stepped forward to accompany him. They were at once lowered into the pit and when the carriage returned Mine Superintendent Durkin, heading ten men rescuers, boarded it and were immediately dropped into the mine.

The fifth lift is the point at which the accident occurred and is over 600 yards below the surface. Superintendent Durkin and his band of rescuers had barely reached the bottom when the signal to hoist again was given. It had on board a grimy excited miner. The three men had been caught by the tremendous rush of water and were carried by it to the foot of the slope.

Three sustained serious injuries caused by being knocked against timbers. They were speedily conveyed to their homes. The first authentic information of the disaster was received by the mine and proved a source of great relief to the throng of people assembled.

Later—Ten miners have been rescued. Two are still in the mine, and it is believed have been drowned.

DULUTH ELEVATOR BILL.

The Minneapolis Delegates Are Putting Up a Combination to Defeat it in the House.

ST. PAUL, April 3.—[Special to The Herald].—There is quite an attempt on part of the Minneapolis delegates to put up a combination to defeat the Duluth elevator bill in the house. To do this they figure out a memorandum of the omnibus appropriation bill as follows in order to show that this legislature will not use an unenviable record in this respect: For state institutions, \$2,100,000; three soldiers' monuments, \$25,000; the coal combine investigation, \$50,000; the pond drainage bill, \$10,000; the Duluth elevator, \$200,000; various bridge bills, \$2,300,000; sundry items perhaps \$50,000 more; a total of close to \$3,000,000, which there is to add for the capital \$2,000,000, all of which will be, if it goes through, charged to the Republican legislature of 1893.

In the house this morning the committee of the whole recommended the passage of the bill changing the boundary lines of the lumber districts of Hennepin county and St. Louis county. The attendance was very slim and the whole morning session was occupied in discussion of general orders.

Cotton's bill relating to title insurance companies, amending the law so as to allow title insurance companies in cities of less than 125,000 people to organize by depositing one-fifth of the amount of the capital stock as security against loss, was recommended. This would mean a deposit of \$100,000.

Fuller's bill allowing transfer and sale of log liens was recommended to pass. A large number of bills on general orders were recommended to pass, including Senator Tawney's bill allowing municipalities to construct canals and waterways.

CAUSED BY KEROSENE.
A Costly Fire in a South Carolina City Today.

COLUMBIA, S. C., April 3.—The city of Florence, this state, is in the midst of a quarter million dollar fire. The fire broke out early this morning in the grocery store of D. F. Harker, by the explosion of a kerosene lamp.

At least a score of buildings have been destroyed. Several firemen were injured by falling walls. The estimated loss is \$250,000.

Fatally Scalded.
CONNELLSVILLE, Pa., April 3.—The boiler of a shifting engine exploded at this place today, killing one man and wounding three. Three brakemen were fatally scalded and otherwise injured.

The Choctaw Feud.
PARIS, TEX., April 3.—The Choctaw militia promised Agent Bennett yesterday that they would disband and go home, but they are still at Greenwood and have made no move to leave. Locke is still at his post at Antlers, using all precaution against a surprise. No one can foretell what will be the outcome.

THE SEWER QUESTION

The Village Dads of West Duluth Will Consider the Problem at Tonight's Meeting.

Business Men's Union Has Decided That the City Can be Kept Clean Without Them.

Petition to be Presented Asking That Saloons be Closed on Sunday and After 11 o'clock.

An interesting council meeting will be held this evening as there are matters of supreme importance awaiting action by the village fathers. The sewer question will be discussed in its bearings, and as considerable opposition has developed since the last meeting the matter will undoubtedly furnish a good subject upon which to air the burning eloquence of the new councilmen.

The Business Men's association at the last meeting decided that it was practicable to keep the village in a healthy condition without building sewers and that the financial condition will not warrant the expenditure of money for this purpose. Resolutions to this effect will be presented to the council for consideration.

A petition will also be presented asking the council to close the saloons on Sunday and at 11 o'clock each evening. This will not require definite action, however, as Chief Patterson ordered the department some time ago to see that the saloon keepers complied with the terms of the law in this respect, and since that time there are no reports of a violation of the rules.

Among other communications from officers of the village will be one from the chief of police asking the council to purchase a patrol wagon. A vehicle of this kind is badly needed by the department for it is a burdensome task for a policeman to arrest a man on Second street and lug him and his jag away to the city hall.

The following is said to be a complete list of the candidates for postmaster of West Duluth: P. O. Nohes, Ed. Capless, H. P. Patterson, S. C. Murphy, J. A. Scott and Mr. Nohes.

Mr. and Mrs. P. F. Smith, of the Phillips, will give up the lease of the hotel this evening and after a vacation of a couple of months will return and settle down in West Duluth.

The public schools, which have been closed for one week, opened again today. Miss Liooth, principal of the Longfellow school, will start about 7:30 a. m. to enter the school before June there is time for any classed above the lowest grade. No pupils will be admitted to the lowest room until September 1st.

It is stated that an Ashtabula lumberman is fighting on a lease of the Huntress and Brown mill and will stock it with timber cut on the south shore of the Ashtabula mill, if he closes the deal which is very probable.

Mrs. Connell, of Marquette, Mich., was a guest of Mr. and Mrs. Charles Kierulff.

At the meeting of Company H on Wednesday evening a captain will be selected to succeed W. W. Brown.

W. W. Brown has removed his law office to the St. Louis block. Daniel (Daniel) will occupy desk room with him.

Miss Gertrude Nohes, 48 years old, sister of P. O. Nohes, died yesterday morning of bronchial troubles. The deceased has been living with her mother on Bay View Heights and has been a resident of this place about two years.

One of P. O. Nohes' little children is quite dangerously ill.

Eugene Stone, of Minneapolis, spent Sunday here among friends.

Thursday evening of this week the Knights of Pythias will install their new officers. The Duluth lodge have been invited to participate and enjoy the good things which will be prepared for the occasion.

Pat Mulalley, formerly of this village, on his way from Marquette to attend the machinists ball met with an accident in which he had one of his ankles broken. He is laid up at a hotel in Marquette.

H. E. Burroughs, L. T. Marble, A. F. Rockwell, J. H. Ecklund and E. Knight, of West Duluth, have been drawn upon the grand jury. A. Freeman, H. W. Wallace, C. L. Eaton and John Peterson will serve on the petit jury.

The society of the W. C. T. U. of this village will raise \$100 for their donation towards the erection of the Temperance Temple now being erected in Chicago.

John Peterson, the tailor, has again moved to his old stand on Central avenue.

FILED WITH THE REGISTER.

Some of the More Important Matters Left With Register Shepherd Today.

A mortgage deed given by the Iron Mountain Land company to the Rochester Loan and Banking company has been filed with Register Shepherd. The deed is given to secure the payment of \$22,500, and covers parts of about fifty blocks in section 33-34-35. Payment may be made according to the conditions of time, first mortgage coupon bonds, of \$250 value each, carrying 8 per cent interest, and all payable April 1, 1896, at Rochester, N. H.

The following liens on property in the village of Virginia have also been filed with the register: In favor of the Stillwater Manufacturing company, against J. A. Towell and A. Dahl for \$320; same plaintiff against J. W. Crockett for \$37.50; same plaintiff against J. T. Rogers for \$110.00; same plaintiff against N. McLean for \$27.50; same plaintiff against W. Hayes for \$16.50; same plaintiff against Thomas Clark for \$50.00; same plaintiff against B. H. McCarry for \$2.00; same plaintiff against the Oliver Mining company for \$260.00.

The plat of the Great Northern addition to Virginia was also filed for record this morning. It was surveyed by Patton & Frank and is owned by the Great Northern Mining company, and is located on the north of the new section 33-34-35. The streets are named Orange, Lemon, Balsam and Magnolia, and the

LANE'S MEDICINE

Shipping by the Lake Will be Very Lively This Year.

The Duluth correspondent of the Northwestern Lumberman says: There is a large amount of lumber at the head of the lake awaiting transportation, and shipping will be especially lively from the beginning of the season. On the south shore a large number of rafts will be ready to move as soon as the ice goes out; some of them will go to Ashland, some to Washburn and Bayfield and others to Duluth and Superior. The mills, in all probability, will get a late start, as nothing will be done until after the lake and bay are cleared of ice, but when they do begin operations with scarcely an exception they will run day and night.

Conditions about the mills and docks will be about the same as last year; wages will be the same, with the possible exception of the vessel loaders, who are arranging to form a close organization and demand an increase in their wages over last year's schedule. If this is done, the position has developed since the last meeting the matter will undoubtedly furnish a good subject upon which to air the burning eloquence of the new councilmen.

It is the general impression among shippers that rates from Duluth to Buffalo by boat this spring will open at \$2.25 a thousand, and that they will rule as low as \$2 before July 1.

The chances for a scarcity of lumber at the head of the lakes during June are increasing as it becomes more evident that sailing will begin late. Dry lumber during that month will be at a premium, and manufacturers look for good prices through the season. Shippers have been here recently, not only from Lake Erie ports, but from New York and Brooklyn, and all available stocks are being contracted to be shipped as soon as the timber is in condition to move.

The Saginaw correspondent of the Northwestern Lumberman, commenting on the exaggerated reports of the wealth of many lumbermen, says: The men who have made the greatest fortunes have not made them in cutting boards in saw mills, but in the appropriation of big lands. It is the men who purchased timber from 50 cents to \$3 a stump, and having faith in the future, closed it out at \$5 to \$8, that have struck off big accounts. Most of these men, too, began life at the bottom of the ladder. If there is a lumberman in Saginaw who began life with a good sized capital, he is an underdogged quantity.

It came to Saginaw, with very little money, William Callan worked in saw mill at \$4 a day thirty years ago. W. K. Butcher worked at \$15 a month in a lumber camp on the Pine river; David Ward of Detroit, who is one of the wealthiest lumbermen in the country, was not very well off forty years ago when he lumbered on Pine river and lived in Saginaw. Thomas Merrill, W. C. McCall, and others, who are now as well off as the best, were poor men thirty years ago.

The big land items are coming in fast. A letter from the Brennan Lumber company at Huckleby, Minn., tells of a land sale of 26,000 acres. At one of C. Merrill & Co.'s sales a lot of fifty acres, long sealed a fraction over 100,000 feet was sold by one team. Big land stories are somewhat of the nature of snake stories, the last man captures the audience.

THE MURDER PROVED TO BE A SCOOOP.

After the meeting of the school board was ended Saturday night at the high school the remainder of those present had considerable fun with a reporter on a Duluth morning paper. The lights had just been turned out when a blond curdling appeal for "help! help! there is a man in the room!" came apparently through the windows of the room from the outside. "Have any of you fellows got a gun?" shouted the scribe, but all stood pat so the man of note books rushed madly from the room, followed by the little scribbler who was in the secret, out onto the schoolhouse steps.

"Help! Help! I'm dying!" was the cry and the reporter rushed to the south side of the steps only to hear the amazed cry: "Here! here! come quickly, for mercy's sake!" and he ran around to the north side, but then the cry came from the center and shouted in semi-breathless gasps: "Where in hell are you fellows? I can't find you!" and then the spectators on the steps rolled over each other in a frenzy of delight. The reporter then "tumbled" to the fact that it was Clerk Blackhurst having a little ventriloquist fun at his expense, and that it was April fool's day.

Throw Away That Old Pair Of Shoes!

You need a new pair; you'll have to discard the rubbers and overshoes now that the nice weather is here, and besides, they won't hide the holes any longer. Ready-made shoes—like ready-made clothing—have been greatly improved and almost approach a degree of perfection. Never wore a pair of ready-made? Well, you'll be surprised to see what a good fit and good stock you can get for about two-thirds the price. Shoes made on long narrow lasts, shoes made on broad lasts, shoes made on medium lasts, shoes in all shapes and sizes. Thirty-eight cases of our \$3.50 shoes opened this morning. They come in Congress, or Balmorals, or Lace. They are hard to beat at \$5.00 in other stores, sewed, at that. Don't think because we advertise this shoe we haven't any other—that would be a grand mistake, for we have 'em from \$1.50 up to \$5.00.

PERSONAL.

Superintendent Bell of the Union depot and Superintendent Wiley of the Northern Pacific, have returned from St. Paul.

Chairman Kelley of the Lake Superior car service association, is suffering from an ulcer in one of his ears, and is temporarily almost deaf.

Monroe Nichols spent Easter in St. Paul and reports having experienced some most pleasant weather along with his other pleasures.

Mrs. George H. Prudden received a telegram from New York, Saturday, announcing the death of her mother.

B. Murphy returned from New York this morning.

David Sichel of St. Paul is here.

A. M. Philbin came over from Marquette last evening.

E. T. Winston, of Minneapolis, is in the city.

Maj. and Mrs. Sears and son leave tomorrow for the East. Maj. Sears goes as far as Detroit, where he will attend the meeting of the rafting commission.

T. L. Singler, of Tennessee, who is interested with the Merritts in Kentucky coal lands, is in the city.

H. H. Hawkins and family spent Sunday in the city. The captain returned to Thomson today but Mrs. Hawkins remained here the guest of Mrs. J. H. Triggs.

From a private letter received and it is learned that Judge Stearns and daughter, Miss Sue, expect to leave California soon and sail for Honolulu. The judge is not as much improved in health as had been hoped for.

Mr. and Mrs. W. E. Lucas will return tomorrow from an extended Eastern and Southern trip.

Has Commenced Business.

The Duluth Feed and Storage company has been organized by David A. Dunlap, Albert L. Cline and James H. Atchinson, with a capital of \$15,000, and has commenced business at 206 West Michigan street. D. A. Dunlap is manager, and with so popular and courteous a gentleman at the helm the new company cannot fail to succeed.

WANT TO CONSOLIDATE

Hartman General Electric Company Negotiating For a Consolidation With the West Duluth Plant.

The Deal Has Not Yet Been Closed But Probably Will Within a Few Days.

Duluth Driving Park Association Holds Its Annual Meeting—A Trainer to be Employed.

Negotiations are now pending for the consolidation of the electric lighting plant of the West Duluth Light & Water company with that of the Hartman General Electric company of Duluth. The deal has been under consideration for a few days and while it may fall through, it is quite probable that it will be consummated. It is supposed to be the desire of the Hartman company to have the two plants consolidated at the time West Duluth comes into the city. If the deal goes through, however, they will take the West Duluth plant at once.

DRIVING PARK ASSOCIATION.

Annual Meeting Held This Morning and Officers Elected.

The annual meeting of the Duluth Driving Park association was held today and the following directors were elected: G. G. Hartley, Paul Sharv, B. F. Howard, John McKinley and T. W. Hoopes. The officers elected were: President, G. G. Hartley; vice president, Paul Sharv; treasurer, T. W. Hoopes; secretary, R. F. Jones of Minneapolis.

The articles of incorporation were amended extending the limit of indebtedness to \$20,000; also changing the date for holding the annual meeting from the first Monday in April to the second Monday in December.

The directors met at 4 o'clock this afternoon to arrange the dates, classes and purses for the fall meeting. It is also expected that a contract will be closed with John F. Hawkins, of Minneapolis, to take charge of the track and to train horses during the summer. The first meeting will be held the second week in July, immediately after the summer Twin City meeting.

Postoffice Report.

During March there were sold at the Duluth postoffice stamps and postal cards amounting to \$559.73; stamped envelopes, \$243.20; box rents collected, \$2; drafts collected, \$3.11; total, \$808.04. The disbursements during the month were \$363.82, leaving a net income to the government of \$444.22. This is an increase over the corresponding month last year of \$102.82, or about 23 per cent.

THE MUNICIPAL COURT.

George West, the youthful desperado, Will Answer to the Grand Jury.

George West, the young disciple of Jesse James and Dick Turpin, received no administration of justice in the municipal court this morning. It will be remembered that the other day he shot a playmate because of a refusal to hand over cash he did not possess. The shooter was simply held and his case will be brought before the grand jury. The records in the municipal court, however, show that the case was continued until April 10.

John Candell, Edward Patrick, John Tingle, Michael Higgins, William Harris and John Cameron were committed to the county jail ten days for drunkenness. James Greaves was up for drunkenness but sentence in his case was suspended. John Donahoe for the same offense forfeited \$15 bail. Gust Nelson accused of vagrancy and begging on the streets was found guilty and sent up for 5 days. Frank Jones forfeited \$15 bail put up when arrested for disorderly conduct.

SUING AN EX-POSTMASTER. The United States wishes to Recover From William Oliver.

A suit has been commenced in the district court by the United States of America against William Oliver, M. Townsend and Michele Felgin. William Oliver was postmaster at Barnum, Minn., until January 1, 1891. Townsend and Felgin were his bondsmen the amount of the bond being \$500. The United States accuses Oliver of failure to turn over the balances due for the sale of stamps, stamped envelopes and other postal department wares and places the amount due at \$3,164. The bondsmen have failed to pay and judgment is demanded with interest from December 31, 1890.

The Bill Which Proposed to Hold Annual Sessions of the Legislature Was Killed Today.

Congress is Asked to Make a Grant to Open Navigation From Big Stone Lake.

The Scheme to Apply the Swiss Method of Discussing Proposed Legislation to This State.

Two Senators and Four Representatives for This District Provided for in Both Reapportionment Bills.

St. Paul, April 4.—[Special to The Herald.]—The bill providing for annual sessions of the legislature was lost in the senate this morning. Mr. Clinebarger introduced a joint memorial to congress this morning calling for an appropriation to open navigation from Big Stone lake to the boundary line through the Red river, which passed under suspension of the rules.

Mr. Clinebarger's bill was passed by the house yesterday, but it is not probable that it will pass the senate.

CUBAN REVOLUTIONISTS.

They Are Filling Out an Expedition to Sail From Florida.

New York, April 4.—The Times this morning published a long dispatch from Key West, Florida, on the subject of the revolutionary expedition against Cuba, which the dispatch says, is about to leave there.

The revolutionists, who are said to number between 300 and 400 men, are reported as being actively engaged in preparing to sail for Cuba at once.

The United States revenue cutter is on the alert and prepared to intercept the revolutionists, if they make a start, and the statement is now made and not denied that two other revenue cutters have been ordered to Key West.

The revolutionary party is said to be composed almost entirely of native Cubans, and it is understood that they have made arrangements for a revolutionary movement among the people of Cuba simultaneously with their arrival there.

At a meeting of the board a few days ago, the stockholder's committee offered to help the company out of its troubles on certain conditions. They said that the insurance bill, placing individual underwriters under the provisions of the general insurance law and under the insurance commissioner, passed the senate.

Both new reapportionment bills give St. Louis, Lake and Cook counties two senators and four representatives. Hennepin county gets eight senators and sixteen representatives and Ramsey six senators and twelve representatives.

The house this morning passed the bill proposed by Mr. Tawney providing for protection during winter months of motorists and grime upon street cars; by Mr. O'Brien, allowing county commissioners to appropriate money for the support of hospitals; by Mr. Severson, a bill to prevent sealage from wheat cars; by Mr. Tawney, providing for the construction of canals and waterways by cities; by Mr. Abbott, providing that express companies shall be considered common carriers and placed under control of the railway and warehouse commissioners; by Mr. Williams, for the punishment of boys under 16 years of age.

The senate last night passed Wilson's omnibus bill, allowing municipal corporations to bond for every conceivable purpose up to ten per cent of the valuation of taxable property, providing that after the five per cent limit is passed, a vote of the people will have to be taken before bonds to the extent of five per cent more can be issued.

In the house yesterday afternoon, the bill providing for the appointment of two additional boiler inspectors was recommended for indefinite postponement, after Mr. Boggs spoke at some length against it.

WILL COME HOME

Maj. Baldwin Will Probably Return to Duluth From Washington Some Time Early Next Month.

Barlett Tripp, of South Dakota, Gets an Excellent Plum, Being Made Minister to Austria-Hungary.

James E. Neal, of Ohio, Captured the Much Coveted and Fat Position of Consul at Liverpool.

James O. Broadhead, of Missouri, is Minister to Switzerland and Eben Alexander Sent to Greece.

WASHINGTON, April 4.—[Special to The Herald.]—Representative Baldwin said to The Herald correspondent today that he probably would not leave Washington for the summer until the first or middle of May. He is of the opinion now that between now and that time he will be able to clear up his work here so that he can return to Duluth and remain until congress is again reconvened.

It is probable that the major will greatly enjoy his vacation at his home in Duluth. Ever since the inauguration of Cleveland, he has been kept busy day and night by men in the Sixth district who have applied to him for office, and by others who desire to have something done for them in Washington. It can be said of Maj. Baldwin that he has attended to all this work faithfully, and with the possible exception of having dissatisfied certain men that he could not give an office, the majority of his constituents who have applied to him for anything are perfectly satisfied that their representative has done the best in his power to attend to all their requests.

The major is not yet entirely satisfied that President Cleveland intends to call an extra session in September, and it can be said in this connection that there is some opinion that an extra session will be called. Of course, there is a possibility that the president will yet discover that it is necessary to have congress called together before the regular time in September, and if such should prove to be the case there is no doubt that he will use his right to reconvene congress as requested by the constituents.

At this time there is probably very little for Maj. Baldwin to do here except to attend to the filing of applications for his constituents who desire office and to further use his influence in securing the appointment of other Minnesota Democrats who are applicants for some of the higher positions within the gift of the president. He believes that Judge Lockren of Minneapolis will be made commissioner of penitents.

A BATCH OF APPOINTMENTS.
Barlett Tripp of South Dakota Made Minister to Austria.

WASHINGTON, April 4.—The president today sent the following nominations to the senate:

James O. Broadhead, of Missouri, to be envoy extraordinary and minister plenipotentiary of the United States to Switzerland.

Barlett Tripp, of South Dakota, to be envoy extraordinary and minister plenipotentiary of the United States to Austria-Hungary.

Eben Alexander, of North Carolina, to be envoy extraordinary and minister plenipotentiary of the United States to Greece, Roumania and Serbia.

James E. Neal, of Ohio, at Liverpool; James M. Dobs, of Georgia, at Valparaiso; O. O. Rockford, of Mississippi, at Kingston, Jamaica; David N. Burk, of New York, at Pernambuco; Edgar Whidden, of Maine, at St. Stephen, N. B.; Henry F. Merritt, of Illinois, at Bremen; Asa D. Dickinson, of New York, at Nottingham; Benjamin Leitch, of Massachusetts, at Sherbrooke, P. Q.

Chas. E. Ingersoll to be appraiser of merchandise in the district of Philadelphia; Paul F. Faizon, of North Carolina, to be an Indian inspector.

A BERLIN MERCHANT SHIPS.
The Young Wife of a Friend Has Also Disappeared.

BERLIN, April 4.—A week ago Conrad Wachsmann, a well-known merchant of this city, disappeared, and many rumors were current as to his reasons for leaving Berlin. It was known that he had been a heavy bettor on race horses and that his ventures had proved unsuccessful.

He also speculated in the bourse and had lost money in that direction. It is now known that he left debts amounting to 1,000,000 marks. Among the creditors is a man to whom Wachsmann owes 200,000 marks. Wachsmann professed to be a close friend of the man, whose wife was young and pretty.

When Wachsmann disappeared the wife of his creditor disappeared also, and it is believed that they eloped and are now on their way to America. Efforts will be made to have them arrested should they land at any port of the United States.

Four Tramps Cremated.
MAYWOOD, N. J., April 4.—A barn belonging to G. T. Jaeger, of Maywood, Bergen county, was burned to the ground yesterday. The charred bodies of four unknown tramps were taken out of the ruins. It is thought the tramps set fire to the barn by smoking or carelessly dropping a lighted match.

Was Tired of Life.
JOLIET, Ill., April 4.—Charles W. Goodspeed, a wealthy and highly connected young man of this city, committed suicide today, by shooting himself through the heart. He has been sick about three weeks and this is believed to have led him to take his life.

A ROW IN A CHURCH.
A Disgraceful Scene at a Presbyterian Meeting in Chicago.

CHICAGO, April 4.—A disgraceful fight, during which several blows were exchanged and more or less blood was shed, occurred at the annual spring meeting at the Belden avenue church, of which R. D. Paxton is pastor.

James C. Hughes tried to prefer charges of frivolous conduct against his pastor, Rev. W. W. Tothorp, of Hyde Park Presbyterian church. Hughes advanced towards the pastor's stanch friend, Mr. Freeman, and shaking his fist in Freeman's face, shouted "You are a liar."

"You are another," came back the reply, and then the two men clinched and fought. The Rev. Tothorp, also came forward and said he wanted a hand in the fight, but Pastor Scott and friends of the belligerents crowded themselves in and averted further violence.

The charges were once more heard by Dr. Tothorp's congregation and the pastor was sustained at that hearing. Hughes had a personal encounter with another member of the congregation and was thrown from the church. He declared he would take the charges to the general assembly.

THE HAYTIN REVOLUTION.
New York, April 4.—The Herald's dispatch from Cape Haytien, Haiti, says: President Hyppolite and his cabinet have determined to meet an uprising of revolutionists. With his cabinet the president has camped at Port de Paix, near this place. The government troops have also been ordered in camp near here. They will be sufficiently strong to meet any force the revolutionists may muster. President Hyppolite has sent a protest to President Herceux, of San Domingo, against the action of the republic in aiding the revolutionists.

THE CHEROKEE STRIP.
WASHINGTON, April 4.—Secretary Hoke Smith has received official confirmation of the ratification by the Cherokee Indians in council of the amended Cherokee agreement made by the last congress. He does not expect the strip will be open to settlement before July 1 next.

FOUR PEOPLE PERISHED.
AMSTERDAM, April 4.—Several people lost their lives last night by the capsizing of a sail boat in which a large party were on a pleasure excursion. The boat captain and the excursionists were thrown into the water. Twelve of them were rescued in an exhausted condition but four perished.

COMING BACK TO SUPERIOR.
New York, April 4.—Alfred A. Cadwallader, once president of the National Band of West Superior, Wis., and who was indicted on the charge of embezzling \$100,000 of the bank's money forfeited his bail and flew to Brazil, was arraigned before commissioner Shields yesterday. He waived examination and will be sent back to Superior in custody of A. L. Drummond, chief of the secret service of Wisconsin.

IS NOTORIOUSLY BAD

That, Says President Martin, is the Sanitary Condition of the Village of West Duluth.

Petition Asking for the Enforcement of the Saloon Regulations is Presented by President Martin.

Street Railway Company Ordered to Lay Tracks on a Number of Streets and Avenues.

The council room was crowded last evening and a lengthy session was held. Several protests against the proposed sewer system were read and placed on file. The first was from Mitchell & McCune and was based on the grounds that the sewers emptying into the bay would inconvenience them greatly while their discharge into still water would not improve the sanitary condition of the village. This matter was referred to the city engineer.

Some of the property owners in the Sixth division also filed an objection to the building of sewers. The Business Men's club presented their objections which were answered by President Martin in a vigorous style. He said that he was a member of the club himself and that he did not believe that this organization had looked into the matter sufficiently to dictate to the authorities in the matter. He thought that this protest was in a large degree due to party feeling, as the majority of the club had supported the old party. He spoke of the notoriously bad sanitary state of the village, and said that an effort must be made to improve its condition.

Trustee Dent responded to his speech, saying that the system was opposed on the ground that the financial condition of the village would not warrant the expenditure of money for such purpose and that it would be but little improvement, as very few of the property owners would connect with the sewers. The communication was finally tabled.

Petitions signed by a large number of citizens were read requesting the council to instruct the chief of police to enforce the law relating to the closing of saloons on Sunday and at 11 o'clock and to keep a strict lookout for gambling houses. Dr. Forbes spoke on the subject, urging pressing the council to act in the matter. President Martin took exception to these petitions as instigated by opponents of the present administration, with the object of embarrassing the executive. He said that the agitation was an impatience upon the honesty of the new council in enforcing the laws. The petitions were laid on the table by unanimous vote. A communication from Chief Kyon, of the fire department, asking that he be authorized to proceed with improvements in hose racks and other apparatus was received and the authority granted. The question of improvement in the truck and

ladder and the adoption of a fire alarm system were referred to the committee on fire department.

A petition from the chief of police asking for the purchase of a patrol wagon was referred to the committee on supplies with power to act in the matter. A petition from citizens asking that no liquor license be granted in the first ward was placed on file. The committee on fire department reported certain property missing and the chief of police was ordered to look the matter up. The report of the committee on finances showing the financial condition of the village at the time of the entrance of the new council was read and ordered published in the daily papers. The report of the committee on the salaries of officers was brought up and the matter discussed but owing to the lateness of the hour the matter was postponed until the next meeting.

One of the most important matters transacted at the meeting was an order to the street car company to lay tracks on Collingwood avenue from Grand to Norton avenues, on Norton to Fourth avenue west, along this avenue from Norton to Grand, also on Grand westward through West End and Grassy Point addition. Recorder Borgstrom will serve notices on the company in a few days and within six months the tracks must be laid and cars running on the same according to the terms of the franchise.

West Duluth Briefs.
W. P. Mars left today for Virginia to take charge of the erection of a building for his new hardware store.

D. Baldwin is now doing reportorial work on the News-Tribune at this place and Chas. Birch has been promoted to superintendent of the West Duluth department.

N. C. Hendricks has gone to St. Paul on business.

The K. O. T. M. will give a public meeting at the I. O. O. F. hall on April 13. Addresses will be given by Grand Commander Beaver and others.

A company has purchased two blocks in Hunter & Markell's Grassy Point addition and will erect upon the property a sash and door factory.

STRANGLED TO DEATH.

Murder of An Old Soldier in St. Louis For Robbery.

St. Louis, Mo., April 4.—Fred Gill, an ex-soldier, 54 years old, was found strangled to death in a rear room at No. 220 Water street, at 8 o'clock last night. The murderers are supposed to be Ancel, alias S. Suttee, and Joseph Bophel, alias John Mueller, two men who came here from Chicago three weeks ago. Gill had been lured in the room, probably while under the influence of liquor, for the sole purpose of robbery, murdered and then robbed of everything he had about him. The murderers tied a handkerchief about his neck, and twisted it until the man died.

Cleveland's New Mayor.

CLEVELAND, April 4.—Robert Bleck, Democrat, was elected mayor of Cleveland yesterday by a majority of 1517 over W. J. Akers, the Republican candidate.

AN UNLAWFUL CONSPIRACY.

Another Important Decision Given By a Pennsylvania Judge.

NEW YORK, April 4.—The Sun's Pittsburgh special says: Officials of the builders' exchange here were yesterday found guilty of conspiracy by a jury for combining in restraint of trade and preventing contractors, not members of the exchange, from getting material.

The case is that of Thomas Buchanan against H. K. Barnes, William Man, John Carr and L. T. Voder. All but Voder were found guilty. Barnes is the president of the exchange.

Judge White in his charge scored illegal combinations of capital and of labor. He approved of the rules of labor organizations limiting apprenticeships. He said that although any man or set of men had a perfect right to quit work, if the compensation of their labor or the treatment accorded them by their employers was unsatisfactory, yet they had no right to strike or to induce others to refuse to work. Any such action was unlawful conspiracy.

THE BENEDECTINE ABBOTS.

Many Going to Rome in Obedience to the Pope's Summons.

NEW YORK, April 4.—A party of Benedictine abbots were passengers on the North German Lloyd steamship Aller which sailed this morning for Bremen. They expect to be in Rome by April 6, where they have been summoned by the pope to be present at the laying of the cornerstone of the new international Benedictine college of St. Anselmo.

Nearly all those who started on their journey to the holy city today are members of the Cassini Congregation of Benedictine order which is the most important branch of this particular community in the United States.

The ceremonies attending the cornerstone laying of St. Anselmo's college will be witnessed by the heads of the various Benedictine congregations throughout the world. It is believed that nearly 600 abbots of the order will be present.

In addition to those who left this morning, members of the American Swiss congregation of the Benedictine order and of the community of the French Benedictine order in the Indian territory hope to reach Rome to participate in the conference of Benedictine abbots, which takes place on April 16. The pope will grant an audience to the abbots, and during the deliberations a communication will be made to them from the holy father, the nature of which is not known.

THE ELECTION IN CHICAGO.

Heavy Vote Being Poured in the Municipal Contest.

CHICAGO, April 4.—A heavy vote is being poured in the municipal election today. The Republicans and Democrats both claim victory for their party, but the result cannot yet be foretold with any degree of accuracy.

Carter Harrison, the regular Democratic candidate for mayor, was opposed by the entire press of this city except his own paper, the Times, before his nomination, and since then only two papers of scant influence have rallied to his standard, but he claims that this opposition has done him more good than harm and that he will be elected by a safe majority.

Samuel W. Allerton, the Citizens' and Republican candidate, has had the undivided support of the Republican press and two Democratic papers, the Herald and the Post, and his friends predict a majority of 15,000 for him. He is also benefited by the candidacy of Dewie C. Greger, Independent Democrat, who was defeated two years ago in the mayoralty contest by the defection of Harrison and his friends.

It is not generally claimed that Greger will poll a large vote but the Republicans hope to benefit by the three-cornered contest as they did when Greger and Harrison were both defeated and Hempstead Washburne, the Republican candidate, was elected.

THE MICHIGAN ELECTIONS.

The Republicans Appear to Have Swept the State.

DETROIT, Mich., April 4.—The latest returns from the state show that Judge Hooker, Republican nominee for justice of supreme court, has been elected by a plurality of about 12,000 over Durand and the Republican candidates for regents of the state university have won a still greater victory.

All of the proposed constitutional amendments have carried. A light vote was generally polled throughout the state. In Detroit and Wayne county the Republicans have made almost a clean sweep. For school inspectors the Republicans elected ten, the Democrats two.

Swinging Around the Circle

Of the diseases to which it is adapted with the best results, Hostetter's Stomach Bitters, a family medicine, comprehensive in its scope, has never been thrust upon public attention in the guise of a universal panacea for bodily ills. This claim, daily arrogated in the columns of the daily press by the proprietors of medicines far inferior to it as specifics, has in a thousand instances disgusted the public in advance by its absurdity, and the prospects of other remedies of superior qualities have been handicapped by the pretensions of their worthless predecessors. But the American people know, because they have verified the fact by the most trying tests, that the Bitters possess the virtues of a real specific in cases of malarial and liver disorder, constipation, nervous, rheumatic, stomach and kidney trouble. What it does it does thoroughly, and mainly for this reason it is endorsed and recommended by hosts of respectable medical men.

BOTH WERE REJECTED

The Council Last Evening Refused to Confirm the Nominations of F. H. Frisbee and Frank Thomas.

Dr. Goffe Re-Elected Health Officer After Three Ballots—Board Presents the Tunnel Assessment Plan.

The West Duluth Council Presents a Somewhat Amusing Communication Regarding the Tunnel.

For the first time in the history of the new council last evening there was a "full house." Alderman Wilson, after a three month's absence, was seen in his seat and when the clerk called the roll fourteen voices responded. The session commenced tardily, dragged along slowly and closed at a much later hour than usual which seemed very new and strange to those accustomed to attend these popular entertainments given by the city fathers.

There was considerable of entertainment last evening, too. After the general business had been done a matter of record, Alderman Hugo quickly moved to proceed to elect a health officer. Dr. Goffe secured the plum for another term but it took three ballots to get it. On the first ballot the vote stood: Goffe 6 votes, Dr. Maxwell 2, Dr. Davis 2, Dr. Murray 1. On the second ballot Dr. Davis dropped out. Goffe got 7, Murray 5 and Maxwell 2. The third time the chair for Dr. Goffe, for he received the necessary eight votes. Maxwell got four and Murray two. As soon as the result was announced, Dr. Goffe's pulse resumed its normal beat, John Rossiter shook hands with another year's work in the city hall and then upon a peremptory wink from his chief, sped away after a box of very smokable cigars.

The next act led off with Mayor d'Auremont in the center of the stage. He reminded the aldermen that under all circumstances and particularly with such important public improvements as tunnels and viaducts and enlarged city halls in prospect the board of public works is a most important adjunct to the city government. He reminded the city law makers that some time ago he had submitted to them the name of a successor to Nils Nilson on the board of public works. The mayor read from the charter in support of his claim, and the case of every elective or appointive office, with the exception of the board of public works that each shall hold his office until his successor is elected. Under the circumstances, he considered that there was a vacancy on the board of public works and accordingly asked that action upon the nomination of F. H. Frisbee be not confirmed.

A demand was next made that action be taken on the nomination of Frank M. Thomas for a member of the fire commission. The committee was again instructed to report. The result was as before. In both cases the report was received. Resolutions were next introduced confirming the reports of the committee. Against confirmation of Mr. Frisbee the vote stood: Cox, Dingwall, Getty, Hugo, Helm, Howard, Myers, Nelson, Oie, Quinby, Sorenson—11. For confirmation: Thomas, Spangler, Wilson. The vote on the confirmation of Frank M. Thomas for a member of the fire board stood 12 to 2 against. Alderman Thomas voting with the majority amid a roar of laughter.

The mayor naturally feels much chagrin and is non-committal as to what steps he will now take. He has been ingeniously constructed opinion from City Attorney Greene to the effect that Nils Nilson's term of office has expired and that the board now has two members only. It is also his belief and opinion that without a full membership it can make no assessments. Mayor d'Auremont may choose to fall back upon the voiceless dignity, in which case, if the city attorney's opinion will hold water, the ship canal will take a long rest wholly undisturbed.

The board of public works submitted its tunnel assessment plan so far as it has been evolved. The estimated cost of the improvement is \$200,000. The part to be met by assessment is \$200,000. Minnesota Point being planned, produces 1000 lots. Counting each strip of land west of St. Louis avenue as 100 feet wide, and with water fronts extending in the neighborhood of 1400 feet into the bay as worth five lots, 2000 lots more are given. Taxing five-sixths the assessment on the lots south of the ship canal will make less than \$100 to each lot as an average. On the lots north of the canal the tax will run from less than \$1 to not over \$25. The lots benefited would embrace all that property below Twelfth street from Eighth avenue west to Twenty-fourth avenue east. Under the law the board considers it possible to issue certificates for all assessments not paid at once and have the money for the improvement in the treasury within thirty days after the assessment is confirmed. The board also recommends that the validity of the law be tested before any important steps are taken in the matter.

Much to the amusement of all in general, and President Truelsen in particular, a communication from the West Duluth council was read, protesting against making any assessments on West Duluth property for the benefit of the tunnel. The general impression seemed to be that the village on the west is squawking before it is hurt or even in the smallest danger of harm.

The ordinance granting the Duluth Transfer Railway company right of way across certain parts of Garfield avenue was placed on its last reading and passed. The city attorney also submitted a report showing that only four suits against the city of Lakeside have been brought to Duluth, and that while judgment has been rendered against the city, it has been wholly on a technicality and the cases will be appealed to the higher court. Those holding those judgments are as follows: T. A. Sheridan, \$1100; Sang & Nicholson, \$500; West Duluth Industrial and Construction company, \$1200; and the fourth by Levi J. Hill.

Robert Sampson petitioned that he be made janitor and engineer of the city hall. The city clerk also submitted a communication setting forth that the duties of his office have so multiplied that he needs a deputy. He further recited the fact that Frank E. Austin has been performing the duties of deputy for some time and that he heartily recommended Mr. Austin to the council for appointment as assistant city clerk.

The annual report of the library board was submitted, of which the following is the chief part:

The past year has shown very conclusively the large place occupied by the library in our community. During the year a branch reading room has been established at the West End, where we also provide for a delivery and exchange of books. The board was very reluctant to incur the expense, but the request was so unanimous that the board felt they could not avoid the experiment. While results so far seem to justify the step it will be useless to attempt any further extensions in this line at present. At the recent solicitation of the managers of the Bethel we have appropriated \$300 towards furnishing periodicals for the reading room.

"The time is rapidly approaching when we must have larger and more adequate quarters for our library and we wish to bring your serious attention to the point already raised by the mayor about providing a suitable library building. Cannot some plan be devised for creating a sinking fund that will enable the city to erect a library building? As from all this, what better monument to our spirit of progress and cultivation can be erected than a public library? No library is evidence of this is wanted than our beautiful high school building. Side by side with our public school should go a public library, placing every avenue of knowledge within easy access of our whole community and at a cost so trivial as not to be considered when compared to the benefits to be derived from it.

The annual statement of receipts and expenditures was as follows:

MIGHT HAVE BEEN SERIOUS.

An Open Switch Derails a St. Paul & Duluth Train.

Passengers on the through train from Duluth on the St. Paul & Duluth road, which is due in St. Paul at 7:15 a. m. were yesterday morning treated to an experience that, had the train been running at a high rate of speed, might have resulted very disastrously.

Just at the north side of the tunnel under the seventh street fill at St. Paul the train ran into an open switch but as they were going at reduced speed the train was stopped before the trucks of the first coach had left the track. Many of the cars in the rear of the train are not yet aware of the serious accident which was averted only by the slow rate of the train at which the train was running. Conductor Richardson and Engineer Kilroy were in charge of the train.

March Health Report.

The death rate for the month of March was 10.2 a trifle higher than for the two months previous. There were 34 deaths, 20 being males and 14 females. Eleven were under 1 year of age, 4 between 1 and 5 years, 2 between 5 and 10, 5 between 10 and 20, 9 between 20 and 40, 1 between 40 and 60, 2 between 60 and 80. The causes from which occurred more than one death are as follows: Marasmus 5, meningitis 3, diphtheria 3, peripneumonia 3, peritonitis 3, organic heart disease 2, phthisis 2, bronchitis 2, capillary bronchitis 2. There was 1 death from accident and 1 from suicide.

The total number of births was 130, the males numbering 77 and the females 53. There were two pairs of twins.

NOT BOTTOMED IN ROCK.

An Untrue Story Circulated About the Cincinnati Mine.

Capt. Cunly received a letter from Duluth stating that report was in circulation there to the effect that shaft to the Cincinnati was bottomed in rock, says the Mesaba Range. The captain says this is untrue; that the shaft is bottomed in brown ore and that the drifts north and south therefrom, which now extend about twenty-five feet, are looking well.

Capt. J. A. Nichols, who is the first ore at the Mountain Iron mine and who has done considerable exploring for the Merritts, arrived at Merritt last week with a crew of men to renew explorations at the Kanawha. It is said that this move is preliminary to inauguration of mining operations by the Merritts, but whose control the Kanawha has passed. The men will be boarded for a time by the Standard Ore company at the Hale camp.

Capt. White recently sank a new pit on the Shannon property near McKinley, located about sixty rods west of the main shaft, and struck ore at a depth of twenty-eight feet. The shaft is now in about ten feet of ore and is as dry as a bone, although the old shaft is so wet that it was necessary recently to increase the pumping capacity by putting in a Fairbanks pump.

Capt. Prince, whose well known on the older ranges, is now on the Mesaba. He is of the opinion that ore will yet be found in large quantities within thirty miles of Duluth.

AFTER THE PINE LAND RING.

Maj. Baldwin Pushing the Complaints in the Interior Department.

The Washington correspondent of the St. Paul Globe says: For the first time in the history of Minnesota the congressional district in which are located the great pine forests of the state has a representative in congress who is determined that the pine land ring shall not continue to rob the government of its wards, the Indians, and the state if he can prevent it.

To those on the inside the secret of a fierce fight waged against Maj. Baldwin in the Sixth district last year was known. The pine land ring knew him, and his members were afraid to waste him. Washington, they furnished money, and votes as well, in many quarters, leaving no stone unturned to effect his defeat.

It was a desperate fight, but the gallant old soldier won, and now he has taken up the fight against the ring that has stolen the timber on the Indian reservation in his district. As stated in the Globe several days ago statements of the exact situation in the Sixth district, fortified by the strongest kind of evidence, has been set on foot. Maj. Baldwin will lose no time or opportunity to press the matter. Just at present Secretary Smith is engaged with the men who have been cutting timber on 20,000 acres of government land in Montana, and as soon as this is settled the Minnesota committee will be taken up and given a general overhauling.

In this connection it is interesting and refreshing to know that the present secretary does not propose to be satisfied with rulings or settlements made by his predecessor unless an investigation shows them to be right and for the public interest. This determination does not meet with the enthusiastic approval of a pine-land firm in Minnesota that by means of political influence secured on March 3 a settlement for 20,000 acres of pine cut on an Indian reservation in Minnesota. The amount paid was trifling compared with what was justly due, and Gen. Noble was much to the settlement, but finally yielded the day before he went out of office.

ARION QUARTET CONCERT.

A Delightful Musical Event at the Unitarian Church Last Evening.

The concert at the Unitarian church last evening by the Arion quartet, assisted by several local musicians, was an excellent one. The numbers were all of an unusually high order of musical excellence. In the Arion quartet Duluth has one to be proud of. Their singing is remarkable for perfect harmony and delicate expression and no audience ever fails to recall them again and again. The quartet was down for two numbers and individual members C. F. Shirk and F. W. Maynard contributed solos. Miss Louise Brown sang Denz's "Nocturne" and Miss Morris gave Gounod's "Song, Smile, Slumber," both being received with great favor. Edward Fuller and G. L. Spangler gave a violin duet; Miss Emeline Johnson a piano solo and the mandolin quartet played a selection.

Annual Church Meeting.

At the annual meeting of St. Paul's Episcopal church last evening F. W. Paine and Dr. Bowers were elected wardens and D. B. Smith, A. H. Vile, H. M. Peyton, C. H. Graves, Page Morris, W. C. Sargent, Thomas Cullyford and W. M. Prindle, vestrymen. It is expected that a rector will be secured for the parish, the vestry having several men in view.

A Three Corned Fight.

A rather vicious three cornered fight occurred in the alley between Sixth and Seventh avenues west and Superior and First street yesterday about noon. One man was quite badly cut with a knife, another was pounded on the head with a half brick, and the third was pretty well battered up. The patrol wagon was summoned and rushed to the place with three officers but the combatants had flown and there were no arrests made nor could it be learned who they were.

Why? Why is Strictly Pure White Lead the best paint? Because it will outlast all other paints, give a handsome finish, better protection to the wood, and the first cost will be less.

If Barytes and other adulterants of white lead are "just as good" as Strictly Pure White Lead, why are all the adulterated white leads always branded Pure, or

"Strictly Pure White Lead?"

This Barytes is a heavy white powder (ground stone), having the appearance of white lead, worthless as a paint, costing only about a cent a pound, and only used to cheapen the mixture. What shoddy is to cloth, Barytes is to paint. Be careful to use only old and standard brands of white lead.

"Southern" "Red Seal" "Collier" "Shipman"

are strictly pure. "Old Dutch" process brands, established by a lifetime of use. Strictly Pure White Lead, why are all the adulterated white leads always branded Pure, or

WANT A MECHANIC.

Some of the Aldermen say that is why they Voted Against Frisbee.

The board of public works accompanied by City Engineer Reed went out on a tour of inspection to Lester Park this morning. Nils Nilson, however, did not go as he was too busy conferring with his lawyer.

The impression around the city hall with a good many is that Mr. Nilson very likely no longer is a member of the board, his term having expired, but that the opinion of the city attorney to the effect that the remaining members of the board cannot legally perform the duties of their office while the vacancy exists, is a cold and chilly bluff, intended to scare the council and taxpayers.

The aldermen seen this far do not agree with the statement that the rejection of Frisbee and Thomas last evening was due to reasons political and a desire to keep the board non-partisan. In fact, politics with several, so far as seen, cut no figure. It was a question of competency, there being a belief that a member of the board should be possessed of mechanical knowledge and skill. Just for that reason Alderman Sorenson, who is a Democrat, would not object to see Nils Nilson hold his office for at least another year, as he considers that his knowledge of masonry would be very valuable during the construction of the tunnel.

THE DISTRICT COURT.

The Regular April Term Opened This Morning With Judges Lewis and Ensign Presiding.

Call of the Calendar Taken up and the Disposition of Cases Made—Cases Set for This Week.

Grand Jury Organized and Judge Lewis Delivered the Charge in the Usual Statutory Form.

The April term of the district court opened this morning. The opening did not excite any special interest and there were only a few spectators present. About two lawyers were on hand looking after the disposition of their cases. Both Judges Lewis and Ensign presided, and the call of the calendar was immediately taken up. The following disposition was made of the cases:

Continued—3, 4, 5, 7, 8, 12, 13, 26, 36, 47, 48, 53, 54, 56, 57, 61, 64, 66, 67, 68, 72, 73, 74, 76, 81, 87, 91, 95, 100, 102, 103, 104, 105, 111, 113, 118.
July 7, 11, 13, 14, 21, 24, 25, 27, 29, 30, 31, 33, 34, 35, 37, 38, 39, 41, 42, 43, 45, 49, 51, 55, 58, 59, 60, 62, 63, 65, 69, 70, 71, 75, 77, 78, 79, 80, 84, 85, 88, 89, 90, 94, 96, 98, 99, 101, 102, 105, 107, 108, 109, 112, 116, 117.
Sineken—1, 15, 32, 39, 40, 89, 111.
Settled—20, 22, 54, 84, 113.
Dismissed—10.

Tax cases are all set for trial at the conclusion of the jury cases, excepting No. 10, which is dismissed.
The call of the grand jury was proceeded with, Alonzo Culbertson, John E. Segog, C. Mikelson, Edwin Knight, C. H. Dibbell, Fred Dahlberg, R. K. Kunkler, A. F. Rockwell, Canning, P. O. Landgreen, Henry Kellow, E. M. Mellen, Robt. Crombie, John D. Murphy, Chas. D. Newman, L. L. Marble, J. H. Ecklund, C. A. Fullerton, and J. P. Appleby being reported as present. Chas. Canning was appointed foreman.

Judge Lewis then charged the jury in a slow and deliberate manner, according to the usual form. Arthur Briggs is deputy sheriff in charge of the jury.

Judge Ensign made the following assignment of cases for the balance of the week:
Wednesday—58, 9, 21, 24, 29, 31, 35, 37, 38.
Thursday—10, 51, 55, 59, 62, 65, 69, 75, 78.
Friday—70, 80, 81, 85, 95, 97, 99, 101.

MR. MAGINNIS SPEAKS.

Says He Has Filed No Papers With Maj. Baldwin Nor Anyone Else.

C. P. Maginnis was compelled to keep open house, as it were, this morning to answer all the many questions asked him by those who read the Washington dispatch that he is breaking over Major Baldwin's lines and through "pulls" from other sources, making an aggressive and selling fight for the receivership of the Duluth United States land office. Being approached by a Herald reporter, Mr. Maginnis expressed himself as follows: "I do not know where the Washington correspondent procured his information, as I have filed no papers with Major Baldwin nor anyone else. I wrote the state that I would not exchange for my brother, Major Maginnis, was in Washington, much less having him look after my affairs."

"I have no letters or recommendations from Mr. Doran and I sympathize too much with his troubles to bother him about an endorsement, even if I wanted it. I also never yet, in this or any other case, have been obliged to leave home in quest of support for any political position. If I do not want the endorsement, which is quite improbable, there will be found over 800 Duluth names on my petition, and over 2000 in all from different parts of this district, not one of which I have personally solicited."

"I have letters from Democrats and Republicans both at home and through the state that would not exchange for the best office in the gift of Major Baldwin. Further, if Major Baldwin does not know my fighting qualities, he will not find them out in the contest for the receivership, as Mr. Ryan is my friend and knows my wishes better than any Washington correspondent can tell him."

Look Out For Your Dog.

The city clerk is in receipt of 1200 glittering brass dog license tags. The law requires that every dog owner shall register his dog and pay for a tag. It is also never yet, in this or any other case, have been obliged to leave home in quest of support for any political position. If I do not want the endorsement, which is quite improbable, there will be found over 800 Duluth names on my petition, and over 2000 in all from different parts of this district, not one of which I have personally solicited."

PITCHED SIXTY FEET

A Scaffold Gave Way on the Bell Line or Harrington Elevator at Old Superior.

Five Men Thrown to the Ground, a Distance of Sixty Feet, and Two Will Die.

Too Little Care Was Taken in Putting up the Scaffolding—The Men's Own Fault.

One of the worst accidents that has occurred in Old Superior for a long time happened just before noon. A scaffold gave away in the belt line or the Harrington elevator, being built by Barnett, Record & Co., and five men were pitched sixty feet to the ground.

They were C. H. Benson, Charles Gustavson, Emory Garvis, J. K. Carnes and Pat Quinn. Benson and Quinn will probably die, as they have internal injuries of a serious nature. The others will recover. They are single men.

Too little care was taken in putting up the scaffold, though the men are mostly to blame for it themselves. They have all been removed to the hospital and now lie there in an unconscious state.

Following are the names of the injured men and the extent of their injuries:

C. H. Benson, foreman, bruised generally; back and spine injured; probably fatal.

Charles Gustavson, jaw and head injured; teeth knocked out and generally bruised.

Emory Garvis, jaw cracked and head cut and badly bruised.

J. K. Carnes, broken thigh, back injured and generally bruised; probably fatal.

Patrick Quinn, dislocated thigh; hands and head very badly lacerated; terrible cut over the eye; probably fatal.

THE COURT FILINGS.

Paper Let by Lawyers in the Office of Clerk Sinclair.

The following are the recent filings made before Clerk Sinclair, of the district court:

Marine Notes.

Buffalo grain trimmers have fixed the following rates for the season: Unloading steamboats, \$1.50; sail vessels, \$1 per 1000 bushels; deck and funnel boats to go to the river, 75 cents; canal boats, \$1.25 per 1000 bushels; trimming cars, 10 cents per 100 bushels.

The steel steamer W. H. Gratwick, apportioned of Duluth, has been chartered by the city yard for the Mitchell Steamship company, will run between Buffalo and Duluth this season for the Western Transit company.

A Laundry Building.

MacLeod & Campbell have secured the contract for the erection of a building to be built by A. R. Macfarlane for W. H. Lutes and Victor Huot, proprietors of the Model laundry. It will be located on East Superior street between Fifth and Sixth avenues east and will be of solid brick, 60 by 100 feet in size, one story high with basement. It is to be completed May 15.

Substantial and Pretty.

Mrs. Dr. Rosser, perhaps better known in Duluth twenty years ago as Miss Bell Lowe, of Brainerd, passed through the city yesterday en route to her home in St. Paul. She had with her an exquisite work of art in the shape of an ornamental settee made of moss and deer antlers which she secured at Grand Rapids. The set was covered with tanned fawn skin and the whole affair was both substantial and pretty.

FIRM AND ADVANCING.

Wheat Was Active Today and Prices Stronger.

The wheat market today was firm and advancing on the strength of more unfavorable reports about the winter wheat crop in Illinois and Missouri. May started at the higher time yesterday's close and held the higher. Trading was thin and generally at first, but after a further advance in the afternoon, the close was better and a little higher than the first. Cash wheat was at 1.10, 1.11, 1.12, 1.13, 1.14, 1.15, 1.16, 1.17, 1.18, 1.19, 1.20, 1.21, 1.22, 1.23, 1.24, 1.25, 1.26, 1.27, 1.28, 1.29, 1.30, 1.31, 1.32, 1.33, 1.34, 1.35, 1.36, 1.37, 1.38, 1.39, 1.40, 1.41, 1.42, 1.43, 1.44, 1.45, 1.46, 1.47, 1.48, 1.49, 1.50, 1.51, 1.52, 1.53, 1.54, 1.55, 1.56, 1.57, 1.58, 1.59, 1.60, 1.61, 1.62, 1.63, 1.64, 1.65, 1.66, 1.67, 1.68, 1.69, 1.70, 1.71, 1.72, 1.73, 1.74, 1.75, 1.76, 1.77, 1.78, 1.79, 1.80, 1.81, 1.82, 1.83, 1.84, 1.85, 1.86, 1.87, 1.88, 1.89, 1.90, 1.91, 1.92, 1.93, 1.94, 1.95, 1.96, 1.97, 1.98, 1.99, 2.00, 2.01, 2.02, 2.03, 2.04, 2.05, 2.06, 2.07, 2.08, 2.09, 2.10, 2.11, 2.12, 2.13, 2.14, 2.15, 2.16, 2.17, 2.18, 2.19, 2.20, 2.21, 2.22, 2.23, 2.24, 2.25, 2.26, 2.27, 2.28, 2.29, 2.30, 2.31, 2.32, 2.33, 2.34, 2.35, 2.36, 2.37, 2.38, 2.39, 2.40, 2.41, 2.42, 2.43, 2.44, 2.45, 2.46, 2.47, 2.48, 2.49, 2.50, 2.51, 2.52, 2.53, 2.54, 2.55, 2.56, 2.57, 2.58, 2.59, 2.60, 2.61, 2.62, 2.63, 2.64, 2.65, 2.66, 2.67, 2.68, 2.69, 2.70, 2.71, 2.72, 2.73, 2.74, 2.75, 2.76, 2.77, 2.78, 2.79, 2.80, 2.81, 2.82, 2.83, 2.84, 2.85, 2.86, 2.87, 2.88, 2.89, 2.90, 2.91, 2.92, 2.93, 2.94, 2.95, 2.96, 2.97, 2.98, 2.99, 3.00, 3.01, 3.02, 3.03, 3.04, 3.05, 3.06, 3.07, 3.08, 3.09, 3.10, 3.11, 3.12, 3.13, 3.14, 3.15, 3.16, 3.17, 3.18, 3.19, 3.20, 3.21, 3.22, 3.23, 3.24, 3.25, 3.26, 3.27, 3.28, 3.29, 3.30, 3.31, 3.32, 3.33, 3.34, 3.35, 3.36, 3.37, 3.38, 3.39, 3.40, 3.41, 3.42, 3.43,

A FAMOUS Overcoat
Store-famous in all seasons—particularly famous for Spring-weight kinds, in which tailoring and elegance are most supreme. Nothing is too hard for us—no man either too big or too little to be fitted.
Why don't you get the proper sort of a Spring Overcoat while it is about it? It's a coat that's good for service more than half the days in the year. Its inside is about as important to you as its outside. It's carried on the arm, decorates the front of the opera box, the pew door or hat rack. Go where they sell the proper Spring Overcoats. Few do. We do. We're especially strong now with silk-lined at \$13.50 to \$20. Not silk-lined are less, \$8 to \$12.

You and we start with the same end in view. You know what you want. We have it. If you don't know, come here to find out.

BOODLING CASE.

Complaint Filed Before the Hennepin County Grand Jury Against Representative Markham of Aitkin County.

The Charge is Said to be Made by Maj. J. B. Bassett and Alleges Attempted Boodling.

It is Claimed Markham Offered to Secure Four Votes for a Bill for Stipulated Sums.

Bob Dunn's Reapportionment Bill is Founded on the Population of the Congressional Districts.

MINNEAPOLIS, April 5.—The noon edition of the Journal says that complaint will be filed before the grand jury today against Representative Markham, of the state legislature, charging him with approaching prominent lumbermen a short time ago with a proffer of legislative influence for a stipulated sum, on behalf of a bill pending in the legislature of interest to lumbermen. Maj. J. B. Bassett is mentioned as the complainant.

It will be charged that Representative Markham approached several Minneapolis lumbermen and offered to take a bribe, in return for which he was willing to exert his influence, and that of several of his colleagues, in securing the passage of the Wyman scaling bill then pending and being considered by the committee, of which he was a member. It is understood that the charges are very specific and that the grand jury will have to give them some attention.

The story of the alleged case of boodling is that early in February the Wyman scaling bill was being considered by the logs and lumber committee of the house. Representative Markham, it is alleged, called on J. E. Glass, Ray W. Jones, W. E. Backus and Maj. Bassett and made direct propositions to them to the effect that for sums ranging from \$1000 to \$2000 he would secure four votes from members of the committee favoring the passage of the Wyman bill. The lumbermen refused to grant his demands and one of the results, it is stated, was the killing of the bill in committee.

THE LEGISLATURE TODAY.
The Fees of the Senate Enrolling Clerk Are Reduced.

ST. PAUL, April 5.—[Special to The Herald.]—By request of the senate Mr. Smith introduced a bill reducing the fees paid the enrolling clerk from 15 to 8 cents per folio, when passed the senate. The baking powder bill, which comes up every session, was today indefinitely postponed. Senator Sanborn introduced a bill detaching Becker and Clay counties from the Fourteenth judicial district and adding them to the Seventh. The bill passed under suspension of the rules.

A substitute bill compelling railroads to build elevators at stations from which sixty cars of wheat are shipped annually was placed upon the calendar. The Kelly anti-cigarette bill passed the senate unanimously under suspension of the rules.

Bob Dunn's new reapportionment bill is founded upon the plan of giving equal representation to the different congressional districts. This, of course, gives a big gain in the northern portion of the state and some losses in the southern part of the state. The bill divides the state into five districts, each with two senators and three representatives and the Second loses two senators. The Third district loses two senators. The Fourth district gains two senators and one representative, and the Fifth gains two senators and one representative. The Sixth gains one senator and one representative and the Seventh gains three representatives.

In the house this morning, the time was taken up in a discussion of general orders. The bill passed by congress last session was substituted for Becker's automatic brake bill, and was recommended to pass, after some opposition from Mr. Rogers. The senate bill, making country elevators public and making them subject to the grain and warehouse commission, was recommended to pass.

The senate was occupied all yesterday afternoon in discussing the capital bill, which provides that additional land for a site for a capitol must be purchased adjacent to the present site. It provides for a capitol commission of ten to receive \$5 a day apiece for ten years. The bill was recommended to pass by committee of the whole by a vote of 26 to 13, and adoption of report by vote of 29 to 19, an attempt was made to suspend the rules and pass the bill, but it could not be done, as it required a two-thirds vote. In the senate yesterday, Young's bill for an assistant state librarian with a salary of \$500 a year was taken up and passed under suspension of the rules.

The general charter bill, which should have been made a special order for 11 a. m. today, was postponed until Thursday at 3 p. m.

Late yesterday afternoon the Winston election bill passed the house by a vote of 72 to 16.

The Choctaw Feud.
PARIS, Texas, April 5.—There is little change in position of Choctaw war. The militia is still at Goodland. Locke is waiting for an attack. His men are eager to move on the militia and he keeps them well in hand and will not act, except on the defensive.

Martial Law in Chile.
LONDON, April 5.—It is stated on the alleged authority of advices from Chile that martial law has been proclaimed in that republic. Definite information is awaited.

MORE NOMINATIONS TODAY.

James F. Ewing Named as Minister to Belgium.

WASHINGTON, April 5.—The president sent the following nominations to the senate: State: James F. Ewing, of Illinois, to be envoy extraordinary and minister plenipotentiary of the United States to Belgium.

Thos. T. Crittenden, of Missouri, to be consul general of the United States at the City of Mexico.

Interior: Louis C. Hughes, of Arizona, to be governor of Arizona; Wm. T. Thornton, of New Mexico, to be governor of New Mexico.

Treasury: Wm. M. Muize, of Ohio, to be surveyor of customs of the port of Columbus, Ohio.

James S. Ewing, of Illinois, who is nominated to be minister to Belgium, is a law partner and cousin of Vice President Stevenson. He is about 40 years of age and lives in Bloomington, Ill.

Thos. T. Crittenden, of Missouri, who is named as consul general to Mexico, is best known to the public through his pursuit and destruction, while governor, of the celebrated James brothers, who terrorized the state for many years. He lives at Kansas City and represented that district in congress in 1888. Mr. Crittenden is a lawyer about 50 years of age.

Louis C. Hughes, who became governor of Arizona, is one of the political powers in that territory and is a newspaper man, editing a paper at Phoenix. He is about 34 years of age and was a delegate to the Chicago convention.

William L. Thornton, the newly appointed governor of New Mexico, has resided in Arizona since 1880. He is a lawyer and practices law at Santa Fe. Mr. Thornton is largely interested in mining properties and operates one of the richest mines in Southern New Mexico.

JUDGE LOCHREN CHOSEN.
He Will be Named for Commissioner of Pensions Within the Next Forty-Eight Hours.

WASHINGTON, April 5.—The perplexing question of selecting a suitable man to fill the position of commissioner of pensions has been settled and the nomination will be sent to the senate within forty-eight hours.

Senator Palmer, of Illinois, is authority for this bit of information. He is chairman of the pension committee of the senate. It is reported that Judge Lochren of Minneapolis, has been selected. Interest in the new commissioner. The senator called on the president, and after leaving him made the statement that Gen. Rane, his successor, had been selected and the name of the lucky man would go to the senate within forty-eight hours.

Further than this Senator Palmer would not say, but he intimated the appointment would be from the North. It is believed that there is a good foundation for the report that Judge Lochren of Minneapolis, has been selected. Additional importance is given the rumor by the fact that Judge Lochren called at the White House this morning in company with Michael Doran, member of the national Democratic committee for Minnesota.

HE WANTS TO BE COLLECTOR.
E. L. Whittington Aspires to Succeed Collector Johnson.

WASHINGTON, April 5.—[Special to The Herald.]—E. L. Whittington, of Duluth, wants to be collector of customs at that city and filed his application with the treasury department today.

THE BERING SEA COURT.
Mr. Phelps Protests Against Admission of New Evidence.

PARIS, April 5.—The court of arbitration regarding Bering sea resumed its session at 11:45 a. m. today. Hon. E. J. Phelps, counsel in behalf of the United States, continued his arguments. He contended that the British supplementary report was inadmissible.

The admission of new evidence at this stage, Mr. Phelps said, was a gross injustice to the United States, because it deprived the United States of any chance to adduce testimony in support of its position. Some length on the technical meaning of treaty arbitration and the conditions and methods of procedure to be followed under the treaty.

Sir Charles Russell, in reply to Mr. Phelps in behalf of Great Britain, paid a tribute to the late James G. Blaine, whose ability, he said, was recognized on all foreign shores. The court adjourned at 1:30 p. m. for luncheon.

THE REPORT UNFOUNDED.
No Truth in a Reported Street Railway Deal.

ATLANTA, Ga., April 5.—President Koel Hunt, of the Atlanta Consolidated Street Railway company, was asked yesterday about an item in the Western press, stating that within a month the leading electric street railway lines in Nashville, Chattanooga, Birmingham, Atlanta, Mobile, Montgomery and other Southern cities will be under the control of the same firm and individuals that recently bought the Brooklyn Surface railroads.

Mr. Hunt says this report is not true and there is nothing in a move in any such direction. Atlanta men, however, are buying the stock of the Consolidated now owned by Boston parties, with a view of obtaining control.

THE PANAMA CANAL.
The New Concession to the Company Has Been Signed.

PANAMA, April 5.—A dispatch from Bogota announces that the extension of the Panama canal concession has been signed, the period of twenty months being allowed for the organization of a new company and the renewal of work on the canal. M. Moncheourt, the official liquidator of the canal company, has accepted the terms of the concession, giving up the canal and the critical situation is ended.

SIGNAL DEFEAT.

The Government Troops in Honduras Routed in a Battle in Which Many Men Perished.

The Triumph of the Revolutionists Has Resulted in Bonilla Being Proclaimed a Provisional President.

Gen. Vasquez Made a Hard Fight Against the Rebels But Was Defeated and Captured.

The National Forces in Brazil Defeated in a Battle, Six Hundred Soldiers Being Killed.

NEW YORK, April 5.—The Herald's special from Panama, Colombia, says: News of the signal defeat of the government troops near Tegucigalpa, Honduras, was received in this city late last night by mail. The report was confirmed in advices brought later by the officers of the steamer Barracouta, which added to the information that the revolutionists had finally triumphed and that Poscarpo Bonilla had been proclaimed provisional president of the republic.

The news reached here from Managua, Nicaragua, which is a hotbed of sympathizers for the revolutionists and it is therefore given with all due reserve. The first report which reached here gave an account of tremendous fighting near Tegucigalpa, which resulted in favor of the revolutionists.

Bonilla's forces were massed around the capital. All their available forces were brought up. Strong detachments were held in reserve, while the main body of troops were sent forward to attack the position held by the government army, which was defending the city under the command of General Vasquez.

Gen. Terencia Sierra led the advance upon the government position. Gen. Vasquez resisted the onslaught with great valor. With grim determination, Gen. Vasquez troops held the ground for a short time. Then came a vigorous dash against the center of the government lines. It was a daring and resistless assault. The government troops were completely routed and fled in all directions.

The loss of the revolutionary troops was great. Gen. Sierra, Bonilla's chief of staff, was himself badly wounded. Bonilla's victorious soldiers lost no time in pursuing the fleeing army. The fugitives were slaughtered without mercy. Scores are reported to have been killed while fleeing for safety. Gen. Vasquez himself fled toward Villanera, leaving Bonilla a clear road on which to march to Tegucigalpa.

This news, which reached here by mail, was confirmed later on the arrival of the British ship Barracouta. They added more important news. After the great victory, Bonilla marched at head of his army to Tegucigalpa. He was received with great enthusiasm, according to the report brought by the Barracouta, and without opposition was proclaimed provisional president of the republic. He accepted the office and also took charge of the government. Gen. Vasquez was afterward captured.

THE BRAZILIAN REBELS.
They Rout the National Forces After a Severe Fight.

NEW YORK, April 5.—The Herald's Valparaiso special says: The Herald's correspondent at Artigas telegraphs that the revolutionists under Gen. Tavaroz fought and routed the national forces sent from Rio de Janeiro to the Castilistas. In the battle it is estimated 600 on both sides were killed.

Previous to this battle, Col. Pina had engaged the Castilistas near Artigas and defeated them. The Castilistas were driven from Pina by Gen. Tavaroz who captured eight cannon. He used them in the battle with the national forces.

It is reported now that additional troops are marching from Eyro to aid the local government. Despite the emphatic protests of a petition for the winding up of the bank, the chief justice of New South Wales has granted an application for the appointment of a provisional liquidator, on condition that no assets shall be removed in the meantime from New South Wales.

Single Tax Conference.
NEW YORK, April 5.—The national committee of the single tax league of the United States has called a national single tax conference to meet in Chicago, August 29.

A BATTLE IS INEVITABLE.
Choctaw Militia Swear They Will Bag Locke and Followers.

PARIS, Texas, April 5.—A battle at Antlers or Fort Locke is now considered inevitable. Last night forty men left Antlers to join the militia and forty followed them to join Locke. The militia are at Goodland, swearing they will bag Locke and all his men.

Locke is at his fort ready for the attack. Jackson, the defeated candidate for the National party for governor, arrived at Antlers this morning. Locke had fifty men at the depot to escort him. It is believed a fight will take place before States troops can reach Antlers.

Australian Bank Failure.
MELBOURNE, April 5.—The news of the suspension of the Commercial bank of Australia was quietly received here. Pending the filing of a petition for the winding up of the bank, the chief justice of New South Wales has granted an application for the appointment of a provisional liquidator, on condition that no assets shall be removed in the meantime from New South Wales.

Thrown Out of Work.
LONDON, April 5.—Four thousand working people have been thrown out of employment by the stoppage of several collieries in the Rhonda valley.

A QUESTION OF EXPENSES.

The Entertainment of Spanish Royalty Worries the Officials.

WASHINGTON, April 5.—Senate officials are worried over the question of paying the expenses for entertaining the Spanish grandees and other foreigners who will visit the World's fair. The joint resolution of congress inviting the Spanish royalty to participate in the opening ceremonies of the exposition carried no appropriation for the purpose.

Secretary Gresham is endeavoring to determine where he can secure the money necessary to carry out the instructions of congress. Arrangements for the reception and entertainment of the distinguished guests have not been completed, but will be in a very short time. The Infanta Eulalie's party will be in charge of Commander Davis. It will consist of the infanta and her husband, Prince Antonio, the duke of Tamaras, grand chamberlain, and the two ladies in waiting, the marquesa De Ascohermoso and the marquesa De Comillas, while with the duke of Veragua will be the marquis of Iberhal, his brother, the duchess of Veragua, the duke's son and a secretary. The duke's party left Madrid yesterday and they are due in New York April 15. The infanta's party are due April 20.

SERIOUS FOREST FIRES.
Turpentine Distilleries and Dwellings in North Carolina Burned.

RALEIGH, N. C., April 5.—The greatest forest fires ever known in More and Richmond counties are raging in the heart of the Long Leaf pine district. The trees had just been bored and thousands of them are destroyed.

Many people owning turpentine orchards are ruined. One man lost 2,000 acres of trunks. The fire swept upon the town of West End and nearly wiped it out. Three large stores, with their entire stocks, the postoffice and several dwellings were burned.

Many turpentine distilleries and scores of dwellings scattered throughout the woods are burned and the rails of the Aberdeen & West End are so badly warped that trains cannot run. Great quantities of resin were burned, 1000 barrels at West End alone.

LOOKS LIKE A MURDER.
The Wife of a Jeweler Poisoned and the Husband Has Died.

ST. LOUIS, Mo., April 5.—While visiting relatives Sunday evening, Mrs. Henry A. Mauss, wife of a jeweler at No. 1149 Cass avenue, partook of some oysters which her husband procured from a neighboring store.

Mauss did not eat any of the oysters and shortly afterward the husband began going to his store, loaded it with most valuable articles, including the contents of the safe. He has not been seen since.

Mrs. Mauss became ill soon after eating the oysters and died yesterday under circumstances which indicate poison. The coroner is investigating the affair. Mr. and Mrs. Mauss have lived unhappily of late.

THE FEELING IN HAWAII.
The Situation as Viewed by British Naval Officers.

VICTORIA, B. C., April 5.—H. M. S. Garnet arrived yesterday from Honolulu. The day before she sailed for Esquimaux, the officers heard with astonishment of the annexation proposals. They say the English residents of the island, next to being taken over by England, prefer being annexed by the United States. A more stable government means greater security for property interests. The natives, however, prefer a monarchical government. The leaders of the revolutionary movement have little to do with the financial interests of the islands and are regarded as the "adventurer" type. It is thought the planters will oppose annexation.

SENSATION IN MEXICO.
Big Export Duties Proposed on Various Articles.

CITY OF MEXICO, April 5.—A sensation has been created by the announcement from the committee of ways and means of congress that \$42,000,000 would be needed for the government expenses for the coming year. In order to raise this they suggested an export duty on hemp, coffee, hides, skins and ores.

There was great consternation when the report was presented and there is a great deal of opposition to it. President Diaz, it is understood, is opposed to it very strongly and will probably defeat it, though the consensus of opinion is that it will go through. This means a big blow to Mexican trade in the United States.

Bishop Brooks' Successor.
NEW YORK, April 5.—A press special from Boston says: More than 1,100 of the clergy and laity of Massachusetts Episcopal diocese met in Trinity church yesterday and practically declared in favor of Dr. Greer of New York as successor to Phillips Brooks for bishop of Massachusetts.

A Politician Injured.
CHICAGO, April 5.—Ex-Coroner Hoyt, prominent in political circles and a candidate last fall for state treasurer on the Republican ticket, was severely injured yesterday afternoon in an attempt to board a cable train. He fell under the wheels and one arm was so badly crushed that amputation will probably be found necessary. He also received severe internal injuries.

Eight Children Injured.
RALEIGH, N. C., April 5.—Dr. Smodes, a director of St. Mary's hospital, invited his pupils to ride on a switch track near his grounds. By accident one car jumped and passed on the wrong track, upon which a car from the other end had started. Both cars, loaded with children, met at the lowest point with great velocity. Eight children were badly hurt in the smash and many others slightly injured.

IT BREAKS OUT AGAIN

The Old Friction Between the West Duluth Council and Water Company may be Renewed.

The Action of the Council in Tabling the Company's Quarterly Bill is the First Indication.

Manager Jacoby Says the Company Will Grant Concessions if Approached in the Right Spirit.

The old friction between the village and the water company seems to have broken out again by the action of the council at the last meeting in tabling the quarterly bill of that corporation. The vote on the resolution stood 4 to 3, and there seems to be an equal division of opinion on the subject.

There is a public demand for some concessions by the water company in certain matters. Manager Jacoby, on being interviewed, says that the company, in his opinion, would make some concessions if approached in the proper spirit and in some tangible manner. But he says that intimidation and the attempt to rob the company of the rights granted to them will create a hostility on their part and break off all negotiations towards a peaceful settlement of the difficulty. He says that the present stockholders of this company have received nothing free from the village but on the contrary they paid a good round sum for the franchise and they do not wish to be placed in the position of mendicants before the people. The council has already appointed a committee to confer with the water company relative to the points at issue and Mr. Jacoby says that if they will place their propositions in writing he will be glad to submit them to the directors of the company.

The village has entered into an agreement with the trust company holding the water company's bonds to pay to them the rental which goes towards paying the interest on the bonds. The village is obligated to pay this amount each quarter and there is no possibility of escaping the tax. If the payment is promptly made when due the water company, Manager Jacoby says, will not doubt be found in a better mood to grant certain wishes of the people.

THE SEVENTEEN ELEVATORS.

Nothing Has Been Done as Yet But They Will be Built.

There has nothing yet been done towards the erection of Senator Sevaton's warehouse and elevator which was to be built on the bay front at the foot of Main street. A representative of the land company on being interviewed in regard to the matter yesterday stated that the contract held good as yet and he did not see any reason why its provisions should not be carried out.

He remarked that the senator was probably too busy with his senatorial duties to give the project proper attention and that the matter would probably rest until after the adjournment of the legislature. It is rumored from pretty reliable sources that if the state elevator law passes the legislature West Duluth will be chosen as the location of the new elevator.

A Bad Fall.

A little son of O. L. Burrell living on Second avenue west, near the Norwegian Lutheran church, fell from the top of the woodshed on Sunday last, landed on a stump and severely injured his back. He is doing nicely, and if inflammation does not set in will, in time, recover.

West Duluth Briefs.

John Scott left for the range yesterday.

A liquor license has been granted to N. S. Lund.

Rev. Dr. Forbes will deliver a lecture in the Methodist church, under the auspices of the Ladies Aid society, on April 13, taking for his subject "A Great Light of the Eighteenth Century."

There will be a meeting of the members, adherents and attendants of the Presbyterian church, West Duluth, on the evening of April 13, to consider propositions to be made by the pastor for new aggressive work.

Rev. Brandt, of the Presbyterian church, has decided to postpone his resignation for some time.

Chas. Bonne, formerly of this place, now of Gallore, Minn., is again in the city.

The W. C. T. U. has raised the \$100 contribution toward the temperance temple of Chicago and is now entitled to have the name of its union inscribed in Willard hall.

Chief Ryan of the fire department is putting in the hose racks at the engine house as authorized by the council.

The funeral of Miss Gertrude Nolen took place this afternoon at the residence on Bay View heights.

Mrs. S. T. Johnson left yesterday for Eau Claire, Wis., to visit her sister Mrs. Howland.

Dr. Forbes will dedicate the first church on the Mesaba range on Sunday at the village of Biwabik. The Methodist pulpit here will be occupied in the morning by Rev. W. A. Shannon, and in the evening by Rev. R. H. Craig.

Capt. B. C. Dent, of Company G, went to St. Paul yesterday where he was summoned to appear before the committee on military buildings.

A number of the workmen at the Great Western works will leave yesterday owing to a break down in the machinery.

The Misses Krahav will open their kindergarten on Leonard avenue west next Monday morning.

A Bad Fire.

VIENNA, April 5.—A fire at Podabiozky, near Samorin, in Galicia, destroyed 100 buildings, including the school house, and three persons perished in the flames.

A MINNEAPOLIS FAILURE.

The Paper of a Milling Firm Went to Protest.

MINNEAPOLIS, April 5.—The paper of the milling firm of Crocker, Fiske & Co., one of the oldest in the city, went to protest on Monday. No statement of the amount of their liabilities can be ascertained. The firm is composed of Geo. W. Crocker, the heirs of the late Woodbury Fiske, and Lewis W. Campbell, managing partner. A son of Mr. Crocker looks after his father's interest in the firm.

The cause of the firm's embarrassment is inability to dispose of flour, in the present condition of the market, at paying prices, and a further inability in the present condition of the money market, to secure cash.

Will Resume Business.

MINNEAPOLIS, April 5.—The report of the failure of Crocker, Fiske & Co. was a surprise. The manager said the firm would resume business next Monday. The concern was temporarily embarrassed but expects to continue business except if a trustee should be necessary. Liabilities are \$500,000, with property ample to cover it.

MRS. MONTAGUE RELEASED.

Served One Year in Prison For Killing Her Child.

DUBLIN, April 5.—Mrs. Anne Margaret Montague, wife of Robert Acheson Cromie Montague, who is a grandson of the sixth duke of Manchester, was released from prison yesterday. Mrs. Montague was convicted about a year ago of the manslaughter of her child, Mary Helen, aged 3 years.

Mrs. Montague has treated her children with great severity, and on account of a slight act of disobedience on the part of Mary Helen, caused her to be shut up in a small apartment known as the "wardrobe room" which was but little more than a box.

The case aroused great indignation, and Mrs. Montague was brought to trial, convicted and sentenced to twelve months' imprisonment, with such labor as was suitable to the prisoner. During her imprisonment, Mrs. Montague again became a mother and the infant born in prison was sent to its grandmother.

It is understood Mrs. Montague will go to the continent with her husband to live there for two years. The husband sympathized with and upheld his wife.

HARRISON WAS ELECTED.

Carter Harrison Will be the World's Fair Mayor of Chicago.

CHICAGO, April 5.—Almost complete returns from the election of yesterday indicate the election of Carter H. Harrison as mayor by a plurality over S. W. Allen of about 10,000.

The new city council will consist of thirty-six Republicans, thirty Democrats and fifty Independents.

Michael J. Bransfield, for city treasurer, George A. Trude for city clerk and Charles Gastfield for city clerk on the Democratic ticket, all ran well, and in numerous instances ran ahead of the ticket.

ALL CHANCES VANISHED.

Yale and Oxford Crews Will Not Row This Year.

NEW HAVEN, Conn., April 5.—Capt. Ives, of the Yale crew, corroborates the press dispatch which stated that Oxford in the cablegram received a week ago by Yale declined to row the American champions, owing to inability to keep her oarsmen together.

Capt. Ives says that all chances of an international race seemed to have vanished. The captain further stated that in no case would the Yale crew consent to row any other crew this summer than the Oxford eight.

MURDERED BY NATIVES.

A Report That Emin Pasha Has Perished in Africa.

BERLIN, April 5.—A special dispatch to the Berliner Tageblatt from Kampala, Uganda, dated December 14, 1892, reports that two apparently authentic statements had been received to the effect that Emin Pasha, the celebrated explorer, had been murdered by the fierce Manyemas, on the banks of Ituri river in the month of March, 1892. The writer of the dispatch states that he does not think the reports wholly convincing as to the fate of Emin.

THREE MEN WERE KILLED.

Wreck of a Train in Florida by Jumping a Drawbridge.

JACKSONVILLE, Fla., April 5.—A south bound through freight train on the Jacksonville & Tampa & Key West railroad was wrecked at midnight.

The engine turned on the Buffalo bluff drawbridge, six miles below Palatka, and plunged into the river, carrying six cars with it. A. C. Knox, engineer, of Sanford; J. H. Olmsted, fireman, of Birmingham; and J. A. Lewis, of Boston, a stockman in charge of horses and mules, bound for Barbersville, this state, were killed.

The train was composed of fourteen cars. Conductor Wardell was in charge but escaped uninjured.

A Chicago Failure.

CHICAGO, April 5.—Judgments by confession, representing claims amounting to \$120,000 were entered in the circuit court today against the South Chicago Steel Casting company. A bill for a receiver was filed against the company shortly after the judgments were entered. The assets of the company are estimated at \$100,000, and the liabilities less than that amount.

Left to His Mother.

LONDON, April 5.—The entire property of George Abington Baird, the noted English man, better known as "Bugsy" Abington, is left to his mother for her life time, and upon her death is to be shared among the cousins of the deceased. Nothing whatever is bequeathed to the persons with whom the deceased sporting man was on terms of intimate association.

THE SPRINTERS' TIME

Some Recent Instances Which Show the Probable Inaccuracy of Many of the Phenomenal Records.

New Electrical Timing Device Which has the Merit of Being Absolutely Correct, Although Costly.

The Old and New Methods Contrasted by E. C. Carter, the Official Timekeeper of the A. A. U.

THE many claims for phenomenal records at short foot races have brought to the question of timing into decided prominence. One instance is sufficient. At the last Canadian championship meeting the timekeepers credited Harry Jewett, the Detroit Athletic club crack sprinter, with running 229 yards around a curved track in 21.55 seconds. This time would be marvelous if accomplished on a straightaway course, the world's record at present being 21.45 seconds. Notwithstanding its evident absurdity, one of the watches actually registered 21.55 seconds.

Fortunately for Luther Cary of the Manhattan Athletic club and C. G. Wood of the London Athletic club, the dual holders of the world's record at the distance, the Montreal Athletic association, on whose grounds the championships were run, for possessors of the few electrical appliances which, I am sure, are clearly seen in large cities, and the timekeepers were not permitted to use the watches which would make a difference of four years, quite a good deal in such a short race.

There are many men in America properly qualified to hold a watch on sprint races, the necessary qualifications being coolness, a quick eye and perfect muscular control, besides a great deal of very few men are able to afford the luxury of such a watch as that possessed by Mr. Albee of the New York Athletic club, one of the most reliable and experienced timekeepers in America, whose watch cost in the neighborhood of \$400. It is a split fifth second watch with minute register and an independent hand, called a "jump" to register the fifths of seconds. It is of the same pattern as the illustration "An American Timepiece," but supplied with a fifth second independent hand of a quarter second.

The distinct feature of Mr. Albee's watch and of the one illustrated is the "jumpers," or small hand, which is set in motion by the distinct feature of the watch, which makes a complete circuit of its dial each second, stopping only on the fifths or quarters of a second, as the case may be. The "jumpers" are perfect checks on the long hand, which registers the fifths or quarters on the outside marking, and where the slightest error in marking or the most minute discrepancy in the watch is immediately apparent. This watch is used by the hand which will make it impossible to decide on which side it stopped.

In some instances these outside hands will stop between the regular quarter or fifth seconds denoted on the face of the watch. This is shown in the illustration, where one of the split fifth hands has stopped between 16 and 16.5 seconds, and the other split hand stands between 43.4 and 43.5 seconds. This tendency to stop between the regular fifths or quarters of a second is the part of many timekeepers, who, while holding a watch made to register fifths of a second only, will gravely announce the time as being between 16 and 16.5 seconds, by reason of some irregularity stopped between the one-fifth and two-fifth mark.

AN AMERICAN TIMEPIECE. I have heard many arguments in relation to recognizing this estimated fraction, but all watchmakers agree that the watch is of vital importance to athletes and leaders of pedestrians are unanimous in the statement that no time should be accepted which is not marked on the face of the watch. In case of stopping between two fifths the only rule to follow is to announce the slower one.

In England, however, the practice of scrutinizing the watch with a microscope to discover at what distance between the fifths it has stopped is of long standing. The spectators look with wondering eyes at the wisecracker who holds the watch and take the result of his research, which is announced as "a seven and a half" or "a shade inside 17," as gospel truth. Hundreds of pounds are won and lost on this "shade inside" and many a man is known for his belief in a quarter (1) timekeepers, most of whom know no more about a watch than the difference between a broken maul and a steam boiler.

Having been perhaps a little far in commenting on poor timers, it is but just to call attention to the good work done by Messrs. J. H. Albee, C. G. Hughes and R. Stoll, the timers at the A. A. U. championship meeting at St. Louis about a year ago. The electrical timing apparatus was in use on that occasion, and a comparison of the times in the final heats of all races shows the following figures:

Electrical time.	Watch time.
100 yards.....	10.28
1-mile walk.....	6:56.24
1-mile run.....	4:50.28
100 yards hurdle.....	15.22
1-mile run.....	5:11
200 yards hurdle.....	22.14

Clara Morris will end her season with the circuit for Dravinskia on August 29. Jane Condon in Charles Dickens' "Black House" is said to be meeting with success on her tour.

G. Harris Eldon, manager of Eldon's Comedians, has been booked for C. E. Calhoun's latest comedy drama, "Maud Miller."

A New Light. George L. Crawford, T. C. Platt, a "pamie in Reading." It was found that the extension business had been overdone, and on the 24th three receivers were appointed. The assets of the company were estimated at \$31,000, of which \$76,000, 000 was in real lands; the liabilities at \$143,320,685. In 1894 the Reading was again placed in the hands of receivers, and soon after the great Drexel-Morgan syndicate took it over. J. Pierpont Morgan as the directing genius. His name was a power, and in 1898 the whole system was returned to the stockholders in fairly good shape. Austin Corbin became president and gave place, as afore said, to Mr. McLeod.

THE READING WRECK.

Men Prominently Identified in the Recent Wreck.

The story of the Reading railroad is one which might well furnish the basis for a sensational play or very realistic novel. It was but a few weeks ago the greatest of all railroad combinations and had at its head Archibald Angus McLeod, the most phenomenally successful of railway operators. All at once there was a change more startling than any kaleidoscope can produce, and now the combined railways are in the hands of receivers, and there has been a fall in the stock and a convulsion in Wall street which in a less healthful state of the market might have produced a panic.

Ex-Senator Thomas C. Platt of New York, who the public has known in the past since he "swent out with Conkling" in 1881, filed the suit in the United States court in Philadelphia, his right to do so being a holder of \$55,000 of the company's preference bonds on which interest had been refused. To denial of the facts being made, Judge Dallas made the order as of course, and on suggestion of the parties appointed as receivers Chief Justice Edward M. Paxson of Pennsylvania, President A. A. McLeod and E. P. Wilbur, George L. Crawford and J. H. Albee, who were named as receivers must lay a completed account each month.

Archibald Angus McLeod, though but 45 years old, has had a career which is a romance in railroad building. Born in the northwest and educated in the practical school of life, his first appearance as a railroad was as a roduum for the en-

gineers looking the line of the North Pacific. He soon showed unusual capacity, rose rapidly through all the grades and was made general manager of the Elmira, Cortland and Northern road in New York. In 1890 he secured the same position in the Reading system, and on June 27, 1890, on the retirement of President Corbin, became president.

In a little while the country was startled by the announcement that the company had combined all the anthracite coal interests and all the roads which the coal reached the cities; that this gigantic corporation, "combine" or "trust," therefore controlled some \$600,000,000 in capital and 130,000 employees, and that the price of coal was to go up accordingly. The legal battle which followed is fresh in the public memory. The New England and other railway combines thwarted the Reading combine, and soon it transpired that the latter's property was in a wretched condition. It fell with a great ruin, and the highest estimate now places its value above \$200,000,000. Monarchies of note have fallen and caused less suffering.

World's Fair Visitors.

An intending visitor to the coming World's fair at Chicago need have no fear as to the possibility of securing satisfactory accommodations, at reasonable rates, at either the many hotels or residences listed in a neat pamphlet entitled, "Homes for Visitors at the World's Fair," compiled at great expense and published by a trustworthy Chicago firm. This book contains a list of about 6000 private families who will accommodate visitors in Chicago during the time of the fair, viz. May 1st to October 30th, gives their names and addresses, and number of rooms each will have to spare. The book also gives a list of the hotels and their locations; has twelve full-page, large-scale maps, each representing a section of the city, so that with this information before him the intending visitor himself can, at leisure, select the quarter of the city in which he would prefer to stop, corresponding in advance with one or more families in that locality with regard to rates and the accommodations desired.

The Wisconsin Central lines will in due time publish low excursion rates to Chicago and return for this occasion, while its double daily passenger train service, including through sleeping and dining cars to Chicago, will be usual at the head of the list in every particular. To help in fixing in advance upon your place of residence while attending the World's fair, we have placed in the hands of our agent at your station copies of this work, which may be obtained at 50 cents per copy.

The World's Fair.

Three weeks from next Monday the World's Columbian exposition will be formally opened at Chicago. The ceremonies will be graced by the presence of the most distinguished people in America, and as for the exposition itself, it will be the greatest the world has ever seen. There may be seen the greatest triumphs of art and science, and all nations will bring of their choicest and best for the millions to wonder at.

As to the time, your own convenience must determine that, but as to the how, you will never regret it if you select the Burlington route as your line in going to and from Chicago. The smoothest track, the fastest time, the best accommodations, the most careful management, assure the perfect safety and comfort of the passenger. Ask your home ticket agent for tickets to Chicago by this route, or write to W. J. C. Kenyon, Gen. Pass. Agent, St. Paul, Minn.

LOCHREN NAMED

The Minneapolis Jurist Was Today Nominated by the President as the Commissioner of Pensions.

No More Popular Appointment Could Have Been Made to This Position of Great Importance.

Hannis Taylor, of Alabama, Has Been Appointed to be United States Minister to Spain.

Senator Daugherty Secures an Amendment to the Charter Bill Limiting the Amount of Indebtedness.

WASHINGTON, April 6.—The president sent the following nominations to the senate today: Hannis Taylor, of Alabama, to be envoy extraordinary and minister plenipotentiary to Spain.

William Lochren, of Minnesota, to be commissioner of pensions.

Chas. Edward Riggs, of Iowa, to be assistant surgeon in the navy.

Postmaster: Robert A. Baird, Morriston, Ark.; Frank L. Bills, Urbana, Ill.; Thos. B. Powell, Vienna, Ill.; Wm. R. Howles, Greenfield, Mo.; Alex. Wright, Neilhart, Mont.

It is doubtful whether a more popular appointment, certainly so far as the Northwest is concerned, has been made by the president than the nomination of Judge Lochren of Minnesota to succeed Gen. Raum as commissioner of pensions. He is 57 years of age and was born in Vermont. He went to Minnesota in 1857 and practiced his profession until the war broke out. When the war was over, Mr. Lochren returned to Minnesota and assumed the practice of law. In 1882 he was appointed by a Republican governor to a judgeship on the circuit bench and at the expiration of his appointment was twice re-elected to the same place without opposition.

Hannis Taylor, nominated to be minister to Spain, is a lawyer living at Mobile and his reputation is of the first water. He is 41 years of age. He was strongly recommended to Secretary Blaine by Senator Morgan as one of the arbitrators of counsel in the Berlin sea arbitration and was also strongly endorsed by Mr. Phelps and some of the leading lawyers of New York.

The senate today confirmed the nomination of Lewis Baker, of Minnesota, to be minister to Nicaragua, Costa Rica and San Salvador.

MINNESOTA LEGISLATURE.

The Doings of the Legislators at St. Paul Today.

ST. PAUL, April 6.—[Special to The Herald.]—On motion of Senator Daugherty, Cotton's bill, allowing organizations of life insurance companies in cities of less than 25,000, if they deposit \$100,000 in trust, passed the senate on a suspension of the rules. Senator Daugherty secured an amendment to the general charter bill to the effect that in no city of over 5000 inhabitants shall the bonded or other indebtedness exceed 5 per cent of the taxable valuation.

The Minneapolis court house bill allowing the bonding of Hennepin county for \$1,000,000 passed the senate on suspension of the rules.

Mr. Cotton presided over the house this morning and made a very efficient officer in the transaction of business. An appropriation bill for \$400 for the benefit of the state agricultural society was passed in the house this morning.

Mr. Merritt's bill for working mines at the instance of a minority of the owners under direction of the district court was argued by Cotton before the judiciary committee of the senate and recommended to pass by the committee.

Mr. Cotton proposed an amendment yesterday to the Jackson bill in the house exempting Duluth and other terminal points from having their grain warehouses declared public elevators, but it was voted down.

The senate passed Tawney's bill relating to legalizing the issue of bonds in certain cases and the warehouse committee bill allowing the condemnation of land on the right-of-way of railroads for the building of elevators.

The senate committee of the whole recommended to pass the bill providing for the playing of a new townsite and capitol grounds in Kandiyohi county on the capitol tract, to be known as the city of Blaine. This reservation was set aside years ago for the capitol of the state.

Eaton's bill providing for biennial sessions of the legislature for sixty days duration was recommended to pass, so amended as to provide for annual sessions of unlimited length, with a salary of \$300 to each member.

Evidence was given last night before the coal combine investigation by Messrs. Cramer and Ritchie, two St. Paul retail coal dealers, to the effect that they had been coerced into paying \$25 to Rhodes on the threat that their supply of coal would be shut off unless they complied. The evidence was very strong and apparently sufficient to sustain the charge of combination and trust without any other evidence.

The Cuban Expedition.

NEW YORK, April 6.—The Herald's Key West correspondent says: The vigilance of the government authorities has not relaxed the least. Nothing to excite suspicion has been discovered. The rumor of the intended departure of an expedition last night proved to be false. There is no doubt of the intention of Cubans to aid Cuba in case of an uprising, but it is now believed that it will not be inaugurated from the United States.

RUSH OF OFFICE SEEKERS.

It Shows no Cessation but is Actually Increasing.

WASHINGTON, April 6.—The first month of Mr. Cleveland's administration has ended and the crowd of office seekers who make personal visits to the White House shows no diminution in number. More than a hundred callers, perhaps fully 200, came to see the president yesterday, and the number of visitors appears to be increasing rather than diminishing as the time goes by.

It has been noticeable that several states are poorly represented by their citizens, and in the case of Maryland hardly a candidate for office has seen Mr. Cleveland. The explanation given for this is that senators and representatives from these states have agreed to withhold their influence until after the rush for office is over, and candidates have been directed to "keep away from the president under pain of losing the endorsements they desire."

During Mr. Cleveland's first term Maryland formed a large portion of those who visited the White House—a natural result of the close proximity of Maryland to Washington. Since his second term began Mr. Cleveland has discovered that Virginia is the banner state in point of number of aspirants for a federal position. Tennessee men have also been numerous and candidates from South Carolina, Indiana and Illinois have not kept in the background.

New York and Ohio are two of the states that have furnished comparatively few candidates who have made personal calls on the president in their own interest, and Pennsylvania has not been so prominent in this regard as might have been expected.

Sixty active Democrats from Prince Georges county, Md., yesterday waited upon Senator Gorman and Representative Compton in regard to Maryland patronage. A Washington dispatch to the Baltimore Sun reports Senator Gorman in replying to them as follows:

"I believe in being frank with all my friends and I will endeavor to tell you frankly my views on this matter, so that whatever the result may be, you will attach no blame to your representatives in congress. It is my purpose, and the purpose of the whole Maryland delegation, to serve the deserving Democrats. It is only by such means that we have built up such a perfect party in Maryland, an organization that is not surpassed by any state in the Union, and which was begun immediately after the war."

"The men who have contributed to what the party has achieved are the men whom we would wish to see rewarded and none others need apply. But in this matter of appointment which confronts us, I cannot encourage you, nor do I wish to discourage you. All the delegation can do is to recommend, but it does not follow that our recommendations will be adopted. Many suggestions that have been made to the appointing power have been ignored, but again some have been accepted."

"Influences are brought to bear now that may affect our ability to secure many of the offices that should go to our friends. I cannot tell what will be done, therefore I cannot encourage you, but whatever happens, I want you all to feel that your representatives have done all in their power for your interests."

MCLEOD MAY REMAIN.

Pressure Used to Cause Him to Withdraw His Resignation.

PHILADELPHIA, April 6.—It is reported in financial circles that great pressure is being brought to bear on President McLeod to withdraw his resignation and continue in control in the operating department of the Reading road.

Mr. McLeod has it is understood, the matter of his resignation, although he will say nothing. The financial news reporting agency is authority for the statement, that it is believed McLeod's resignation will continue in control in the operating department of the Reading road.

His policy, it is also said, has been such as to increase the profits to both miners and dealers, and these classes regard his retirement as a signal for lack of cohesion among all concerned in maintaining prices at a uniform level.

A BOOM IN COFFEE LANDS.

Large Plantation in Vera Cruz Bought by Claus Spreckels.

NEW YORK, April 6.—The Times special from City of Mexico says: The large coffee plantation near Cordoba in the state of Vera Cruz, has been purchased by Claus Spreckels, the San Francisco sugar king, for \$100,000. He proposes to attract Americans with moderate capital to this business. Even the export tax will not reduce profits at present rates more than 1 cent a pound, leaving 10 cents net profit.

There is a regular boom in coffee lands all over the southern portion of the republic. News from Germany reports Mexican government securities a popular form of investment, the lower prices being due to the uncertain position of silver.

Special Fete Days.

CHICAGO, April 6.—The committee on ceremonies has added the following to the list of special fete days during the exposition: Catholic Knights of America, May 9; Miller's day, June 9; College Fraternities and Columbia, July 20; New South Wales, Aug. 1; Catholic education, Sept. 2; Nevada, Sept. 18; Travelers Protective association, June 1; Turner Bund day, July 27; North Dakota, June 20; Sweden, June 24.

No Fight Occurred.

BUFFALO, N. Y., April 6.—Lavigne and Vernon did not fight last night. The South Side Athletic club had offered a \$500 prize to the victor over \$500 gate money in the box office. The club offered to guarantee \$500 if the men would fight, but Vernon held out for the full amount, so the fight was declared off.

Maxwell's Axe.

WASHINGTON, April 6.—The total number of appointments in the class post-offices today was 141, of which 72 were to fill vacancies caused by resignations and deaths and 59 to fill vacancies caused by removals.

MORMON TEMPLE

The Great Edifice, Which the Latter Day Saints Have Been Building Forty Years. Dedicated.

It Cost Four Million Dollars and is Magnificent in its Proportions and its Furnishings.

Gold and Silver and Onyx, Marble and Granite and Rich Draperies of Oriental Grandeur.

Mormon Leaders Surprised the Gentiles Last Night by Issuing Invitations to Inspect the Temple.

SALT LAKE, Utah, April 6.—The great Mormon temple, whose fame is well known, which was commenced forty years ago and has cost more than \$4,000,000 up to this time, all gathered of the free will of the Mormon people, is at length completed and today the adherents of Jos. Smith from the four corners of the globe have gathered in Salt Lake city to take part in the dedication exercises.

Immense delegations are present from all the surrounding states and territories. Old Mexico, the Sandwich islands and the semi-civilized Indian tribes, converted to the Mormon faith, all are represented and the principal dignitaries who have been laboring for years past in various parts of Europe, have all been invited home to celebrate what to the Mormons is the most momentous event in their history.

A Big Surprise.

The building was turned over to the authorities yesterday, and the event was celebrated in a manner which gave a decided surprise throughout the city. Invitations were issued to 500 prominent people to view the interior of the building late last night. As the building had been for years most jealously watched and everything concealed within it was supposed to be secret, the invitation created the utmost surprise, but they were eagerly responded to, as this would be the last opportunity non-Mormons would have to obtain a glimpse of the interior.

The church authorities decided to issue invitations on account of donations received from some outsiders, and also as a matter of courtesy. Besides it is the ordinances celebrated within the walls which are secret, and of course no talking of them was given out. Among those included in the invitations were the tragedians Ward and James.

Only Church Members.

Admission to the exercises was limited to members of the church, only, and the utmost care was taken that none except those bearing "recommendations" (tickets issued by the various ward bishops) were allowed to enter the sacred portals. The ceremonies will be witnessed by about 2500 people at each sitting; there will be two services each day, which will be repeated from day till all in attendance have had an opportunity of attending. Announcements are now made ahead up to the 15th inst. and they will probably be extended to a late date as the completion of the temple is expected to be the completion of the great building in Salt Lake, "The Center Stage of Zion," as the city is called, will be attended by manifestations more remarkable than ever.

An Immense Structure.

The Temple is the overtowering object which strikes the eye of the traveler as soon as he enters the Salt Lake Valley. It stands on a slight eminence and is discernible from all directions, a distance of ten to fifteen miles. It stands on the same block which contains the celebrated umbrella shaped tabernacle and the large assembly hall of the saints, but it dwarfs into insignificance those buildings and other structures of the city. The first idea gained on beholding it is that of an enormous castle of feudal times, and its mammoth proportions and the solidity of the great blocks of stone suggest that it will last as long as any of the grandest architectural achievements of antiquity. On a near approach the effect of the battlements, which give the idea of a castle, disappear, and the tall spires and numerous narrow windows, with the figure of the angel surmounting the highest steeple, suggest a cathedral of magnificent dimensions.

As now completed, the temple probably stands as the most striking building in Western America, whether viewed from the standpoint of magnificence, architectural novelty, costliness or the peculiar circumstances amid which it has been constructed.

Dimensions of the Structure.

Some of the main dimensions of the building are as follows. Its whole length, including towers, is 185½ feet. Its width is 99 feet, the three towers on the east rise to a height of 222½ feet in the center and 188 feet on the sides. The three west towers are from 3 to 10 feet shorter. The height of the walls to the top of the rock work is 167½ feet. The thickness of the walls at the bottom is 9 feet and at the top 6 feet. The thickness of the footing wall is 16 feet. The whole building covers an area of 21,850 square feet. Each cornerstone has a staircase of solid granite, cut by hand, of over 200 steps. The building has its own electric plant, heating apparatus, cooling machines, power for elevators, etc., and the spectacle at night, when all the pinnacles as well as the crown of the angel's figure on the central tower are illuminated with electricity, is striking and brilliant in the extreme.

It is somewhat difficult to obtain an accurate description of the interior, as no information is given out and none but the workmen have been allowed admission for the last six months or more. There is one large assembly room capable of holding 2500 people, where the dedication exercises of the next twelve days will be held. The baptismal room is in the basement and contains a capacious bronze font, resting upon the backs of twelve life-sized bronzed oxen, the idea of which, without doubt, springs from the description of the house built by Solomon, in which stood twelve oxen, three looking toward the north, three toward the west, three toward the east and three toward the south, the heads of all facing outward. In this room the pavement and wainscoting are of white marble. There are numerous small chambers for the celebration of private ordinances, such as confirmations, baptisms, marriages, etc.

Everywhere throughout the building the prevailing style is solidity, richness and symmetry. White and gold are the prevailing colors, though the ceilings show some rare decorative work. Several years ago the Mormon church sent several artists to Paris to study painting and art decoration for the purpose of having them paint the ceilings and the rooms in which the most secret ordinances are celebrated, one of which is said to be a representation of the Garden of Eden, and is described as a marvel of beauty by those who have beheld it.

Murdered His Mother.

BOSTON, Mass., April 6.—Thomas Brown, a picture maker, was arrested yesterday charged with killing his mother, Katherina O'neilly, an old woman, who lived at 72 Broadway, South Boston, by beating her. Brown was drunk Tuesday night and yesterday the battered body of his mother was found on the floor of her room.

A Veteran Painter Dead.

NEW YORK, April 6.—Jas. H. Beard, the veteran animal painter, died at his home yesterday in his 81st year. He was born in Buffalo, N. Y., and moved with his parents to Cincinnati, where he was reared and where he painted for many years.

ACROSS THE CONTINENT.

Mrs. Mackey Speeding in a Special Train at a Great Rate.

CHICAGO, April 6.—Mrs. J. W. Mackey, wife of the California millionaire, passed through Chicago at midnight hurrying westward to the bedside of her husband in San Francisco.

The train over the Michigan Central, to which her special car was attached, was two hours late in reaching Chicago, so late that she could not make the connection with the Northwestern train for the coast that left at 10:30.

Rather than await the departure of the next train, she ordered a special engine to haul her car 2000 miles across the country to San Francisco. One of the fastest engines in the Northwestern service was in readiness and at 12:30 o'clock the car had been drawn across the city from Sixteenth street. It started with its weary traveler on what is to be the fastest trip ever made from Chicago to San Francisco.

SPECULATED IN WHEAT.

An Indianapolis Bookkeeper Is a Heavy Defaulter.

INDIANAPOLIS, Ind., April 6.—Thomas W. Woolen, nephew of City Comptroller William Wesley, is an alleged defaulter for nearly \$20,000. Young Woolen, who was the confidential bookkeeper for Richardson & Evans, an extensive milling firm here, has been in Fort Worth, Tex., and his absence was causing some speculation which resulted last night in the disclosure.

Woolen has been dipping in Chicago wheat and pork, being repeatedly caught for large amounts. He will not be prosecuted by the firm to which he deeded his home in this city.

The Bancroft Manuscripts.

NEW YORK, April 6.—When the historian George Bancroft died his will ordered that the documents relating to America and the rare books he had collected should be offered to congress at a price. They were offered for \$75,000. The senate passed a bill, the committee on the library reported in its favor, but the house of representatives demurred. The manuscripts and volumes have just been bought by the Lenox library for \$80,000. The collection embraces no less than 20,000 manuscripts, 14,000 volumes and 5,000 pamphlets.

The A. P. A. Victorious.

NEW YORK, April 6.—A special to the World from Chadron, Neb., says: A. A. Record, Republican, was elected mayor here yesterday by a large majority. The fight was very bitter, being waged between the American Protective association and the Catholics. The A. P. A. made its appearance here on March 20. It now controls the city and county by a good majority.

EXCEPT BY THE STATE

No Liquor to be Sold in South Carolina After the Beginning of Next July.

Counsel for the Liquor Dealers Have Advised Them That the Law is Probably Valid.

The Governor and the State Dispenser Are Now Preparing to Open the State Barrooms.

NEW YORK, April 6.—A special to the Tribune from Charleston, S. C., says: There will be no liquor sold in South Carolina, except by the state, after July. Four of the most eminent legal firms in the state yesterday decided the matter. Soon after the passage of the law, at last session of legislature, the liquor dealers of the state formed an association and employed counsel to test its constitutionality.

These counsel yesterday filed their opinion. They advise the liquor dealers to prepare to meet the law as valid and constitutional on and after July 1, as they cannot advise them to continue selling liquor after July, but on the contrary advise them to comply with the statute until it has been declared invalid. To test the constitutionality of the statute on the point of federal prohibition or discrimination, the counsel advise that proper proceedings be taken.

The news was a great surprise and its effect from a business point of view will be serious. In the meantime, the governor of the state, together with the state dispenser, is travelling in the West and North making arrangements to open the state bar rooms on July 1.

THE LAW IS AVENGED.

Dennis Cloanan Executed For Murdering His Wife.

PITTSBURG, April 6.—Dennis Cloanan, convicted of wife murder, was hanged here at 10:50 o'clock this morning. More than twenty years, Cloanan attended to the switches at Seventeenth street, and in all that time lost but two days. Cloanan's crime was one of the most brutal murders in the police annals of Allegheny county.

On the evening of March 17, 1892, Cloanan got very drunk. He went to his home and abused his wife. The couple had not lived happily or several years. No one knows how the affair happened, except that the neighbors heard Mrs. Cloanan screaming.

Shortly afterwards Cloanan reeled into the house of Policeman Kinney and asked that someone unfather his necktie. They discovered that the tie, as well as his hands and clothing, were covered with blood. Cloanan then ran from the house. The neighbors, entering Cloanan's house, found the lifeless body of Mrs. Cloanan lying on the floor, her head beaten almost to a pulp.

Beside her on the floor lay the remains of a heavy oak chair which had been broken in pieces by the murderer in his brutal assault. While removing the injured woman to the hospital she breathed her last, without regaining consciousness. Dennis Cloanan was afterwards arrested and admitted his crime.

College Baseball. PHILADELPHIA, April 6.—Yale defeated Pennsylvania in a closely played game yesterday afternoon. Freshman Bosworth pitched the first inning for Pennsylvania, but was taken out after the visitors had scored four runs and Reese substituted. The latter was effective. Score: Pennsylvania 7; Yale, 8. Batteries: Bosworth, Reese and Hollister; Carter and Kedzie. Umpire, Tim Hurst.

He Shot Himself. NEW YORK, April 6.—Charles Herrold, 71 years old, a brush maker, living at No. 12 Station street, made an unsuccessful attempt to shoot his housekeeper, Mrs. Louise Roth, at 6:30 o'clock this morning, and then shot himself dead.

HEART DISEASE 30 YEARS.

GRAND ISLAND, NEB., April 6th, 1893.

Dr. Miles Medical Co., Elkhart, Ind.

CONTINUED. I had been troubled with HEART DISEASE for 30 years, and although I was treated by able physicians I could not get any relief. I was completely prostrated and confined to my bed without any hope of recovery. I would have been dead long since if I had not taken your NEW HEART CURE, and now I am able to do a good day's work from 65 years of age. I take Dr. Miles' NEW HEART CURE all the time for my recovery. I have taken one bottle in the morning and one at night. I have also used your NERVE AND LIVER PILLS, and think a great deal of them.

Sold on a Positive Guarantee. DR. MILES' PILLS, 50 Doses 25 Cts. FOR SALE BY ALL DRUGGISTS.

MR. BLOUNT AT HONOLULU.

He Met a Cordial Reception From the Different Factions.

SAN FRANCISCO, April 6.—Honolulu advices of March 25, which reached here yesterday, state: The United States revenue cutter Rush arrived here this morning in nine days from San Francisco, having on board ex-Congressman Blount, of Georgia, who was appointed commissioner to investigate the existing conditions in Hawaii and report as to the expediency of the annexation of the islands to the United States. As soon as the cutter was sighted off Koko head at 9 a. m. men went to work, and in a short time the streets and buildings were covered with flags and bunting. The townspeople turned out en masse, and by 11 o'clock when the Rush anchored in the naval road the docks were crowded.

The mail steamer Australia, which was scheduled to leave at noon, was held back and from her deck the band of the provisional government welcomed the new arrivals with the strains of the "Star Spangled Banner." A delegation from the annexation club was hastily formed and welcomed the commissioner at the boat landing. A party of about seventy-five Hawaiian women from the women's branch of the Hawaiian patriotic league, bearing the American and Hawaiian flags, also proceeded to the dock.

Dr. J. S. McGrew, chairman, and President Scott and Gen. Hartwell, as a committee from the annexation club, Minister Stevens, P. H. Hastings, secretary of foreign affairs and aide to President Dole, Maj. Robertson, the queen's chamberlain, and the newspaper correspondents, put off to the Rush to pay their respects to the commissioner. The news that only one person had been sent in that capacity to the islands soon spread to the shore and occasioned much surprise.

Commissioner Blount declined to be interviewed, but from casual conversation it would seem that his labors here may cover a period of several weeks. The Rush will probably return to San Francisco in the meantime. Commissioner Blount did not leave the steamer for several hours, and consequently a reception by the Hawaiian league and the annexation club did not take place.

The Rush brought dispatches from Washington to Admiral Sizer and also the provisional government, but the nature of them could not be learned.

After the first feeling of surprise had passed, expressions of satisfaction at the arrival of the commissioner prevailed among the annexationists. The Rush brought mail from the United States and the arrival of the Rio de Janeiro, which is expected to put in here tomorrow on her way to China, is awaited for further particulars as to the sentiment in America.

The provisional government is in receipt of dispatches stating that President Cleveland is favorable to the principle of annexation, and that Secretary Gresham favors it and a prompt ratification of the treaty. The Hawaiian patriotic league, which seeks to continue the autonomy of the country, is daily more active, but its members are all disposed to peaceful methods, because they entertain the belief that the Washington government has instructed the commissioner to ascertain the popular wish regarding annexation and to frame his reports in accordance with his findings. The league and it is stated, the queen also, are making great preparations to receive the commissioner.

The escape of Omada Kasaki, a Japanese murderer, from the cruiser Naniwa on March 15, and the refusal of Capt. Togo, of the Naniwa, to give him up on the request of the provisional government, caused considerable excitement for a time, especially when a rumor was circulated that the Boston's guns would enforce the demand of the provisional government. It is needless to state that the American naval forces did not contemplate any interference and that the provisional government, recognizing the fact that it had no extradition treaty with Japan and must therefore rely on international courtesy to turn over a convicted criminal, did not unduly persist in the matter. The government has forwarded to the Hawaiian consul a request on the emperor of Japan for the return of the murderer.

HE SHOT THE CONSTABLE.

A Negro Killed an Officer Who Was Arresting Him.

PLUMMERVILLE, Ark., April 6.—Tuesday afternoon, while Constable Chas. F. Pate was reading a warrant to Flannagan Thornton, a negro, at Menifee, five miles east of here, the negro shot him with a Winchester. Pate died at 2 o'clock yesterday morning.

Pate had not finished reading the warrant when Thornton told him if he read any farther he would kill him. Pate said: "Don't want to," and turned away to leave him when Thornton fired. A colored man helped Pate into a house near by and started on horseback for a physician.

Thornton headed him off and attempted to shoot him, but his Winchester missed fire and the colored man escaped, coming here and giving the alarm.

A posse of men with a pack of bloodhounds started after Thornton, and when they overtake him his career will be brief. Thornton got possession of a skill and at last accounts was on his way down the river toward Little Rock.

WILL FIGHT TONIGHT.

Burke and Bowen Will Battle at the Olympic Club.

NEW ORLEANS, April 6.—Andy Bowen, of New Orleans, and John Burke, of Houston, Tex., will meet tonight at the Olympic club in a fight to a finish for a purse of \$2500 and the lightweight championship of the South.

Advances from the training camps are to the effect that both men are in tip-top condition. Both will arrive in Covington this morning and Burke, who is training at Carrollton, will remain at his quarters until the time to go to the ring.

Both men are game and scientific and a long fight may be expected. There has been but little betting on the result, Bowen, however, having the call.

BRIGANDS IN MEXICO

Three Young Men, Who Were Passing Along a Public Highway, Were Attacked by Brigands.

A Fight Occurred and Resulted in Two Bandits and Two of the Travellers Being Killed.

The Brigands Were Overtaken by Rural Troops and Two More Killed and Two Wounded.

NEW YORK, April 6.—A special to the Times from the City of Mexico says that the band of brigands who have been operating in the vicinity of Jalisco, have committed another daring outrage. Three young men were passing along the public highway when the bandits, under the leadership of Juan Ramon Guerrero, made a sudden attack upon them.

The three travellers stood their ground bravely and returned the fire of the robbers. The battle lasted several minutes, and resulted in two of the bandits being killed. Two of the travellers were killed and the other one seriously wounded.

After robbing the bodies, the brigands started for their rendezvous in the mountains, but were overtaken by a detachment of rural troops. Another desperate fight occurred and two of the robbers were killed and two were wounded. Three others were captured and the remaining ten escaped to the mountains.

They are being closely pursued and will probably be captured.

A TRAGEDY IN KENTUCKY.

It Has Caused Great Excitement and a Lynching Probable.

MORGANFIELD, Ky., April 6.—Miss Abbie Oliver, of Sturgis, Union county, Kentucky, was betrayed by Henry Delaney, a young clerk, about eight months ago. Delaney denied the charge and refused to marry the girl.

At 10 o'clock Tuesday night the girl's mother entered Delaney's place of business, and at the point of the pistol compelled him to go with her to a carriage outside, in which her husband and daughter were seated.

The quartet drove rapidly to Morganfield, fifteen miles distant, and at 3 o'clock yesterday morning a license was procured and Delaney forced to marry the girl.

The party started home in the carriage, but when they had driven about three miles four men surrounded the vehicle and began firing into it. The newly wedded woman was shot through the head and died soon afterwards. It was discovered that she was about to give birth to a child. Her father was shot through the right arm.

At the first shot Delaney jumped from the carriage and joined the attacking party. Mrs. Oliver recognized the assailants and warrants for their arrest have been issued. The country is greatly excited and lynching is expected.

FOUR PEOPLE POISONED.

Arsenic Used For Baking Powder in Making Biscuits.

BATTLE CREEK, Mich., April 6.—An alarming case of poisoning took place in the village of Tecumseh, this county, yesterday, in which four people are seriously poisoned. Mrs. Polly baked biscuits for supper of which her two children, a young man boarder and herself partook quite freely.

A physician was promptly called who called it arsenical poison. Mrs. Polly used arsenic for baking powder by mistake. Mrs. Polly and a young man are still in a critical condition.

Work of Incendiaries.

ANTHONY, Texas, April 6.—Almost the entire business portion of Anthony, twenty-eight miles north of here, was totally destroyed by fire Tuesday night. Out of twenty-three business houses in the town only three were totally destroyed. The loss on buildings and goods will amount to \$75,000; insurance about \$30,000. The fire was undoubtedly the work of incendiaries.

Navigation Opening.

MACKINAC CITY, Mich., April 6.—From previous reports it is safe to predict that the Straits of Mackinac will be open for navigation by April 20. This is somewhat earlier than has been expected, while that has been usually cold winter, with the straits frozen over more solidly than for many years past.

Will Ask for Clemency for Harris.

The End Will Come Soon Unless Care Is Taken.

What One of Our Prominent Real Estate Dealers Has to Say.

"I tell you it is wearing." The speaker was a well known business man, and he referred to the rush, bustle and excitement of business as conducted at the present day.

He is right. It is terribly wearing to brain and nerve, exhausting to the vitality and ruinous to health.

But especially is it dangerous at this season of the year when the system is always more or less weakened and debilitated by the spring changes. It is a settled fact that everybody needs a spring medicine for his blood and nerves in order to keep in sound health, but such a remedy becomes an absolute necessity to the person who from overwork, strain upon mind and nerves, dissipation or other causes, has weakened his system, exhausted his nerve power, run down his blood and vitality, absolutely broke down in health under the strain of business. He says:

"Such a person must take the right medicine and take it now or fatal results may follow."

The well-known Charles H. Hodgdon, Esq., of 35 Dana street, Somerville, Mass., one of the largest real estate dealers and a man of great energy and vitality, absolutely broke down in health under the strain of business. He says:

"As a result of too close confinement to office work, business cares and anxieties, I broke down with nervous prostration. I began the use of Dr. Greene's Nervura blood and nerve remedy and I deem it my duty to the public to state the wonderful effects of this remedy in my case."

CHARLES H. HODGDON, ESQ.

"My improvement has been most gratifying and my feelings and prospects. Where all was gloom and despondency, there is now light and hope."

"I gained thirteen pounds and am still gaining. Not alone myself, but I know many others who can testify to the merits of this most excellent medicine."

Mr. W. C. Allen, another prominent business man, living at a Manning street, Medford, Mass., states:

"I was completely broken down in health by overwork, anxiety and exhaustion and could not rest day or night. I had to give up work. After consulting and treating with several eminent physicians with no benefit, at last tried Dr. Greene's Nervura blood and nerve remedy. I am now well, have gained twenty-three pounds in weight, and work every day. That trembling feeling and terrible throbbing and palpitation of the heart have left me. I could fill columns that would interest people afflicted as I was."

If you wish to get well, don't fail to get Dr. Greene's Nervura blood and nerve remedy from your druggist. Price \$1. It is purely vegetable and harmless and is the discovery and prescription of Dr. Greene of 35 West Fourteenth street, New York, who can be consulted free, personally or by letter.

IS LOOKING BRIGHTER

Future of the Militia Companies at the Head of the Lakes Not Now So Cloudy.

E. J. Luther Was Elected to the Captaincy of Company H of West Duluth Last Evening.

Great Preparations Being Made For the Institution of the Knights of Pythias Lodge Tonight.

Military matters at the head of the lakes, and particularly at West Duluth, are looking brighter than for some time past and the indications are that the boys of the nation will soon be out of the slough of despondency into which they have been thrown by an unhappy combination of circumstances. It will be remembered that a bill was introduced into the legislature some time ago contemplating a change in the national guards of the state from a brigade organization to that of a battalion.

The real intent of this bill was to curtail and in a measure cripple the Third regiment, of which the companies here are a part. The bill was referred to the committee on military affairs, and on Tuesday of this week Captain Dent, of Company G, and Lieutenant Bidwell, now captain of Company A, were summoned to appear before this committee and report upon the conditions, needs and further prospects of the companies at the head of the lakes. The investigations of the committee resulted in a recommendation for the indefinite postponement of the matter which virtually kills the bill. So the Third regiment will be sustained in its present appointments.

On Wednesday evening of last week company A of Duluth promoted Lieutenant Bidwell to the captaincy and last evening company H of West Duluth unanimously placed E. J. Luther at the head of its organization. The three companies are now officered with as competent men as could be found in the vicinity and it is expected that new life and ambition will be infused into the rank and file of this portion of the Third regiment.

TONIGHT'S INITIATION.

Great Preparations Being Made For the Institution of the K. of P. Lodge.

Great preparations are being made for the institution of the new lodge of Knights of Pythias which will take place in the I. O. O. F. hall this evening. Officers of the grand lodge will come from various portions of the state to perform the ceremonies. Gate City lodge, of Duluth, will be present with its new paraphernalia and will exemplify in detail the work of the new ritual. Exercises will begin at 7 o'clock. Grand Chancellor F. M. Wheaton, of Minneapolis, assisted by Grand Keeper of Records and Seals G. M. Orr, will have charge of the ceremonies. At 12 o'clock a supper will be served.

West Duluth Briefs.

President Chubbart, of the St. Cloud Normal school, visited the West Duluth schools yesterday in company with Prof. Denfield.

J. E. Giehrst is down from Biwabik where he is engaged with the Duluth Ore company. Mr. Giehrst says that they will be shipping ore from the company's properties about the 1st of May.

The ladies of the Episcopal church will hold an ice cream social on Friday evening at the apartments of Mrs. Dent and Mrs. Follett in the Knickerbocker block.

M. Kastner returned yesterday from Antigo, Wis.

A daughter was born to Mr. and Mrs. L. J. Prescott yesterday.

The council committee on supplies has instructed Chief Patterson to obtain prices on patrol wagons, which signifies its intention to purchase one for the department.

Company H will give a grand military ball on Wednesday, April 19.

Dr. Blair, of Pittsburg, Kas., is a guest of Dr. Hutton.

Hans Engleson, P. Halberstad and others returned yesterday from an exploring expedition on the north shore. The parties report having secured some claims, but at a short distance from Lake Superior.

A. J. Filatrault has been appointed one of the health inspectors.

DR. STOCKING TRANSFERRED.

He Has Been Assigned to a Parish at St. Joseph, Mo.

Dr. C. H. Stocking, pastor of the First Methodist church, received notice by wire yesterday from Bishop Fowler that he had been transferred to the Missouri conference and stationed at St. Joseph, Mo. This was something of a surprise, it being expected that Dr. Stocking would remain until Oct. 1. The change to which he goes is an excellent one. He served a pastorate of three years there, sixteen years ago.

No successor has been selected as yet, but an effort may be made to get Chancellor Sims who was here at the time of the dedication of the new church. F. O. Holman, of the Hennepin avenue church in Minneapolis, is also spoken of and, it is said, would like to come.

Iron Range Wreck.

The Ely passenger on the Duluth & Iron Range railroad was over an hour late this noon. The same freight wreck that blocked the McKinley train, caused the delay. The accident happened near Highland, the other side of Two Harbors. Seventeen cars of ore and the engine are in the ditch and ten are blocked on the track. Transfers have to be made around the wreck. No one was hurt.

AFTER A LONG ABSENCE.

Hubert Munger, the Well-Known Artist, is Coming Home.

Hubert Munger, a brother of R. S. Munger, of this city, will be a passenger on the steamer Normanna, of the Hamburg line, which leaves Southampton on April 14. Mr. Munger has been abroad for seventeen years, in which time he has not returned to America. He has become known as one of the best of American artists abroad. He has received decorations from nine different European governments, and has a number of pictures on exhibition in the World's fair. He will spend some time in Duluth.

The Foundation Contract.

The contract for the foundation of the young ladies' academy was let today to H. H. Shanley for \$891. Architect Tenbusch expects to have the building ready for the superstructure about June 1, at which time the cornerstone will be laid by Bishop McGolrick with impressive ceremonies.

THE CONFEDERATE DEAD.

Confederate Decoration Day Observed at New Orleans.

NEW ORLEANS, April 6.—Confederate Decoration day is being generally observed here by the veterans of war and the state militia. Flowers are in full bloom throughout the city at this season of the year and exceptionally large quantities of choice roses, loose and in elaborate designs, are being placed on the graves and monuments by the various associations.

The mound of the Lee monument is a bed of beautiful flowers. This afternoon there will be a military parade, in which all the state soldiers and the Veterans' associations will participate. Volleys will be fired over the tombs of heroes after the flowers have been laid thereon. Associate Justice Feiner of the supreme court will deliver an oration at Greenwood cemetery, and there will be prayers by Mrs. Mackham and likewise both eminent divines. The weather is beautiful and great throngs are visiting the burial places.

The Report Discredited.

WASHINGTON, April 6.—Dr. Amabali Cruise, Chilean charge d'affaires, said this morning he had received no news whatever from Chile regarding the reported declaration of martial law in Santiago, and in the absence of any was inclined to believe the report was untrue. The Chilean minister, Dr. Cruise said, would arrive in the United States about the end of the month of May.

SOME OF MALTBY'S TRICKS.

He Has Many Times Risked His Bones on a Bicycle.

W. S. Maltby, the trick bicycle rider, has had another picture taken, and here it is. This gives only a faint idea of the liberties Mr. Maltby is in the habit of taking with a high wheel. He seems to be just as comfortable with his head in the saddle and his heels in the air as in other positions usually assumed by careful riders.

Mr. Maltby has probably been at work during the past winter and some new and startling tricks may be expected of him this summer. He is still ambitious to prove his claim to the championship title. It is generally admitted that for daring and reckless feats Maltby has no equal. One of his favorite feats, which he does regularly in his exhibitions, is to build a pyramid of chairs on a table, balance the wheel on the top chair, 20 feet from the stage boards, and then climb up himself and get into the saddle. There is always some to bet on whether he will succeed in this trick, for a fall would mean broken bones for the performer.

Another pretty trick of Maltby's is to stand on his head on the saddle and fold his arms while the wheel is in motion. Compared with a bicycle saddle, the back of a galloping horse furnishes a stable footing. When Maltby was making his first attempt to perform this trick, he fell and broke the entire length of the Aberdeen pier wall on the front wheel only. This was done, when the whole thing had uncovered the rocks 20 feet below.

Eastern Women.

When entering a Western town are very apt to be made even in their criticisms. The first thing to criticize is the depot, then the hotels, then the churches, then the theaters, the dry goods stores, then the society. A lady having just become a resident of Duluth, who has formerly resided in New York, gave the following criticism: Your depot impressed me favorably, the Spaulding hotel is quite good enough, the Lyceum theater is a charming playhouse. There is an abundance of churches and schools. Haynie & Co. have a delightful shopping place, and the few ladies I have met all impressed me as being of the most charming and refined order. Your city is indeed all that is claimed for it, which is much more than is generally the case.

Rhode Island Election.

PROVIDENCE, R. I., April 6.—The returns in show that there is no election of state ticket by the people. Baker, Democratic candidate for governor, has a small plurality, and Bennett, Republican candidate for secretary of state, and Clark, Republican candidate for general treasurer, also have slight pluralities. For congressmen Page and Lapham, Democrats, are elected by a small plurality each. The complexion of the general assembly, which will elect the general officers, is still doubtful.

Thought He Knew It All.

The clerk with the waxed mustache and bangs listened rather impatiently while the little woman explained what she wanted.

"Yes, yes," he said at last, "I understand." He took down a roll of cloth and added, "Here is just the thing."

"But I said—she began.

"I know," he interrupted. "You want the cloth for a wrapper, and this is something else."

"Oh, is it?" said the little woman.

"Yes, it's all the rage," he returned as he unrolled the cloth. "It's just what you want, and it's cheap too."

"Really?" she asked.

"Oh, yes; it matches your complexion, and nothing could be better for a wrapper."

"And you're sure I want it for a wrapper?"

"Why, I suppose, of course."

"And you're quite certain that this is the piece of goods I want?" she interrupted.

"Really, I'm usually so accurate in my judgment that I can hardly believe."

"Can you think of anything else that I want?"

"No, madam," he replied, with some nervousness, "I would that I could."

"Let me tell you, then," she said, eyeing him sharply over the counter. "I want a clerk who will let me know a little something about what I want myself. Will you kindly ask the young woman at the next counter to come and wait on me?"

He did so, and she purchased material for a ton gown.—Baltimore Herald.

Drew the Line at the Return.

She had just burned her arm on the oven door, and her desultory remarks were yet echoing through the humble yet comfortable cottage when the man with grizzled whiskers and an air of self-expression knocked at the door.

When she appeared at the threshold, he fell upon her neck.

"After all these years, after all these years," he sobbed.

The lines in her forehead deepened, but she was silent.

"Can you—"

Seizing her yielding hand, he directed a burning glance into her eyes.

"Forgive me for leaving you."

A sigh started her breath.

"Yes," she answered, "I had forgiven you for that."

"Mary."

The joy that shone from his face was a cruel mockery.

"But—"

She contemplated him in a weary way.

"I don't see why you couldn't let it go that. I don't believe I can be resigned to your coming back."

He perceived the necessity of a great sacrifice on his part and went forth into the wilderness and paid the tax.—Detroit Tribune.

WE ARE HEADQUARTERS

For New, Desirable Fabrics

At Lowest Prices, We Hold The Fort.

Silks, Velvets, Dress Goods!

WE DO NOT CLAIM to carry as large a stock as the big houses of New York and Chicago.

WE DO NOT CLAIM to carry as high-priced goods as those world-renowned concerns do, but

WE DO CLAIM to have the best assorted, most varied collection of New, Seasonable and Desirable Goods, of any house in the city, or we will go still further and say, of any dry goods house in any city of twice the size of Duluth, and

WE DO CLAIM to be able to show you these goods at as low prices as the same quality can be bought for in New York or Chicago, and at lower prices than any of our competitors will ask you for the same grade of goods right here at home.

THE DRESS GOODS business we have done during the past three weeks, and the many instances of people who have shopped all over town and then returned to our store to purchase, seems to be a verification of this statement.

PROPHETS ARE TIMID

The New Elements of Uncertainty in Baseball Are Making the Spring Prophets Very Shy.

Boston's Club Will Start as a Favorite as Champions Always Have the Public Confidence.

'Books' Are Not Made on Baseball Because the 'Talent' Can Easily Beat the Game.

Only this spring and the baseball prophets are late. With the pitcher handicapped by five feet more of distance from the home plate and a steady enforcement of the balk rule, three new elements of play will enter into games this year—viz: More safe hitting to the outfield, more safe bunting to the infield and more base running. Add to this the uncertainty which the changed pitching rule gives to every pitcher's abilities as compared with those which he formerly displayed and it can plainly be seen why the baseball prophets are still studying the stars through the telescopes of their minds and hesitate in casting the usual spring horoscope.

The Bostonians will be the favorite when these guesses do come in. Of that there can be no doubt. Champions always carry the bulk of public confidence into a campaign. Still that team has not been strengthened, whereas other teams, notably the New Yorks, have. Therefore I am inclined to believe the New Yorks will be second choice. Ward's presence in a team inspires faith among the cranks, and no team in the country can "show up" so well as the so-called "Giants" with base runners.

Asson of course has declared and declared it boldly that his Chicago will "win all human probability" with the race this year. Whenever the "Old Man" fails to claim the championship early in March, we will all know he is dead, and his supporters, and the peculiarly about his annual proclamation is that he is always sincere. He believes in his team as a mother believes in the superior goodness of her children.

The Pittsburghs, by reason of the extraordinary spirit they made at the close of last season, are looked upon generally as a dangerous club to championship candidates. The Brooklyn will be weakened by the loss of Griffin, who is about to quit ball playing and go into the brewing business. An impression prevails among the "analysts" that the Cleveland, who finished so strong last year, will not be able to keep the same pace this year on account of the effect the new rule will have upon their young pitchers. Ewing's presence in the team, however, is expected to add some strength. The Cincinnati for 11 years have never failed to bring annual disappointment to their friends and patrons. It is not strange, therefore, that very little is heard in the way of predictions about their chances for this year. The four ex-association clubs brought up the rear of the procession last year and each one of them is so situated, therefore, as to be warranted in hoping for and expecting a better record for 1893. The Baltimore, however, are meeting with some success in their practice tour through the Southern league circuit by being defeated with painful regularity.

The very late spring—unseasonable weather—throughout all the National league circuit will make it very embarrassing for the clubs which early in the year decided against a preliminary southern trip. The Cleveland were driven thereby to change their plans, and their team has joined the St. Louis, Pittsburgh and Baltimore in the middle Atlantic and Gulf states.

The closing of ballparks in New York city will undoubtedly help baseball attendance at the Polo grounds. There were 240 of these rooms, and each one had a daily patronage of several hundred people. A large percentage of these ballparks patrons will spend their spare time now at the baseball park.

It is a notable fact that with all these ballparks open for business not a "book" has been made on baseball games for several years. I believe the last bookmaker who tried it was one whose room could be found on Park row. In 1888 he made a noted odds of 3 to 1 against the New Yorks and 3 to 5 against the Chicago. When the two clubs were to meet in the afternoon, his patronage began to "take" and he was in New York, but none wanted the Chicago. He let the odds recede on the Chicago till even money was offered, but no one would buy them. When his book closed, he had lost about \$600 if the Chicago were victorious and to lose \$300 if the New Yorks won. He lost. That evening as he paid out the \$300 he made a vow to let baseball alone thereafter, and he did. That was the last "book" known to have been made on a baseball game. The sport is too sure and can be too easily beaten by the baseball "book" to have any attraction for bookmakers.

The signing of players like Rube of the New Yorks, Thompson of the Philadelphia, Burns of the Brooklyn and Long of the Boston at heavily cut salaries indicates that the players have accepted the situation and will, with a few exceptions, come to terms before the championship season is ready to open. The days of \$5,000 and \$7,000 baseball salaries have gone by and will probably never return.

Just now when pneumonia is in many places almost epidemic there comes to me the wonder why baseball players escape the dread disease so easily. In my many years as a baseball writer I have known of only three cases of pneumonia among professional ball players. Yet they are exposed to all sorts of death breeding weather while practicing in the early spring months. They often play in a cold rain till they are wet to the skin. Men reeking with perspiration sit upon the bench and cool off without a thought of catching cold.

One day last fall Timmer of the New Yorks told me that he stood in right field through six innings in shoes which were soaked, and on ground which was so cold that his feet felt like so much ice. Why is it that the same exposure which would produce pneumonia among merchants, clerks or men of business has no such effect upon ball players? There have been many cases of typhoid fever, diphtheria, scarlet fever and more yet of Bright's disease—all traceable to exposure to bad weather, but pneumonia seems to be helpless against the profession.

Chicago is to have a new theater soon. It will be called the Empire and will be under the management of A. H. Hart, with A. P. Leopold as treasurer. The house is expected to be ready for occupancy early in June. Popular prices will prevail.

The Summons in the Case of Manager Rhodes Against Boggs and Horton Was Vacated Today.

Boggs' Bill For a Normal School at Duluth Reported Without Recommendation By the Committee.

Various Amendments Made to the General Charter Bill By the Committee of the Senate.

Lon Merritt Meets An Old Army Comrade He Had Not Seen For Many Years.

ST. PAUL, April 7.—Judge Otis has filed his decision in the case of John J. Rhodes, of coal combine fame, against J. A. Boggs and H. H. Horton, members of the legislature. He grants the motion to vacate the summons and set it aside. The action of Rhodes was against all the members of the legislative investigating committee, but Boggs and Horton were the only two who asked to have the summons vacated.

IN THE LEGISLATURE.

Boggs' Bill Regarding the Fish Hatchery Killed This Morning.

ST. PAUL, April 7.—[Special to The Herald.]—The senate today reconsidered the vote by which substitute for Brown's bill compelling railroads to build elevators was lost. The house bill which provides for the sale and transfer of log and lumber liens was lost in attempting to suspend the rules and place it on its final passage.

The senate bill was passed this morning to compel railroads to erect fences and build cattle guards or become responsible for damages incurred for non-compliance.

The university tax bill was made a special order for tomorrow afternoon.

In the house Mr. Holman introduced a bill which was passed, legalizing the sale of township bonds.

Mr. Boggs' bill, appropriating \$25,000 for the building of a state fish hatchery, was indefinitely postponed. Mr. Boggs' bill for a state normal school at Duluth was reported back without recommendation.

Mr. Williams' joint measure to congress for an appropriation of \$100,000 for a survey for the proposed canal in northern portion of the state was recommended to pass.

The senate amendments to Jacobson's elevator act on right of way, switches and bill was concurred in by the house and the bill went to the governor for his signature. A bill detaching Clay and Becker counties from the Fourteenth and adding them to the Seventh judicial district passed the house.

The senate yesterday discussed the capitol bill all the afternoon and passed it by a vote of 31 to 20. It now goes to the governor for his signature. His friends are confident he will sign it although there is some doubt.

Runners are gathering here that the pine land investigation and tax investigation in the northern counties of the state, in which Kelly and Denney are the moving spirits, is going to furnish a greater sensation than anything which has happened in the history of the state.

Some of the most prominent lumbermen, capitalists and ex-state officials are said to be involved in a way that may send them to Stillwater. Most of these interesting speculators are located in Minneapolis and have been known for years as the pine land ring.

Brown's bill requiring railroads to give receipts for every carload of grain received for shipment, was defeated by the senate yesterday by a vote of 21 to 23.

Messrs. Sargent, Silberstein, Edson, Hartley and other Duluthians were here yesterday to argue before the senate committee the question of validating the franchise of the Park Point street railway which has already passed the house.

The house yesterday concurred in the amendment to the cigarette bill and it went to the governor for his signature. The bill to abolish the Third regiment organization was placed on general orders in the house after a fight against the committee's report for indefinite postponement.

An appropriation of \$400 was made for the state agricultural society. All the afternoon was taken up in discussing the reappropriation bill in committee of the whole, finally recommending it to pass. By this bill St. Louis, Lake and Cook counties get two senators and four representatives.

The senate committee on municipal corporation yesterday decided upon some important amendments to the municipal charter bill that will be presented when the bill comes up in the senate. The park board section was the subject of considerable discussion. As reported to the senate the bill knocked out the Minneapolis system of acquiring and paying for it in ten installments secured from a special tax on benefited property. This feature the committee voted to restore, and an amendment to that effect was drafted and approved. The powers of the board in the matters of the planting and care of shade trees and grass plots.

A new chapter was drafted. It provides for an immediate creating a purchasing board to contract for and purchase all the supplies of the various city departments. The board is to consist of the mayor, treasurer and the president of the council. The board is to employ an expert in this connection.

The bill, as introduced, made no provision for the division of the city into wards. A section is added to cover this omission. It provides among other things that the wards of recognized cities shall remain the same until changed and

that in new cities all the aldermen be elected at large at the first election. The question of whether members escape voting on call, if they are not settled once and for all in this morning. A local bill giving Ramsey county was under consideration and several members dodged.

Cotly in the chair, ruled with great energy the vote couldn't be escaped.

Members were snaked in from the cloak rooms and all forced to vote, except Mr. Wacker, of Le Sueur. He stood out upon his constitutional right as a citizen to vote or not as he chose. The rules were read declaring that members must vote unless excused. The house refused to excuse Mr. Wacker, with folded arms, refused to respond. The chair, with all the power of his small person and extra large vocal powers, declared the Leviathan member from Le Sueur must vote.

There was a hush of expectation, and Sergeant-at-Arms Smoot was seen taking an extra hitch in his suspenders, when the member from Le Sueur weakened and voted. Mr. Dunn, of Mille Lacs, also stood out for a little but was forced to vote. There will be no escaping the rule hereafter, and also the construction of it, that the members are regarded as present if in any room, as the cloak rooms and postoffice, which open into the hall.

An interesting meeting of two old soldiers was an incident at the capitol yesterday morning. John Ferguson, of Tracy, who was a member of Brackett's Minnesota battalion, was looking over the list of house members and struck the name of Lon Merritt, of Duluth. He thought he knew the name, and sought out the member, and also the construction of it, that the members are regarded as present if in any room, as the cloak rooms and postoffice, which open into the hall.

Gen. John A. Logan. The meeting was the recognition that both had served in the same company, of Brackett's battalion. They had not met in twenty-seven years.

APPROACHING A CYCLONE

A Heavy Gale is Sweeping Southern Illinois, Iowa and Missouri and Causing Considerable Damage.

CHICAGO, April 7.—Reports from points south of here indicate that a gale, almost approaching a cyclone in severity, is sweeping Southern Illinois, Iowa and Missouri, and that much damage has been done. The wind has in a great measure prostrated the telegraph wires and furthered the damage.

It is in remote sections and there may have been loss of life, although so far none has been reported. The weather has been suddenly turned oppressively hot and the wind is blowing from the southwest, the direction in which tornadoes and cyclones generally originate. Along the lakes and in lower Michigan also there has been much loss of property.

The Plymouth hotel, a World's fair hotel, and one of the largest of the World's fair hotels and was almost completed.

In its fall the building crushed another structure which was to have been used for restaurant purposes in connection with the Plymouth. Both buildings were owned by Wm. Searles, of Plymouth, Ind., and were valued at \$45,000.

This makes three World's fair hotels that have been destroyed by wind and fire in as many days, and Building Commission O'Shea says there are many more that had better be razed by storm before they are occupied.

A SERIOUS WIND STORM.

A Michigan Town Struck by a Storm and Damage Done.

SOUTH HAVEN, Mich., April 7.—The worst wind storm of the season prevailed here and vicinity about 1 o'clock this morning. The cover of the water works stand was blown off and many chimneys were blown down. There was a heavy fall of rain.

Great damage was done to farm buildings. Many barns were leveled and others had roofs torn off. A school house was completely wrecked. It is reported many buildings were struck by lightning.

House Blown Over.

LACOTA, Mich., April 7.—A most destructive storm visited here this morning. A windmill and several houses were blown down from their foundations. The house of Lou Dismyple was struck by lightning and split in two, but the family fortunately escaped. The damage here is estimated at \$10,000.

A Building Demolished.

ROCKFORD, Ill., April 7.—The heaviest wind storm of the season prevailed here at an early hour this morning. Small buildings throughout the city were tipped over and many leveled to the ground. At Cherry Valley a two-story brick building was demolished and box cars were blown from the track.

OPPOSE RAFT TOWING.

Vesselmen Prepare a Statement of Their Objections to the Business.

DETROIT, Mich., April 7.—At a meeting of vesselmen yesterday to discuss the rafting of logs on the lakes, Congressmen Wendock, of Bay City was present, also delegates from the Lake Carriers' association headed by Capt. Mack and Secretary Keep, of Cleveland.

Gen. K. A. Alger, of this city, and Capt. Read and Boutelle, of Bay City, were among the lumber shippers present. After a long discussion it was decided that Secretary Keep should have a month to prepare a statement of facts in detail the grievances of the vesselmen and the extent to which their interests are damaged by raft towing. To this the rafters will make reply.

A Murderer Captured.

MORRISTON, Ark., April 7.—Flanagan Thornton, a negro who killed Constable Pate at Menippe Tuesday, was captured here at 1 o'clock last night. The town is full of armed men, and it is believed that Thornton will be lynched.

MAYBE HAWKINS

The Carlton County Man May Capture the Alaska Governorship, in Opinion of Maj. Baldwin.

Mike Doran Will Have the Naming of the Collectors of Customs and Internal Revenue.

Capt. Harries Wants the Latter Position But Doran Has a Candidate of His Own.

Caleb W. West, Who Was Cleveland's Former Governor of Utah Territory, Has Again Been Appointed.

WASHINGTON, April 7.—[Special to The Herald.]—From perfectly reliable sources it is learned today that National Committee man Doran has a sufficient "pull" with this administration to secure the appointment of his candidates for collector of internal revenue and also collector of customs at St. Paul. Notwithstanding the fact that ex-Representative Harries is a candidate for collector of internal revenue it is not believed that he stands the least possible show for appointment, because of the fact that Doran has another candidate for that place.

It is also believed that Doran will be able to secure the appointment of candidates of his choice for United States district attorney for Minnesota and United States marshal.

Maj. Baldwin, who was seen today, was of opinion that Harry Hawkins might be appointed governor of Alaska for it had been established that something of this kind was due that portion of Minnesota in which Hawkins resides.

NOMINATIONS BY GROVER.

Caleb W. West of Utah Appointed Governor of the Territory.

WASHINGTON, April 7.—The president today sent the following nominations to the senate: Interior: Caleb W. West, of Utah, to be governor of Utah.

Dominick I. Murphy, of Washington, to be first deputy commissioner of pensions.

Treasury: Ambrose W. Lyman, of Montana, to be collector of internal revenue for the district of Montana.

David G. Brown, of Montana, to be collector of customs for the district of Montana and Idaho in the state of Montana.

The nomination of Caleb W. West of Utah, to be governor of that territory, is a case of recognition of an "ex," for West was the former governor of that territory under Mr. Cleveland.

He has long been recognized as one of the leading Democrats of the territory.

Dominick I. Murphy, nominated to be first deputy commissioner of pensions, is a man of not unknown ability in the pension office. He has virtually grown up in the pension office.

David G. Brown, of Montana, to be collector of customs for the district of Montana and Idaho in the state of Montana.

The bank of the Gate City bank will be turned back into circulation today. Mr. Stone, examiner in charge, was yesterday to transfer the funds in the bank to the Atlanta National bank.

The work of counting the funds and removing the fund will be begun this morning. This is not a usual proceeding, but to meet a general desire to have the money unlocked the comptroller took this step.

The depositors do not get their money yet, but the \$200,000 or more in actual cash now in the Gate City bank will be in another national bank, which can loan it out and retrieve the financial stringency.

It has been decided also to liquidate. The bank will not go into the hands of a receiver if the present plans can be carried out, and there is every reason to believe that they can be.

Bank Examiner Stone thinks the bank will soon have enough money on hand to open its doors and pay all depositors as fast as they come up. He will not open the doors until there is a dollar on hand for every dollar that is out. The bank has now on hand about \$320,000 in cash and cash assets. When the bank closed on the night of February 22, it had in the vaults about \$35,000 in cash and \$400 in checks.

Mr. Stone thinks the inconvenience caused by locking up the bank's money has been over estimated, but he deemed it the wise thing to have a transfer made of the money to another bank, where it will be available for regular banking purposes and so recommended to the comptroller.

Since the bank closed, maturing paper has been collected very promptly considering that it is a suspended bank. Some debtors have not been prompt, but they are good and the money will be obtained. Mr. Stone states that the paper which the Gate City bank was carrying was of high class as a rule, and there will be very little of it that cannot be collected. Every depositor will get dollar for dollar and stockholders will get par or very near for their stock.

Two Sticks Arrested.

PINE RIDGE AGENCY, S. D., April 7.—Yesterday Capt. Brown, Indian agent at this agency, brought in Chief Two Sticks, one of the ring leaders of the Indians who killed the four white men on this reservation on the night of February 2. Two Sticks is suffering from a gunshot wound in the right shoulder, but with proper treatment he will recover. Chief Man-Arrow-of-his-horse was found to be dying and was allowed to remain.

BLUE LAWS IN PITTSBURG.
Publishers of Sunday Papers and Newsboys Being Prosecuted.

NEW YORK, April 7.—The Times special from Pittsburgh, Pa., says that the Pittsburgh law and order society, which has been for months prosecuting newsboys and newspaper carriers and agents for Sunday papers, under an act of 1874 and which has been sustained in the supreme court of the state, yesterday tried a new trick.

Chas. Houston, business manager and one of the stockholders of the Press, an afternoon daily and Sunday morning paper, was arrested and tried before an alderman and fined \$75 and costs for three violations of the law.

Mr. Houston objected to the decision against him, on the ground that he has never worked on Sunday in his life and that workers on Monday morning papers do nearly all the work on the Sabbath day.

Mr. Vost, attorney for the law and order society, informed Mr. Houston that publishers of Monday morning papers are next to be prosecuted, and that it will not be long before all newspaper workers are employed only five days in each week, unless they get out Monday papers after 12 o'clock Sunday night.

New Press Association.
RICHMOND, Va., April 7.—A charter was granted yesterday to the Virginia Afternoon Press association. The object is to collect and distribute news and to buy or sell or exchange the same.

The principal office is to be in Richmond and authority is given to establish branches within and without the state and in the move, there is Wm. Arthur, of the State; Thomas D. Vance, of the Lynchburg Advance, treasurer; I. G. Fivesh, of the Norfolk Ledger. The organization is solely in the interest of prominent papers.

The Locomotive's Evolution.
BALTIMORE, Md., April 7.—A special train of sixteen cars left Mount Clare station last night loaded with full-size reproductions of historical locomotives for the Baltimore & Ohio exhibit at Chicago of the world's railways. Other carloads preceded them and by the middle of next week Maj. J. G. Pangborn expects to forward another train load of reproductions, together with a number of original old engines. In all there will be fifty-eight examples showing the evolution and development of the locomotive.

A Spaniard Lynched.
SAN FRANCISCO, Cal., April 7.—Jesus Fuen, the Spaniard who yesterday killed his mistress, Francesca Flores, and an old German named Gokkoff, who came to her defense, was taken from jail here this morning and lynched.

Proved Their Innocence.

SALINA, Kan., April 7.—The two men arrested last night on suspicion of criminally assaulting Mrs. Frost, have proven their innocence and were released this morning. A mob of five hundred citizens are pursuing and searching East today. He will be lynched if captured.

PREYED ON HIS MIND.

William Watson Cut His Throat in a Wisconsin Town and Died.

NEW YORK, April 7.—A World special from Tecumseh, Wis., says: William Watson and his wife were divorced in 1886, and soon afterward the wife married Randall Shedd. Watson went to Kansas, but after returned and was here when Shedd and his wife were found dead.

Mrs. Shedd's throat had been cut with a butcher knife and her head split with an axe. Mr. Shedd was found with his throat cut from ear to ear. It has always been supposed that Shedd murdered his wife and then committed suicide.

CAUSED A COMMOTION

Governor McKinley Has Appointed Charlie Foster and John Bishop On the State Arbitration Committee.

The Selection of Bishop as a Laboring Man Has Aroused the Columbus Labor Unions.

He Was a Labor Unionist For Some Years But Is Now a Commercial Traveler.

NEW YORK, April 7.—The World's special from Columbus, O., says: Governor McKinley yesterday appointed ex-Secretary of the Treasury Foster and John Bishop, of this city, members of the state arbitration committee, provided for under a newly enacted law. Mr. Foster as a representative of the employing classes and Mr. Bishop as a laboring man. These two are to select a third member.

Bishop's selection has caused a commotion among the labor unions. A delegation waited upon the labor committee at noon and asked that the appointment be not acted upon until they could find out who Bishop was. Though he is credited to this city, none of the labor leaders knew him.

It is found that while he was once a prominent leader in the Iron and Steel Workers' union, he had not been a labor unionist for ten years. He is now a commercial traveler for a firm of manufacturing chemists at Norwich, N. J. His son says his father appeared before a ways and means committee a number of years ago, asking on behalf of workmen higher protection on iron and steel. He also at that time gave McKinley data from which he made his maiden speech on the tariff question.

HE PULLED HIS GUN. Congressman Hutchinson, of Texas, is Looking for Trouble.

GALVESTON, April 7.—Congressman J. Hutchinson, who represents the First Texas district, figured in a street difficulty at Houston yesterday. Mr. Hutchinson stepped up to a Mr. Ellis, who was sitting talking to two men, and tapping him on the shoulder presented a pistol with the remark, "I understand you are looking for me."

Ellis drew back and bystanders prevented Hutchinson from firing. Ellis withdrew to a cigar store doorway, but soon came out again with a drawn pistol and attempted to shoot, but the crowd around stopped him.

Both men were arrested and put under bonds, but those who know them believe that the affair will end with that and there will be serious trouble yet.

A LOFTY LIBERTY POLE. It Will Carry the First Stars and Stripes Unfurled.

WASHINGTON, April 7.—A committee of representatives from different patriotic organizations in America has erected a lofty liberty pole at the highlands of Navesink, N. J., and the stars and stripes are about to be unfurled from the flag pole during daylight.

The unfurling ceremonies will take place on April 25 next. The Paul Jones, the first stars and stripes that ever went to the masthead of a ship, and which was borne by the Don Hommie Richard in the fight with the Serpents, will be the first flag to float from the pole.

Government Telegraph. NEW YORK, April 7.—A petition has been issued by the federation of labor addressed to branches of the national federation of labor requesting that a law be passed establishing a government telegraph and telephone system.

Copies of the petition have been sent for signatures to all labor organizations in the large cities and the petition is to be presented early in December.

STRICKEN DEAD.

TRUSTWORTHY STATEMENTS.

A recent New York dispatch reads: "James G. H., a fine looking and apparently healthy man, was observed to stagger while walking on Fifth Avenue this afternoon, and after taking one or two uncertain steps fell to the sidewalk. When picked up he was dead. A physician examined the body and pronounced death the cause of death. A peculiar facial feature of the case is that Mr. H. was on his way to Maine, to settle in the home of his life. He had passed the previous ten years in the western mining country, and had amassed a fortune. If you have any of the symptoms given in the following testimonials you should lose no time in seeking relief."

From John L. Roberts, Stratford, Pa.: "I have suffered long with palpitation, irregular pulse, fainting and nothing spells, pain in shoulders, side and arms for over forty years. For twelve years have been treated without avail by prominent physicians in my neighborhood and in New York. Growing constantly worse, another spell followed one another, so my life was often in danger and I needed constant care. As my son had been cured by Dr. Miles' New Heart Cure, he sent me three bottles. The first dose gave me instant relief. Before using the last bottle I was completely cured. Although seventy-five years old I feel twenty years younger. I claim my cure to be almost a miracle."

Here is a letter from Mrs. John Kolges, of Cleveland, O.: "I had been troubled with my heart and stomach for years, but for sixteen months had been confined to my bed. I had four of the best doctors in the city, but none of them could benefit the weakness of my heart. I also had dropsy and rheumatism. I never took medicine that relieved me. Once as Dr. Miles' New Heart Cure does. I am much stronger. My appetite is splendid. I gain strength with every dose. I have gained more in six weeks from your treatment than in sixteen months from all the doctors."

BRAGG IS HARD TO PLEASE.

Only the Chinese Mission Will Suit the Wisconsin Warrior.

WASHINGTON, April 7.—Nervy old Gen. Bragg has refused a position which pays \$12,000 per annum. The papers in the case were all made out, and he was to have been appointed minister to Brazil, but he sent a note to Cleveland declining the honor.

The place was not satisfactory to him, and he preferred the Chinese mission. President Cleveland told him that the passage of the Chinese exclusion act had caused friction, and the removal of Minister Denby, who has been there for eight years, would be an unwise act at this time, as Denby is popular with Chinese officials.

After being offered Bragg the mission to Austria-Hungary, but that was also refused, as the expense of living there is more than Gen. Bragg could afford. Under these circumstances the Austrian mission was given to Bartlett Tripp, of South Dakota. Gen. Bragg now has an option on the mission to the Argentine Republic, but Bragg wants to go to China and wants Cleveland to send him there. He voted against the Chinese exclusion bill when he was in congress and believes that he would be persona grata to China.

If he cannot get that he will accept the Argentine place. Bragg had a row with Cleveland, and ever since Grover has been trying to find something to satisfy the old man. He is the only Democrat on earth who would refuse a \$12,000 place.

AN OUTRAGE IN PERU.

An American Consulate Was Wrecked by a Mob.

WASHINGTON, April 7.—Minister John Hicks cables the state department from Lima, Peru, as follows: "Lima, April 5.—Gresham, Washington—At (place omitted) mob attacked Masonic lodge, sacked building and burned it down. The mob then proceeded to the United States consulate was invaded. Furnishings destroyed and acting consular agent shot in the foot. Archives of records promptly proscribed. The police shot on while the mob performed work without interference. The mob brings the particulars."

After consultation with President Cleveland, Secretary Gresham sent the following telegram to the minister: Department of State, Washington, D. C., April 6, 1893.—Hicks, Minister, Lima.

Protest against failure of authorities to afford protection to consulate, and if facts are well established ask expression of regret, prompt prosecution of the guilty parties and reparation for injury to American property or person.

"GRESHAM."

It is believed at the department that a satisfactory explanation of the affair will shortly be made.

MURDER NEAR RUSH CITY.

An Indian Beheaded by Two Drunken White Men.

RUSH CITY, Minn., April 7.—John Bigfoot, a Chippewa Indian, well known in this vicinity, was beheaded Wednesday night while he and a number of his tribe were in the sugar bush.

Mark Andrews and a man named Copos, both white men residing at Stillwater, came down from the lumber camps, filled up with whisky and took a load with them and returned to Rush Creek, where the Indians are gathering sugar.

Andrews getting into a quarrel with Bigfoot, Copos picked up an axe and swung it down on the head of Andrew, near and struck him on the head, and ran. Andrew picked up the axe and severed a head with them and returned to Rush Creek, where the Indians are gathering sugar.

The unfurling ceremonies will take place on April 25 next. The Paul Jones, the first stars and stripes that ever went to the masthead of a ship, and which was borne by the Don Hommie Richard in the fight with the Serpents, will be the first flag to float from the pole.

CALLED NO CONTEST

The Fight Between Andy Bowen and Jack Burke Lasted Until an Early Hour This Morning.

It Was a Hard Fought Contest But the Men Were Unable to Make a Finish.

At the End of the One Hundred and Tenth Round It Was Declared "No Contest."

NEW ORLEANS, La., April 7.—Andy Bowen, of this city, and Jack Burke, of Texas, fought last night for the lightweight championship of the South and a purse of \$2500, of which \$500 went to the loser, before the largest audience ever assembled in the arena of the famous Olympic club. The men were to weigh 133 pounds at the ring side. Both men were in perfect condition and the betting was slightly in favor of Bowen.

Prof. John Duffy was chosen referee, while Captain Barrett was in charge of the police detail. Charles Noel, President of the Crescent City Athletic club, was an interested spectator and was the object of much interest at the ring side.

The men entered the ring at 9:15. Bowen was in the lead, followed by his seconds, Thomas Anderson and James Spitzfaden. Burke came in shortly thereafter and received a warm reception. Burke's attendants were John A. Sullivan, George LeBlanche and Harry Black. The fight commenced at 9:30.

It was a long and hard fought contest, the fighting at times being fast and furious and Burke and Bowen alternating in knocking each other down. One hundred and ten rounds were fought, although the spectators clamored for a draw before half that number were fought. Referee Duffy seemed disposed to declare a draw about the fifty-fifth round, but Capt. Barrett would not interfere as long as no brutality was exhibited, and the fight went on. Bowen was repeatedly cautioned for foul fighting.

The fight was declared "no contest" at the end of the one hundred and tenth round. Three bones in both of Burke's hands were broken. Bowen was anxious to continue the fight but Referee Duffy would not allow it. The purse will probably be divided.

From the beginning to the ninety-third round the men simply walked around the ring and made few attempts at fighting. The audience kept up a constant unrelenting howl and catcalls. At the beginning of the ninety-third round, Bowen showed a little life and occasionally landed his right on Burke's body. His blows, however, lacked force, and at no time did Burke fear a knock out.

The Texas lad's hands were in bad shape and practically useless for hitting. He kept his arms moving in order to keep Bowen away. In the ninety-third round Duffy was obliged to leave the ring on account of fatigue, and President Dixon assumed charge for one round. Duffy returned at the beginning of the ninety-fifth round and again the walk around began.

The succeeding ten rounds were tame affairs and both men showed the effects of the long draw out contest. In the ninety-fifth round, Bowen was hit by a few minutes' rest, and Bowen fell to the floor from the force of his blow, which met no greater resistance than the heavy air of the club house.

The men walked about at each other until the end of the one hundred and tenth round, when the audience demanded that the referee declare it a draw. After a few minutes' consultation with President Dixon, Referee Duffy declared it "no contest."

No Livel Show. LIVERPOOL, England, April 7.—The suit of the Rev. Engelbrecht against Mr. Lynch for criminal libel was closed and a verdict for Lynch was rendered by the jury yesterday morning. The evidence was very damaging against Engelbrecht, and very little doubt but what he was the father of Aggie O'Connor's child.

A Bantam Contest. INDIANAPOLIS, Ind., April 7.—Yesterday Thomas O'Rourke, the feather-weight champion, who is here this week, received a telegram from John T. A Scheme to Revive the Suspended Australian Bank.

MELBOURNE, April 7.—The shareholders and the depositors of the Commercial bank of Australia (limited) have held largely attended meetings to determine the best course to be taken in view of the suspension of the bank. At these meetings a proposal to reconstitute the bank was adopted with enthusiasm and unanimity, the proposed scheme of reconstitution being that a new company should be formed with a capital of £500,000, of which £250,000 should be raised from the existing depositors on the basis of five shillings in the pound of deposits, this to constitute preference or preference capital bearing interest at 5 per cent, the remainder of the capital of £500,000 to consist of a paid up capital of four pounds on each of 300,000 shares and six pounds per share still unpaid for.

Thus the entire capital will be paid up. Hon. James Service is to be chairman of the institution as reconstituted.

THE MAFIA AT WORK.

An Italian Shot in Colorado By an Unknown Assassin.

LOUISVILLE, Colo., April 7.—Chas. Marchanda, an Italian laborer, was here on Sunday morning on the morning of the shooting, and he was supposed to be a member of the murderous Mafia last night.

While attending his horses in his stable, he was shot in the back by a man who suddenly appeared at the door and shrieked "I have to kill you, so I may as well do it now as any time." The Italian deny that the shooting was the work of the Mafia society and say there are no members of that order in Colorado.

CREDIT BELONGS TO CABOT.

A Buffalo Minister Says We Owe Nothing to Columbus.

NEW YORK, April 7.—The Press, Buffalo, says: Rev. William Stevens Perry last night preached the first of a series of Columbus sermons at St. Paul's church. He said: "We owe nothing to Columbus, Spain or Rome, the discovery belongs to John Cabot, who sailed under the patronage of King Henry VII, and the discovery was made in defiance of Pope Alexander VII."

The sermon was strictly anti-Columbian and anti-Roman and he created considerable excitement.

Tearing the Continent.

St. Louis, Mo., April 7.—Miss Bessie Mitchell, who is making a tour of the country to demonstrate the possibilities of thorough car arrangements, reached here on Sunday morning. She is north-bound train and left a few minutes later via the Walrus road for Toledo and New York. Miss Mitchell has received many courtesies from people at different cities en route. At Little Rock, Wednesday, a delegation of ladies joined her at dinner in the depot. Last Sunday Miss Mitchell and Miss Edith Day, who is north-bound train and left a few minutes later via the Walrus road for Toledo and New York.

Valuable Pictures Sold.

NEW YORK, April 7.—The sale of the Blakeley collection of paintings was Saturday afternoon at Christie's hall. Seventy-three works were sold for \$102,150, making the total amount realized at two night sales \$136,630. Trovati's picture, "The Approach of Storm," brought \$20,500. It is understood that it will remain in this city. "The Apple Orchard," by Daubigny, brought the next highest price, \$14,500. Lesby's "Return of the Royal Hunting Party" was sold for \$6,000. A number of other pictures were sold at prices ranging from \$3,000 to \$5,000.

THE DISTRICT COURT

Business of the Term Well Under Way and Cases Are Being Rapidly Disposed of.

Seven Indictments Returned By the Grand Jury—Arraignment of the Prisoners in Court.

Damage Case of Edith Watzke vs. Duluth Superior Steamship Company Settled and Dismissed.

Before Judge Ensign in room 1 of the district court the personal damage suit of William C. Stevenson vs. William Hubbard et al. is still on trial, and the plaintiff was on the stand all the morning. Attorney J. L. Washburn had him under examination, and rather punctured the alleged saw mill model furnished by the plaintiff.

The case of Dorothy Lloyd vs. the City of Duluth was settled. The case of Dorothy Lloyd vs. Caleb Le Tourneau et al. was dismissed on motion of the plaintiff, as was the case of George Wetherby vs. the Chapin-Wells Hardware company; also the case of John Haley vs. the Chicago, St. Paul, Minneapolis & Omaha railway.

The jury returned a verdict for the defendant in John H. Peabody vs. Charles Crosby et al. Petit juror M. W. McDonald was fined his per diem for failing to respond to his name when it was called. The jury was waived in Alva W. Bradley vs. John W. Curtis et al. and the case goes on the list of court actions.

The grand jury returned seven indictments and the following prisoners were arraigned: Wm. Smith and J. Murphy, for robbery in the second degree, until this afternoon to plead. E. L. Alfred will defend them. John McDonald for mayhem given until this afternoon to plead and Wallace Warner will defend. Lew Marsh, grand larceny in the first degree, given until Monday to plead, and C. O. Baldwin will defend. Wm. Raymond, grand larceny in the first degree, to plead this afternoon. A. L. Agatin will defend.

Before Judge Lewis in room 3, the case of Edith Watzke vs. the Duluth and Superior Steamship company, was settled and dismissed, and the case of Henry Gigg vs. Wm. Davis et al. is now on trial.

Before Judge Hooker, in chambers, motions for new trials will be heard today and tomorrow.

FEW SEASON CHARTERS.

Not Enough Ore Sold to Create a Demand for Vessels.

According to latest advices from Cleveland there has not yet been enough ore sold to cut any figure in lake freights. Shippers assert their ability to secure tonnage for ore from the head of Lake Superior at \$1.15.

The impression is general that there will be less tonnage contracted this season than there has been for a number of years. Vessel men and brokers claim they are making no effort to do anything in ore. Matters are in the same shape they were a month ago, and they can see no reason for accepting less than last season's rates.

Buffalo dailies report the engagement of the steamers Presley, Marquette and Colonial for Milwaukee, the steamers John Owen, Arizona and barge Plymouth for Chicago, at 60 cents per ton on coal.

Not a Retail House.

The statement having been made that the new drug house to be established here by C. H. Sagar of Auburn, N. Y., would be a wholesale and retail house, Mr. Sagar desires a correction made. The new house will be a strictly wholesale house and will not do any retail business.

Wanted to See Peter.

The wife of Peter Carlo, the man who was indicted for raping a little girl, unexpectedly turned up this morning with a request to see her husband who is confined in the county jail. She is a young and attractive woman and doesn't seem to feel the weight of her husband's disgrace very heavily.

New Land Company.

Articles of incorporation of the North and South Side Land company were filed with Register Shepard this morning. The capital stock is \$50,000 and the limit of indebtedness is \$10,000. The incorporators are A. E. Humphreys, Frank Cox and William F. Gore, all of Duluth. There are 200 shares of a face value of \$25 each.

We expect fully 25,000 people to visit our store Monday, opening day at the Glass Block.

To Add a Cafe.

It is reported that Haynie & Co. intend running a cafe on the second floor of their new store for the accommodation of their trade. The idea is not to have an elaborate place, but an exclusive nook where a lady being down town can go and obtain a dainty little lunch. We should think this a very clever idea. It requires very little pressure on the thinker to follow out the cause of this concern's popularity.
